

# Top Features of DumpsTests GAQM CASPO-001 Practice Test Software

The screenshot shows a practice exam interface for the GAQM CSM-001 exam. The top bar displays the exam name and the date: 23/11/24, 9:55 PM. The main content area contains five questions, each with a 'Expose Correct Answer' button. The questions are as follows:

- Question 1 (Topic 1):** Please select which statement is the most accurate:
  - A. Agile Development is an implementation of Scrum
  - B. Scrum is an implementation of Agile Development
  - C. Agile Development and Scrum are synonyms for the same methodology
  - D. Agile Development and Scrum are contrasting methodologies
- Question 2 (Topic 1):** Which of the following is not a Product Owner responsibility?
  - A. Running the daily scrum meeting
  - B. Team communication
  - C. Gathering requirements for Product Backlog items
  - D. Inspecting work at Sprint Review
- Question 3 (Topic 1):** How should items in the Product Backlog be ordered?
  - A. Alphabetically first and then by list order in the Product Backlog
  - B. Grouped by business features first and then chronologically by date of original business request
  - C. Prioritized by business importance first. The items that result in biggest ROI must be prioritized first
  - D. Chronologically by date of original business request first and then by list order in the Product Backlog
- Question 4 (Topic 1):** How should items in the Product Backlog be ordered?
  - A. Alphabetically first and then by list order in the Product Backlog
  - B. Grouped by business features first and then chronologically by date of original business request
  - C. Prioritized by business importance first. The items that result in biggest ROI must be prioritized first
  - D. Chronologically by date of original business request first and then by list order in the Product Backlog
- Question 5 (Topic 1):** How should items in the Product Backlog be ordered?
  - A. Alphabetically first and then by list order in the Product Backlog
  - B. Grouped by business features first and then chronologically by date of original business request
  - C. Prioritized by business importance first. The items that result in biggest ROI must be prioritized first
  - D. Chronologically by date of original business request first and then by list order in the Product Backlog

able to pass the exam easily. What are you looking for? Just rush to buy our CASPO-001 practice engine!

## GAQM Certified Agile Scrum Product Owner (CASPO) Sample Questions (Q73-Q78):

### NEW QUESTION # 73

It is mandatory for the Product Owner to monitor and share progress of Product Backlog through: (Choose the best answer)

- A. A Product or Release burn-down chart
- B. Any projective practice based on trends of work completed and upcoming work
- C. A Value burn-up chart
- D. A Sprint Review acceptance report
- E. A Gantt chart

**Answer: B**

Explanation:

The Scrum Guide requires transparency but doesn't mandate specific tools: "The Product Owner is accountable for... ensuring that the Product Backlog is transparent, visible, and understood." Progress tracking is necessary, but the method is flexible.

\* D: This allows any trend-based practice (e.g., burn-downs, burn-ups), fitting Scrum's adaptability.

\* A, B: Useful but not mandatory; Scrum doesn't prescribe them

\* C: Gantt charts are traditional, not Scrum-aligned.

### NEW QUESTION # 74

Who is responsible for maximizing the value of the product? (Choose the best answer)

- A. Product Owner
- B. Scrum Master
- C. Developers
- D. Senior Executives

**Answer: A**

Explanation:

The Product Owner has explicit accountability for product value. The Scrum Guide states: "The Product Owner is accountable for maximizing the value of the product resulting from the work of the Scrum Team."

\* A: The Scrum Master ensures Scrum effectiveness, not value.

\* B: Correct-value maximization is their role.

### NEW QUESTION # 75

Which of the following are roles on a Scrum Team? (Choose the best three answers)

- A. Scrum Master
- B. Product Owner
- C. Users
- D. Developers
- E. Customers

**Answer: A,B,D**

Explanation:

The Scrum Guide defines the Scrum Team as consisting of three roles: "The Scrum Team consists of one Scrum Master, one Product Owner, and Developers." Option A (Developers) is the group responsible for building the Increment. Option D (Product Owner) manages the Product Backlog and value delivery. Option E (Scrum Master) facilitates Scrum adoption and team effectiveness.

Options B (Users) and C (Customers) are external stakeholders, not Scrum Team roles—they interact with the product but aren't part of the team.

Thus, A, D, and E are the correct roles.

## NEW QUESTION # 76

Which three of the following are true about Scrum? (Choose the best three answers)

- A. Scrum is like traditional processes but with self-organization to replace Project Managers.
- B. Scrum is based on empirical process control theory.
- C. Each component of Scrum serves a specific purpose and is essential to Scrum's success and your usage of Scrum to develop complex products.
- D. Scrum is a framework for developing and sustaining complex products.
- E. Scrum is a methodology, where you can pick and choose which parts of Scrum you think will work for your environment.

**Answer: B,C,D**

Explanation:

\* C: The Scrum Guide defines Scrum as "a lightweight framework that helps people, teams, and organizations generate value through adaptive solutions for complex problems." This is a core truth.

\* D: Scrum's foundation in empirical process control theory (transparency, inspection, adaptation) is explicitly stated in the Scrum Guide: "Scrum is founded on empiricism and lean thinking."

## NEW QUESTION # 77

What two things should be done if the Product Owner is unavailable? (Choose the best two answers)

- A. In a permanent state of unavailability, a new Product Owner needs to be appointed. Development efforts without a Product Owner are not employing Scrum.
- B. Within the Sprint, the Developers make the best decisions possible to assure progress toward the Sprint Goal, re-aligning with the Product Owner once he/she is available again.
- C. There should be a Product Owner team to allow a different person from that team to instantly take over the role of Product Owner.

**Answer: A,B**

Explanation:

The Product Owner is a singular, critical role in Scrum: "The Product Owner is one person, not a committee." Temporary or permanent unavailability requires specific actions:

\* A: During a Sprint, the Developers' self-management allows them to proceed toward the Sprint Goal, adjusting with the Product Owner later, per: "The Developers are self-managing, meaning they internally decide who does what, when, and how."

\* C: Permanent absence means Scrum isn't being followed without a Product Owner, necessitating a replacement: "For Product Owners to succeed, the entire organization must respect their decisions."

## NEW QUESTION # 78

.....

The exam will be vanquished smoothly this time by the help of valid latest CASPO-001 exam torrent. Written by meticulous and professional experts in this area, their quality has reached to the highest level compared with others' similar CASPO-001 test prep and concord with the syllabus of the exam perfectly.
