Three Easy-to-Use Itcertmaster SAP C-AIG-2412 Exam Dumps Formats

The C-AIG-2412 practice materials are a great beginning to prepare your exam. Actually, just think of our C-AIG-2412 practice materials as the best way to pass the exam is myopic. They can not only achieve this, but ingeniously help you remember more content at the same time. It is estimated conservatively that the passing rate of the exam is over 98 percent with our C-AIG-2412 Study Materials as well as considerate services. We not only provide all candidates with high pass rate study materials, but also provide them with good service.

SAP Certified Associate - SAP Generative AI Developer Sample Questions (Q28-Q33):

NEW QUESTION # 28

Which of the following are features of the SAP AI Foundation?

Note: There are 2 correct answers to this question.

- A. Joule integration in SAP SuccessFactors
- B. AI runtimes and lifecycle management
- C. Ready-to-use AI services
- D. Open source AI model repository

Answer: B,C

NEW QUESTION # 29

What must be defined in an executable to train a machine learning model using SAP AI Core? Note: There are 2 correct answers to this question.

- A. Deployment templates for SAP AI Launchpad
- **B. Infrastructure resources such as CPUs or GPUs**
- **C. Pipeline containers to be used**
- D. User scripts to manually execute pipeline steps

Answer: B,C

NEW QUESTION # 30

You want to extract useful information from customer emails to augment existing applications in your company. How can you use generative-ai-hub-sdk in this context?

- A. Train custom models based on the mail data.
- **B. Generate JSON strings based on extracted information.**
- C. Generate random email content and send them to customers.
- D. Generate a new SAP application based on the mail data.

Answer: B

Explanation:

The generative-ai-hub-sdk in SAP's Generative AI Hub enables developers to interact with large language models (LLMs) for various tasks, including information extraction and data formatting.

1. Extracting Information from Customer Emails:

* Natural Language Processing (NLP): By leveraging LLMs, the SDK can process unstructured email content to identify and extract pertinent information, such as customer inquiries, sentiments, or intents.

2. Generating JSON Strings:

* Structured Data Output: After extracting the necessary information, the SDK can format the data into JSON strings. This structured format is essential for integrating the extracted information into existing applications, facilitating seamless data exchange and processing.

3. Integration into Existing Applications:

* Application Enhancement: The JSON-formatted data can be utilized to augment existing applications, such as customer relationship management (CRM) systems, by providing insights derived from customer emails, thereby improving decision-making and customer interactions.

NEW QUESTION # 31

What is the primary function of the embedding model in a RAG system?

- A. To store vector representations of documents and search for relevant passages
- **B. To encode queries and documents into vector representations for comparison**
- C. To generate responses based on retrieved documents and user queries
- D. To evaluate the faithfulness and relevance of generated answers

Answer: B

NEW QUESTION # 32

Which of the following is unique about SAP's approach to AI?

- A. Utilizing AI mainly for marketing purposes.
- **B. SAP's deep integration of AI with business processes and analytics.**
- C. Focusing AI solely on customer support services.
- D. Offering AI capabilities in their future products as of 2025.

Answer: B

Explanation:

SAP distinguishes itself by deeply embedding Artificial Intelligence (AI) into its core business processes and analytics, enhancing efficiency and decision-making across various enterprise functions.

1. Integration of AI into Business Processes:

* SAP Business AI: SAP focuses on solving customers' business problems by integrating AI directly into business processes, rather than offering general-purpose AI platforms. This approach ensures that AI solutions are tailored to specific business needs, enhancing process efficiency and effectiveness.

* SAP S/4HANA Integration: By embedding AI into SAP S/4HANA, SAP enables real-time data analysis and process optimization. This integration allows for improved supply chain efficiency, enhanced financial decision-making, and personalized customer experiences.

2. AI-Driven Analytics:

* SAP Analytics Cloud: This solution combines AI with analytics and planning, unlocking the full potential of business data. It provides advanced analytics capabilities, enabling businesses to make informed decisions based on real-time insights.

* Predictive Analytics Library: SAP HANA includes a Predictive Analytics Library with native algorithms for statistical measures, clustering, classification, and time series analysis. This facilitates advanced data processing and predictive analytics within business applications.

3. AI in Enterprise Applications:

* SAP SuccessFactors: AI is integrated into SAP SuccessFactors to enhance human resources processes, such as talent acquisition and employee engagement, by providing data-driven insights and automating routine tasks.

* SAP AI Business Services: These services offer reusable AI capabilities that can be integrated across various business processes, automating tasks like document processing and enriching customer experiences.

NEW QUESTION # 33

.....

It is not hard to find that there are many different kinds of products in the education market now. It may be difficult for users to determine the best way to fit in the complex choices. We can tell you with confidence that the C-AIG-2412 practice materials are superior in all respects to similar products. First, users can have a free trial of C-AIG-2412 test prep, to help users better understand the C-AIG-2412 Study Guide. If the user discovers that the product is not appropriate for him, the user can choose another type of learning material. Respect the user's choice, will not impose the user must purchase the C-AIG-2412 practice materials. We can meet all the requirements of the user as much as possible, to help users better pass the qualifying exams.
