So feel relieved when you buy our Workday-Pro-Talent-and-Performance guide torrent.

## Workday Pro Talent and Performance Exam Sample Questions (Q21-Q26):

### NEW QUESTION # 21

A worker is providing feedback and they only want it to be visible to the feedback recipient. What kind of feedback allows for this?

- A. Anonymous
- **B. Private**
- C. Confidential

- D. Public

**Answer: B**

Explanation:

- \* In Workday, Private Feedback is visible only to the feedback recipient.
- \* Confidential Feedback is visible to both the recipient and their manager.
- \* Anonymous Feedback hides the identity of the feedback giver but may still be visible to managers or admins depending on configuration.
- \* Public Feedback is broadly visible across the organization or workgroup.

Therefore, the only feedback type that ensures visibility only to the recipient is Private Feedback.

References:

Workday Talent & Performance study material on feedback types.

Workday Pro Talent & Performance training notes: "Private feedback is restricted to the recipient alone; confidential feedback includes the manager, while public feedback is visible more broadly."

### NEW QUESTION # 22

You want to configure your Performance Review business process so that other users can rate an employee's competencies. Which subprocesses do you configure for this?

- A. Get Additional Manager Evaluation for Performance Review and Complete Additional Manager Evaluation for Performance Review
- B. Get Additional Manager Evaluation for Performance Review and Complete Additional Evaluation for Performance Review
- C. Get Additional Reviewers for Performance Review and Complete Additional Manager Evaluation for Performance Review
- **D. Get Additional Reviewers for Performance Review and Complete Additional Evaluation for Performance Review**

**Answer: D**

Explanation:

- \* To allow other users (besides the direct manager) to rate competencies:
- \* Use Get Additional Reviewers for Performance Review# allows nominating additional evaluators.
- \* Then use Complete Additional Evaluation for Performance Review# routes the evaluation step to the selected additional reviewers.
- \* Incorrect options mix up "Additional Manager" with "Additional Reviewer." Managers are a subset, but to include broader participants, the correct subprocesses are Reviewers + Evaluation.

References:

Workday Performance Review BP design documentation.

Workday Pro Talent & Performance exam material: "For additional reviewers (not limited to managers), configure Get Additional Reviewers + Complete Additional Evaluation subprocesses."

### NEW QUESTION # 23

What do you use a talent pool for?

- A. To organize workers by hierarchical structure.
- B. To create a short list of ranked candidates who are preparing to take over a position.
- **C. To organize and segment groups of workers for development.**
- D. To assess the readiness of internal candidates and consider external candidates for job profiles.

**Answer: C**

Explanation:

- \* Talent Pools are designed to group employees for development and succession planning purposes.
- \* They help organizations track readiness, identify high potentials, and prepare workers for future roles.
- \* Incorrect options:
- \* A. Organizing by hierarchy is done via Supervisory Organizations, not talent pools.
- \* B. A short list of ranked candidates is closer to Succession Planning, not talent pools.
- \* D. Assessing readiness for job profiles (including external candidates) is Succession Planning, not pools.

References:

Workday Talent Management Guide: "Talent pools are collections of workers for development and growth opportunities." Workday Pro Talent & Performance certification prep.

### NEW QUESTION # 24

Your organization launches talent reviews for the entire organization on an annual basis. You created a new Talent Lead security group to initiate the talent review event.

What do you need to modify to enable this configuration?

- A. The Launch Talent Reviews business process security policy
- **B. Both the Launch Talent Reviews business process security policy and the Talent Review domain security policy**
- C. The Talent Review business process security policy
- D. Both the Talent Review business process security policy and the Talent Review domain security policy

**Answer: B**

Explanation:

This scenario involves enabling a new security group (Talent Lead) to initiate Talent Review events in Workday. To achieve this, you need to configure both the business process security and domain security that govern Talent Reviews.

\* Launch Talent Reviews business process security policy

\* This policy controls who has permission to initiate the Talent Review event.

\* Without updating this, the new Talent Lead group cannot start the review process.

\* Talent Review domain security policy

\* This policy governs access to Talent Review objects, such as templates, review events, grids, and attributes.

\* Without updating domain security, even if the group can launch the process, they will not be able to view or interact with the talent review itself.

\* Incorrect alternatives

\* Option B (Launch Talent Reviews only): This would allow the group to initiate the process, but they would lack access to view or work with the reviews.

\* Option C (Talent Review business process security policy): There is no generic "Talent Review business process"; the correct one is "Launch Talent Reviews."

\* Option D (Talent Review business process + domain security): Misstated. The business process in question is "Launch Talent Reviews," not a general Talent Review business process.

Therefore, the correct answer is to update both the Launch Talent Reviews business process security policy and the Talent Review domain security policy so that the Talent Lead group has both initiation rights and access permissions.

References

\* Workday Pro Talent & Performance Certification Guide - Security in Talent Reviews: Explains that both business process security and domain security must be configured for security groups responsible for launching talent reviews.

\* ERP Cloud Training - Talent Review Security: Notes that business process security grants initiation rights, while domain security controls access to objects and review content.

\* Workday Community Documentation - Talent Review Setup: Confirms that both the Launch Talent Reviews business process policy and the Talent Review domain security policy must be modified when a new security group is added to initiate reviews.

### NEW QUESTION # 25

An enterprise uses only the job management staffing model.

What option groups workers for succession purposes?

- A. Development Plan
- **B. Succession Pools**
- C. Succession Plans
- D. Candidate Pools

**Answer: B**

Explanation:

\* Even when using a job management staffing model, organizations use Succession Pools to group workers for succession planning.

\* Pools identify workers with potential to step into key roles in the future.

\* Incorrect options:

\* A. Development Plan # defines individual growth steps, not succession grouping.

\* B. Candidate Pools # used in recruiting, not succession.

\* C. Succession Plans # tied to specific positions or job profiles, not used for general grouping in job management models.

References:

Workday Succession Planning guide: "Succession Pools are used to group workers in job management staffing models."

## NEW QUESTION # 26

.....
