## PMI Project Management Office Certified Professional Sample Questions (Q64-Q69):

### NEW QUESTION # 64

A PMO professional has been tasked with architecting a long-term PMO strategy to ensure value delivery to its customers over time. Some PMO services will generate immediately perceptible outcomes, while others may only show tangible benefits in the medium or long term. Additionally, PMO customer perceptions of value are expected to evolve as organizational priorities shift. Which approach should the PMO professional take to establish a value-driven PMO strategy that remains relevant over time?

- A. Develop a fixed portfolio of services, ensuring that all services are delivered consistently without adjustments, regardless of

changes in PMO customer needs over time.

- B. Focus only on services that deliver immediate, short-term outcomes to quickly demonstrate the PMO's value to PMO customers.
- C. Concentrate on long-term services that deliver significant value after several years, ignoring immediate outcomes to avoid distractions from larger goals.
- **D. Establish a value journey by prioritizing services that can generate short-term wins while planning for mid- and long-term outcomes, and regularly reassess PMO customer perceptions of value.**

**Answer: D**

Explanation:

The best approach is to create a balanced value journey that prioritizes early, visible wins while planning for longer-term outcomes. Regularly reassessing customer perceptions ensures the strategy evolves with shifting organizational priorities.

Focusing only on long-term (Option A) or short-term (Option C) outcomes risks missing critical value opportunities. A fixed service portfolio (Option D) ignores evolving customer needs.

PMI-PMOCP Strategic Alignment highlights adaptive, phased value delivery as a best practice.

#### NEW QUESTION # 65

A newly appointed PMO professional for a startup specializing in mobile analytics has been tasked with establishing a PMO to streamline project management processes and ensure successful delivery.

Which step should the PMO professional prioritize to gain approval from the CEO to sponsor the initiative?

- A. Draft a project charter to outline the benefits and objectives of the PMO and have it approved by the sponsor.
- B. Implement PMO processes immediately to demonstrate the potential benefits and get buy-in.
- C. Analyze potential risks and mitigation strategies associated with the PMO functions and services.
- **D. Work with the CEO to identify and understand the needs and goals of the company's potential PMO customers.**

**Answer: D**

Explanation:

Gaining CEO sponsorship requires collaborating with the CEO to understand business needs and PMO customer goals, ensuring the PMO's design is relevant and aligned. PMI-PMOCP highlights stakeholder engagement and strategic alignment as prerequisites to securing executive buy-in and support.

Drafting a charter (option A) or analyzing risks (option B) is important but should follow needs assessment.

Implementing processes prematurely (option C) risks resistance without buy-in.

#### NEW QUESTION # 66

A PMO was set up in a large organization with a highly skilled PMO professional appointed to lead it. The sponsor agreed to give the PMO professional all the necessary resources from the beginning. The PMO professional and team immediately progressed with the implementation of accepted project management methodologies and internationally recognized practices and tools. At the end of the year, executive leadership raised concerns about the PMO's performance.

What should the PMO professional have considered during the service catalog development?

- A. The PMO professional should have surveyed the portfolio, program, and project managers because they are the ones using the methodologies and tools.
- B. The PMO professional should have interviewed other members of the executive leadership team and not just the PMO sponsor.
- **C. The PMO professional should have identified the needs of all of the customer groups and adapted the service catalog based on their pain points and expectations.**
- D. The PMO professional should have benchmarked against the experience of successful PMOs from other organizations.

**Answer: C**

Explanation:

Effective service catalog development requires a comprehensive understanding of all PMO customer groups and their unique needs. PMI-PMOCP highlights that adapting services to customer pain points and expectations ensures relevance, adoption, and value delivery. This broad stakeholder engagement avoids disconnect between PMO offerings and organizational requirements. Interviewing only executives (option A), benchmarking (option B), or surveying just project managers (option C) are insufficient alone. Identifying diverse customer needs holistically is critical to service effectiveness.

#### NEW QUESTION # 67

A junior team member is assigned to a project that uses a unique, in-house methodology. What should the PMO professional do to ensure the junior team member is productive within the shortest possible time?

- A. Provide the junior team member with the methodology study guide for self-study.
- B. Monitor the performance of the junior team member and provide training when required.
- **C. Assign a more senior team member to mentor and guide the junior team member.**
- D. Schedule a refresher training on the methodology for all project team members.

**Answer: C**

Explanation:

Assigning a mentor to a junior team member accelerates learning and integration, especially with unique or complex methodologies. PMI-PMOCP recognizes mentoring as an effective knowledge transfer and support mechanism, fostering quicker adaptation and improved performance.

While monitoring (option A) and training (option D) are useful, mentorship provides continuous, contextual guidance. Self-study (option B) alone may be insufficient for rapid proficiency.

#### NEW QUESTION # 68

A newly hired PMO professional works within the PMO and supports a large enterprise program. This professional is expected to guide junior PMO team members but faces difficulties with team management and collaboration. How should the PMO leader best support the PMO professional in overcoming these challenges?

- A. Mentor the team member to help build their confidence.
- **B. Offer personalized coaching with a focus on leadership skills.**
- C. Arrange regular knowledge-sharing sessions in the PMO community.
- D. Organize an all-hands meeting for the PMO team to discuss their challenges.

**Answer: B**

Explanation:

Personalized coaching focusing on developing leadership skills is the best support to help the PMO professional overcome management and collaboration challenges. Coaching addresses individual development needs in a targeted manner.

Mentoring (Option A) is helpful but broader coaching better addresses leadership competencies. All-hands meetings (Option B) or knowledge-sharing sessions (Option D) are supportive but less personalized.

PMI-PMOCP Lifecycle Management promotes leadership development as essential for PMO team effectiveness.
