The client only needs 20-30 hours to learn our NS0-005 learning questions and then they can attend the test. Most people may devote their main energy and time to their jobs, learning or other important things and can't spare much time to prepare for the test. But if clients buy our NS0-005 Training Materials they can not only do their jobs or learning well but also pass the test smoothly and easily because they only need to spare little time to learn and prepare for the NS0-005 test.

By propagating all necessary points of knowledge available for you, our NS0-005 study materials helped over 98 percent of former exam candidates gained successful outcomes as a result. Our NS0-005 exam questions have accuracy rate in proximity to 98 and over percent for your reference. And it is unique and hard to find in the market as our NS0-005 training guide. Besides, our price of the NS0-005 practice engine is quite favourable.

HOT NS0-005 Frequent Updates - High Pass-Rate Network Appliance NS0-005 Valid Test Prep: NetApp Technology Solutions Professional Exam

The most notable feature of the NS0-005 learning quiz is that they provide you with the most practical solutions to help you learn the exam points of effortlessly and easily, then mastering the core information of the certification course outline. Their quality is much higher than the quality of any other materials, and questions and answers of NS0-005 Training Materials contain information from the best available sources. Whether you are newbie or experienced exam candidates, our NS0-005 study guide will relieve you of tremendous pressure and help you conquer the difficulties with efficiency.

Network Appliance NS0-005 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Intelligent Data Infrastructure: This domain addresses advanced solutions including cyber resiliency, data mobility, hybrid cloud protection, storage architectures, and flexible consumption models for NetApp.
Topic 2	<ul style="list-style-type: none">Infrastructure: This domain covers foundational concepts including basic infrastructure components, data management principles, virtualization technologies, and AI fundamentals relevant to storage environments.
Topic 3	<ul style="list-style-type: none">Data Storage Software: This domain focuses on NetApp's core software platforms including SANtricity, ONTAP, and StorageGRID, along with the data management tools used to operate these systems.

Network Appliance NetApp Technology Solutions Professional Exam Sample Questions (Q20-Q25):

NEW QUESTION # 20

What is the function of the Trusted Platform Module (TPM) that is built into NetApp FAS and AFF systems?

- A. Communicate to a Key Management Interoperability Protocol (KMIP) server.
- B. Encrypt data in flight between two NetApp ONTAP based storage systems.
- C. Encrypt data in flight between on premises and cloud.
- D. **Generate the node encryption key.**

Answer: D

NEW QUESTION # 21

On which parameter is the NetApp BlueXP observability pricing model based?

- A. frequency of metric ingestion
- B. number of logging intervals
- C. number of managed units
- D. **capacity of metrics that are ingested**

Answer: D

Explanation:

NetApp BlueXP, which is a suite of cloud-based services, typically uses a pricing model that focuses on the amount of data processed or managed, rather than the number of log entries, the frequency of metric ingestion, or the number of managed units. In the context of observability and monitoring services, this often translates to pricing based on the volume or capacity of metrics ingested into the system for analysis and monitoring purposes.

This approach aligns with common practices in cloud service pricing, where the emphasis is on the resources consumed (in this case, the data capacity) rather than the frequency of operations or the count of monitored entities.

So, option C is the most likely correct answer for the pricing model of NetApp BlueXP's observability services.

NEW QUESTION # 22

Which Keystone add-on service leverages NetApp MetroCluster technology?

- A. **Advanced data protection**
- B. Equinix-powered services
- C. Data tiering
- D. NetApp Data Infrastructure Insights

Answer: A

NEW QUESTION # 23

You have multiple on-premises applications writing to ONTAP LUNs and NFS exports. You want to build a disaster recovery solution from your on-premises ONTAP systems to your Microsoft Azure Resource Group while preserving the data efficiency and access properties for block and file.

Which cloud storage destination would you use In Microsoft Azure to accomplish this task?

- A. Azure NetApp Files
- B. Azure Blob Destination
- C. NetApp Cloud Volumes Service
- D. **NetApp Cloud Volumes ONTAP**

Answer: D

NEW QUESTION # 24

What are two types of NetApp StorageGRID appliances? (Choose two.)

- A. Management appliances

- B. Service appliances
- C. Storage appliances
- D. backup appliances

Answer: B,C

NEW QUESTION # 25

Do you want to obtain your NS0-005 study materials as quickly as possible? If you do, then we will be your best choice. You can receive downloading link and password with ten minutes after buying. In addition, NS0-005 exam dumps are high quality, because we have experienced experts to edit, and you can pass your exam by using NS0-005 Exam Materials of us. In addition, we are pass guarantee and money back guarantee, if you fail to pass the exam by using NS0-005 study materials of us, we will give you full refund. And the money will be returned to your payment account.
