L5M5試験番号、L5M5テスト対策書

この時代の変革とともに私たちちは努力して積極的に進歩すべきです。CIPSのL5M5試験に参加するのを決めるとき、あなたは強い心を持っているのを証明します。我々Jpshikenはあなたのような積極的な人に目標を達成させます。我々の提供した一番新しくて全面的なCIPSのL5M5資料はあなたのすべての需要を満たすことができます。

CIPS Managing Ethical Procurement and Supply (L5M5) 認定 L5M5 試験問題 (Q42-Q47):

質問 #42

Which of the following strategies is primarily designed to lower business costs while also considering social and environmental impacts?

- A. Cutting Workforce Salaries
- B. Increasing Product Prices
- C. **Value Engineering**
- D. Outsourcing

正解: C

解説:

Choice B- Value engineering is a structured approach to improving the value of products or services by analyzing their functions. It aims to reduce costs without sacrificing quality, thereby enhancing overall efficiency. It reviews and amends new products like reworking or developing new processes so that fewer raw materials are used or wasted in production of goods. This method encourages innovation and sustainability, often leading to more environmentally friendly processes and materials, and can also foster positive social outcomes by improving product design and usability.

Incorrect answer:

Choice A- Outsourcing involves contracting third-party companies to handle certain business functions or processes. While it can reduce costs by utilizing cheaper labor or specialized services, it often does not address social or environmental impacts. In some cases, outsourcing can lead to negative consequences, such as job losses in the local economy or reliance on suppliers with poor labor practices.

Choice C- Increasing product prices is a straightforward way to improve profit margins, but it does not reduce costs. In fact, this strategy can alienate customers, especially in competitive markets. Additionally, it may not have any direct impact on social or environmental considerations, and could potentially lead to decreased accessibility for consumers.

Choice D- Cutting salaries is a short-term cost-saving measure that can severely impact employee morale, loyalty, and productivity. While it may reduce costs temporarily, it often leads to higher turnover rates and loss of skilled workers. This strategy can have negative social impacts on the workforce and may ultimately harm the company's reputation and long-term sustainability.

質問 # 43

Which of the following actions could create a conflict between profitability and social value among stakeholders?

- A. Implementing environmentally sustainable practices
- B. Offering competitive prices to customers
- C. Cutting costs by reducing employee wages
- D. Engaging in corporate social responsibility initiatives

正解: C

解説:

Choice B- Cutting costs by reducing employee wages is the action that could lead to a conflict between profitability and social value. While it might improve short-term profits, it can negatively affect employee morale, retention, and overall company reputation, leading to long-term challenges.

Incorrect answer:

Choice A- This action typically enhances social value by promoting environmental responsibility. While it may involve higher upfront costs, in the long run, it can lead to savings, increased customer loyalty, and a stronger brand reputation. Thus, it usually aligns profitability with social value rather than conflicting with it.

Choice C- Engaging in CSR initiatives often enhances a company's reputation and fosters goodwill within the community. While it may require financial investment and could impact short-term profits, it generally aligns with social value and can lead to long-term benefits, such as customer loyalty and brand strength.

Choice D- Offering competitive prices may initially seem like a strategy focused solely on profitability. However, it can also enhance social value by making products more accessible to a broader audience. If done without compromising quality or ethical standards, this option usually does not create a conflict but can benefit both profitability and social value.

質問 # 44

What does the "D" stand for in STEEPLED Analysis?

- A. Data
- B. Demographic
- C. Debt
- D. Delivery

正解: B

解説:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

The STEEPLED analysis tool examines external macro-environmental factors: Social, Technological, Economic, Environmental, Political, Legal, Ethical, and Demographic. The L5M5 study guide (p.55) confirms that "D" stands for Demographic, reflecting population trends, age structures, and workforce availability. This addition evolved from the earlier PESTLE model, later extended to STEEPLE and STEEPLED. Procurement professionals use this tool to assess external risks and opportunities that may affect supply markets and ethical sourcing.

質問 #45

XYZ Corporation has been acquired by a global company that plans to centralize all sourcing activities and standardize processes. Which factor could help XYZ Corporation gain a competitive advantage through this centralization?

- A. Ability to use more favorable legislation in different countries and avoid local legal obligations
- B. Efficiency gains that lead to increased productivity and lower prices
- C. Improved benchmarking shared data to provide ability to agree prices with global competitors
- D. Increased due diligence activity resulting in lower governance of suppliers

正解: C

解説:

Choice B- Improved benchmarking and shared data can help a company agree on prices with global competitors and gain a competitive advantage. Option B is the correct answer.

Incorrect answer:

Choice A- Legal obligations have to be maintained from wherever the company is operating. Avoiding or adhering to legislations is not a competitive advantage.

Choice C- Competitive advantage can best be described as what sets an organization apart. Increased efficiency is the result of competitive advantage but not a competitive advantage itself.

Choice D- Increased due diligence activity resulting in lower governance of suppliers is not a competitive advantage for XYZ Corporation.

質問 #46

Which of the following are core Labour Standards of the ILO? Select TWO

- A. Equal opportunities for all
- B. Protection from job insecurity
- C. Freedom of association
- D. Payment of a living wage

正解: C、D

解説:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

The International Labour Organisation (ILO) has defined core labour standards. According to the L5M5 study guide (old p.60, new p.88), these include freedom of association (A) and payment of a living wage (B). Other standards include the right to unionise, elimination of forced labour, and restriction of child labour. Equal opportunities (C) and protection from job insecurity (D) are important labour rights but not classified as core ILO standards. Procurement professionals must ensure suppliers comply with these standards to avoid reputational, legal, and operational risks.
