

NSE8_812 Minimum Pass Score - Free PDF 2026 Fortinet First-grade NSE8_812 New Braindumps Book

What's more, part of that TestBraindump NSE8_812 dumps now are free: <https://drive.google.com/open?id=1WaNh6YZ9OsqmXHljRsJsZDQJMfE-Wezg>

With the rapid market development, there are more and more companies and websites to sell NSE8_812 guide question for learners to help them prepare for exam, but many study materials have very low quality and low pass rate, this has resulting in many candidates failed the exam, some of them even loss confidence of their exam. You may be also one of them, you may still struggling to find a high quality and high pass rate NSE8_812 Test Question to prepare for your exam. Your search will end here, because our study materials must meet your requirements.

The NSE8_812 certification is a globally recognized certification that demonstrates your expertise in advanced security concepts and Fortinet products. Achieving this certification can open up new career opportunities, increase your earning potential, and provide you with the skills and knowledge needed to design and implement advanced security solutions using Fortinet products. Additionally, the NSE8_812 Certification is a requirement for certain advanced-level Fortinet partner programs, making it a valuable credential for Fortinet partners and resellers.

NSE8_812 New Braindumps Book - NSE8_812 Latest Mock Test

In today's society, everyone wants to find a good job and gain a higher social status. As we all know, the internationally recognized NSE8_812 certification means that you have a good grasp of knowledge of certain areas and it can demonstrate your ability. This is a fair principle. But obtaining this NSE8_812 certificate is not an easy task, especially for those who are busy every day. However, if you use our NSE8_812 Exam Torrent, we will provide you with a comprehensive service to overcome your difficulties and effectively improve your ability. If you can take the time to learn about our NSE8_812 quiz prep, I believe you will be interested in our products. Our learning materials are practically tested, choosing our NSE8_812 exam guide, you will get unexpected surprise.

Fortinet NSE 8 - Written Exam (NSE8_812) Sample Questions (Q57-Q62):

NEW QUESTION # 57

A FortiGate deployment contains the following configuration:

```

config system vdom-exception
  edit 1
    set object router.route-map
    set scope inclusive
    set vdom SERVICES
  next
end

```

FORTINET

What is the result of this configuration?

- A. Route-maps from VDOM SERVICES are available in all other VDOMs
- **B. Route-maps for VDOM SERVICES are excluded from HA configuration synchronization**
- C. Route-maps are not configurable in VDOM SERVICES
- D. Route-maps from the Root VDOM configuration are available in VDOM SERVICES

Answer: B

Explanation:

<https://docs.fortinet.com/document/fortigate/7.2.4/administration-guide/105611>

NEW QUESTION # 58

Refer to the exhibits.

Topology

Configuration

```

** HQ CONFIGURATION **

config router prefix-list
  edit "route-in"
    config rule
      edit 1
        set prefix 172.16.201.0 255.255.255.0
        set ge 25
        set le 28
      next
      edit 2
        set prefix 172.16.204.0 255.255.255.0
        set ge 23
        set le 25
      next
    end
  next
end

config router bgp
  set as 64511
  set router-id 1.1.1.1
  config neighbor
    edit "10.10.102.87"
      set soft-reconfiguration enable
      set prefix-list-in "route-in"
      set remote-as 64512
    next
  end
end

```

A customer has deployed a FortiGate with iBGP and eBGP routing enabled. HQ is receiving routes over eBGP from ISP 2; however, only certain routes are showing up in the routing table-Assume that BGP is working perfectly and that the only possible modifications to the routing table are solely due to the prefix list that is applied on HQ.

Given the exhibits, which two routes will be active in the routing table on the HQ firewall? (Choose two.)

- A. 172.62.0.64/27
- B. 172.16.204.128/25
- C. 172.16.201.96/29
- D. 172.16.204.64/27

Answer: B,D

Explanation:

The prefix list in the exhibit is configured to match prefixes that are either in the 172.16.204.0/24 subnet or in the 172.62.0.0/16 subnet. The routes that match these prefixes will be active in the routing table on the HQ firewall.

The routes that match the following prefixes will not be active in the routing table:

* 172.16.201.96/29

* 172.62.0.64/27

These routes do not match the criteria set by the prefix list.

NEW QUESTION # 59

SD-WAN is configured on a FortiGate. You notice that when one of the internet links has high latency the time to resolve names using DNS from FortiGate is very high.

You must ensure that the FortiGate DNS resolution times are as low as possible with the least amount of work.

What should you configure?

- A. Configure two DNS servers and use DNS servers recommended by the two internet providers.
- B. Configure local out traffic to use the outgoing interface based on SD-WAN rules with the interface IP and configure an SD-WAN rule to the DNS server.
- C. Configure local out traffic to use the outgoing interface based on SD-WAN rules with a manual defined IP associated to a loopback interface and configure an SD-WAN rule from the loopback to the DNS server.
- D. Configure an SD-WAN rule to the DNS server and use the FortiGate interface IPs in the source address.

Answer: B

Explanation:

SD-WAN is a feature that allows users to optimize network performance and reliability by using multiple WAN links and applying rules based on various criteria, such as latency, jitter, packet loss, etc. One way to ensure that the FortiGate DNS resolution times are as low as possible with the least amount of work is to configure local out traffic to use the outgoing interface based on SD-WAN rules with the interface IP and configure an SD-WAN rule to the DNS server. This means that the FortiGate will use the best WAN link available to send DNS queries to the DNS server according to the SD-WAN rule, and use its own interface IP as the source address. This avoids NAT issues and ensures optimal DNS performance. Reference:

<https://docs.fortinet.com/document/fortigate/7.0.0/sd-wan/19662/sd-wan>

NEW QUESTION # 60

Which two statements are correct on a FortiGate using the FortiGuard Outbreak Protection Service (VOS)? (Choose two.)

- A. The AV engine scan must be enabled to use the FortiGuard VOS feature
- B. The FortiGuard VOS can be used only with proxy-base policy inspections.
- C. If third-party AV database returns a match the scanned file is deemed to be malicious.
- D. The antivirus database queries FortiGuard with the hash of a scanned file
- E. The hash signatures are obtained from the FortiGuard Global Threat Intelligence database.

Answer: D,E

Explanation:

c) The antivirus database queries FortiGuard with the hash of a scanned file. This is how the FortiGuard VOS service works. The FortiGate queries FortiGuard with the hash of a scanned file, and FortiGuard returns a list of known malware signatures that match the hash.

e) The hash signatures are obtained from the FortiGuard Global Threat Intelligence database. This is where the FortiGuard VOS service gets its hash signatures from. The FortiGuard Global Threat Intelligence database is updated regularly with new malware signatures.

NEW QUESTION # 61

Refer to the CLI configuration of an SSL inspection profile from a FortiGate device configured to protect a web server:

```
config firewall ssl-ssh-profile
edit Inbound-SSL-Inspect
config https
set ports 443
set status deep-inspection
end
...
set supported-alpn none
next
end
```

Based on the information shown, what is the expected behavior when an HTTP/2 request comes in?

- A. FortiGate will strip the ALPN header and forward the traffic.
- B. FortiGate will forward the traffic without modifying the ALPN header.
- C. FortiGate will reject all HTTP/2 ALPN headers.
- D. FortiGate will rewrite the ALPN header to request HTTP/1.

Answer: A

Explanation:

<https://docs.fortinet.com/document/fortigate/7.0.0/new-features/710924/http-2-support-in-proxy-mode-ssl-inspection>

NEW QUESTION # 62

.....

With our test-oriented NSE8_812 test prep in hand, we guarantee that you can pass the NSE8_812 exam as easy as blowing away the dust, as long as you guarantee 20 to 30 hours practice with our NSE8_812 study materials. The reason why we are so confident lies in the sophisticated expert group and technical team we have, which do duty for our solid support. They develop the NSE8_812 Exam Guide targeted to real exam. The wide coverage of important knowledge points in our NSE8_812 latest braindumps would be greatly helpful for you to pass the exam.
