NEW QUESTION # 189
The Marketing team at Cloud Kicks uses campaigns to generate product interest. They want custompicklist values for the campaign member Status field for each campaign they run, currently, they ask the administrator to add or delete values, but this is very time consuming.
Which two user permission should allow the Marketing team to customize the campaign member status picklist values themselves?
Choose 2 answers

- A. Create and Edit for Campaign Member
- B. Customize Application permission
- C. Edit permission for campaigns
- D. Marketing user feature license

Answer: C,D

Explanation:
Explanation
To customize the campaign member status picklist values themselves, marketing users need two things: a marketing user feature license and edit permission for campaigns. A marketing user feature license enables users to create, edit, and delete campaigns; manage campaign members; and update campaign history via the import wizards or API. Edit permission for campaigns allows users to modify existing campaigns and their related records such as campaign members and campaign member statuses. References:
