

Quiz HPE0-S59 - HPE Compute Solutions Newest New Question

BONUS!!! Download part of NewPassLeader HPE0-S59 dumps for free: <https://drive.google.com/open?id=1khcGPzWGXEOpEwrapKlsNcRN6tMqZErQ>

As you can see from the demos that on our website that our HPE0-S59 practice engine have been carefully written, each topic is the essence of the content. Only should you spend about 20 - 30 hours to study HPE0-S59 preparation materials carefully can you take the exam. The rest of time you can go to solve all kinds of things in life, ensuring that you don't delay both study and work. Our HPE0-S59 Exam Braindumps will save your time, money and efforts to success.

HP HPE0-S59 (HPE Compute Solutions) Exam is a certification exam designed to test the knowledge and skills of IT professionals in the field of HPE compute solutions. HPE0-S59 exam is intended for individuals who have experience with HPE compute solutions and are looking to validate their skills and knowledge in this area. HPE0-S59 Exam covers a wide range of topics, including HPE compute solutions architecture, installation, configuration, management, and troubleshooting.

HP HPE0-S59 New Question: HPE Compute Solutions - NewPassLeader Free Download

According to various predispositions of exam candidates, we made three versions of our HPE0-S59 study materials for your reference: the PDF, Software and APP online. And the content of them is the same though the displays are different. Untenable materials may waste your time and energy during preparation process. But our HPE0-S59 Practice Braindumps are the leader in the market for ten years. As long as you try our HPE0-S59 exam questions, we believe you will fall in love with it.

HPE Compute Solutions Sample Questions (Q89-Q94):

NEW QUESTION # 89

You discovered that somebody deleted the SSO certificate that affects accessing iLO from HPE OneView from an iLO processor in an HPE Synergy compute node.

How will you recover from this problem?

- A. Navigate to HPE OneView, locate the affected server hardware and use the Reset iLO option.
- B. Login to the HPE Composer CLI and use the efuse procedure for the affected server.
- C. Remove the affected server from HPE OneView and add it again to reconfigure the iLO processor.
- **D. Navigate to HPE OneView, locate the affected server hardware and use Refresh option.**

Answer: D

NEW QUESTION # 90

Click the option that will allow you to change the ESXi image used In an OS Deployment Plan.

□

Answer:

Explanation:

□

Explanation:

The Lifecycle Manager in the vSphere Client interface is used for managing and updating ESXi hosts, including changing the ESXi image used in an OS Deployment Plan. This tool allows administrators to import, export, and apply different ESXi images, ensuring that the hosts are running the desired version and configuration of ESXi.

NEW QUESTION # 91

Your customer has the following HPE Synergy setup:

- Three frames fully populated with HPE Synergy 480 Gen10 Plus modules and 25Gb/s downlink speed formulating a single logical enclosure
- Two HPE Virtual Connect SE 100Gb F32 Module for Synergy
- Four HPE Synergy 50Gb interconnect Link Module
- Six HPE Synergy Virtual Connect SE 32Gb FC Modules

The customer needs to add a frame.

Which statement about the expansion of this setup is true?

- A. The customer has to create a new logical enclosure for the additional frame
- B. The additional frame cannot have 12Gb SAS connection modules installed
- C. The additional frame must have HPE Virtual Connect FC modules installed
- **D. The customer can grow the existing logical enclosure up to 5 frames**

Answer: D

Explanation:

HPE Synergy allows scaling of logical enclosures up to 5 frames. Given the current setup of three frames fully populated with HPE Synergy 480 Gen10 Plus modules and other specified components, the customer can add another frame to the existing logical enclosure. This flexibility in scaling ensures that the logical enclosure can be expanded without the need to create a new logical enclosure, provided that the necessary interconnect modules are in place.

NEW QUESTION # 92

The proposal consists of:

- 3 HPE Synergy 12000 frames
- 6 HPE Composer 2 modules
- 2 HPE Virtual Connect SE 100 GO F32 Module
- 4 HPE Synergy 50 GO interconnect Link Module

Which statements about this proposed design are true? (Select two.)

- A. The current setup can support up to 18 HPE Synergy 480 Gen10 Plus compute modules
- **B. Remove 4 HPE Composer 2 modules from the design, as they are not required**
- **C. FC upgrade licenses for HPE Virtual Connect SE 100 GbF32 Module must be added**
- D. HPE Synergy 50Gb ILMs must be replaced with HPE Virtual Connect SE 100 GO F32 modules
- E. The selected interconnect modules do not provide the requested WWN virtualization

Answer: B,C

Explanation:

* D. FC upgrade licenses for HPE Virtual Connect SE 100 GbF32 Module must be added: To enable Fibre Channel functionality on the HPE Virtual Connect SE 100Gb F32 Modules, it is necessary to add FC upgrade licenses. These licenses unlock the FC capabilities required for the proposed setup.

* E. Remove 4 HPE Composer 2 modules from the design, as they are not required: The proposed design includes 6 HPE Composer 2 modules, but typically, only a pair of HPE Composer 2 modules is required to manage up to 21 frames. Therefore, the remaining 4 Composer 2 modules are not necessary and can be removed from the design.

NEW QUESTION # 93

Refer to the exhibit.

Which statement about this logical interconnect group is true?

- A. Both modules are located in different frames for redundancy
- B. An additional license is required to change the enclosure count
- C. For an uplink set, ports from different modules can be selected
- D. interconnect modules are installed in interconnect bays 1 and 4

Answer: D

Explanation:

In the HPE Synergy setup shown in the exhibit, the interconnect type is Virtual Connect SE 32Gb FC Module for Synergy with an enclosure count of 1 and interconnect bay set 1. Typically, in such configurations, the interconnect modules are installed in bays 1 and 4 for redundancy. This placement ensures high availability and failover capabilities.

NEW QUESTION # 94

.....

NewPassLeader is a website that can provide all information about different IT certification exam. NewPassLeader can provide you with the best and latest exam resources. To choose NewPassLeader you can feel at ease to prepare your HP HPE0-S59 exam. Our training materials can guarantee you 100% to pass HP certification HPE0-S59 exam, if not, we will give you a full refund and exam practice questions and answers will be updated quickly, but this is almost impossible to happen. NewPassLeader can help you pass HP Certification HPE0-S59 Exam and can also help you in the future about your work. Although there are many ways to help you achieve your purpose, selecting NewPassLeader is your wisest choice. Having NewPassLeader can make you spend shorter time less money and with greater confidence to pass the exam, and we also provide you with a free one-year after-sales service.
