P_BPTA_2408 Exam Prep & P_BPTA_2408 Study Guide & P_BPTA_2408 Actual Test

Demos of P_BPTA_2408 PDF and practice tests are free to download for you to validate the SAP P_BPTA_2408 practice material before actually buying the SAP P_BPTA_2408 product. Trying a free demo of SAP P_BPTA_2408 questions will ease your mind while purchasing the product.

SAP Certified Professional - Solution Architect - SAP BTP Sample Questions (Q19-Q24):

NEW QUESTION # 19
A company is struggling with organizing and managing their data. Their data is distributed across many databases and datastores. The data structures are also very inconsistent.
They need harmonized aggregated data to be used as the basis of advanced highly summarized reports for senior executives.
They prefer to use the latest SAP solutions.
Which of the following solutions would you recommend?

- A. SAP Datasphere
- B. SAP HANA Cloud
- C. SAP HANA Cloud, data lake
- D. SAP Analytics Cloud

Answer: A

NEW QUESTION # 20
You are a solution architect on a brownfield project where an SAP ECC 6.0 system is being migrated to SAP S/4HANA Cloud public edition. Two mission- critical legacy applications must be migrated to the new system. There is some debate on the project team as to the appropriate programming model to use:
* Application 1 was originally written using classic ABAP. The underlying SAP tables that the application originally relied on have been removed and the data now exists in a new simplified table in SAP S/4HANA Cloud public edition (to which table extensions are not permitted). Additional data needed for the application resides in SAP Ariba. Remote interfaces exist for both to select the data.
* Application 2 was originally written using Java and relied upon tables from the SAP ECC 6.0 system as well as SAP PLM 4.0. The PLM system will be retired; however, the SAP S/4HANA Cloud public edition instance has all the data needed for the application. No remote interfaces exist to select the data.
Which of the following approaches should the customer use? Note: There are 2 correct answers to this question.

- A. Rewrite application 1 using the Cloud Application Programming Model
- B. Rewrite application 2 using the ABAP RESTful Application Programming Model
- C. Rewrite application 2 using the Cloud Application Programming Model
- D. Rewrite application 1 using the ABAP RESTful Application Programming Model

Answer: C,D

NEW QUESTION # 21
You have been hired as a solution architect and it's your first day on the job. You participate in a meeting discussing the design and development of an extension to SAP S/4HANA Cloud. In the meeting, you are told:
"We have determined that the BusinessPartner (A2X) API in SAP S/4HANA Cloud is insufficient for our needs. Fortunately, the API is extendable via key user extensibility. We are currently creating a diagram with the technical building blocks of the extension".
In which SAP Application Extension Methodology phase is the project?

- A. Define Extension Target Solution
- B. Assess Extension Technology
- C. Assess Extension Use Case

Answer: A

NEW QUESTION # 22
To comply with General Data Protection Regulation (GDPR), a company wants to build an application that allows their customers to delete their personal user information from the company's systems.
Which SAP BTP service provides the APIs to build the application?

- A. SAP Data Privacy Integration
- B. SAP Personal Data Manager
- C. SAP Credential Store
- D. SAP Data Retention Manager

Answer: A

NEW QUESTION # 23
The finance department is creating a series of reports for their line of business (LOB) users and would like to integrate the reports in a front-end portal. They would like the LOB users to maintain the portal, as opposed to IT. As a solution architect, they come to you to recommend which SAP BTP service best fits their needs.
Which service would you recommend?

- A. SAP Build Work Zone, standard edition
- B. SAP Fiori Launchpad
- C. SAP Launchpad Service
- D. SAP Build Work Zone, advanced edition

Answer: D

NEW QUESTION # 24
.....
