Exam JN0-481 Materials & Exam JN0-481 Cram Questions

With the development of information and communications technology, we are now living in a globalized world. JN0-481 information technology learning is correspondingly popular all over the world. Modern technology has changed the way how we live and work. When it comes to the study materials selling in the market, qualities are patchy. But our JN0-481 test material has been recognized by multitude of customers, which possess of the top-class quality, can help you pass exam successfully. On the other hand, our JN0-481 Latest Dumps are designed by the most experienced experts, thus it can not only teach you knowledge, but also show you the method of learning in the most brief and efficient ways.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q46-Q51):

NEW QUESTION # 46
How does Apstra use Fabric Device Management to ensure consistency across the network?

- A. By assigning different agents to devices based on their location
- B. By enforcing uniform configurations on all network devices
- C. By randomly assigning system IDs to devices
- D. By adjusting the color-coding of cables in the data center

Answer: B

NEW QUESTION # 47
Within Managed Devices in the Juniper Apstra Ul, you notice that several devices have the OOS- Quarantined status. The devices cannot be added to any blueprint. Which action would solve this problem?

- A. Fix the hardware issues with the quarantined devices.
- B. Install the agent, even though connectivity is established.
- C. Acknowledge the device.

- D. Upload a new pristine configuration.

Answer: C

Explanation:
When an agent installation is successful, devices are placed into the Out of Service Quarantined (OOS-QUARANTINED) state using the Juniper Apstra UI. This state means that the device is not yet managed by Apstra and has not been assigned to any blueprint. The device configuration at this point is called Pristine Config. To make the device ready for use in a blueprint, you need to acknowledge the device, which is a manual action that confirms the device identity and ownership. Acknowledging the device changes its status to Out of Service Ready (OOS- READY).

NEW QUESTION # 48
How does Intent-Based Analytics align with the principles of intent-based networking in terms of data exploration and analysis?

- A. By predicting future changes in the network environment
- B. By providing real-time weather updates for the data center location
- C. By facilitating dynamic queries for intent-based data exploration
- D. By managing employee property allocations in the data center

Answer: C

NEW QUESTION # 49
Which attribute enables Juniper Apstra to scale and manage thousands of devices with a single server instance?

- A. Apstra is based on NGINX.
- B. Apstra is a distributed state system.
- C. Apstra is available as an OVA.
- D. Apstra is installed as a cloud resource.

Answer: B

Explanation:
The attribute that enables Juniper Apstra to scale and manage thousands of devices with a single server instance is that Apstra is a distributed state system. This means that Apstra uses a graph database to store the network topology and configuration data in a distributed and replicated manner across multiple server nodes. This allows Apstra to handle large-scale networks with high performance, reliability, and availability. Apstra also uses a stateful orchestration engine that ensures the network state is always consistent with the intent of the blueprint, which is the logical representation of the network design and behavior. Apstra can automatically detect and resolve any discrepancies between the desired and actual network state, as well as handle any changes or failures in the network.

NEW QUESTION # 50
In Juniper Apstra, what are three valid deploy modes when assigning systems to your blueprint?
(Choose three.)

- A. Drain
- B. OOS-Ready
- C. Deploy
- D. Standby
- E. Ready

Answer: A,C,E

NEW QUESTION # 51
......

Using DumpsValid JN0-481 exam study material you will get a clear idea of the actual Juniper JN0-481 test layout and types of

JN0-481 exam questions. On the final Juniper JN0-481 exam day, you will feel confident and perform better in the Juniper JN0-481 certification test. Juniper JN0-481 dumps come in three formats: Juniper JN0-481 PDF Questions formats, Web-based and desktop Juniper JN0-481 practice test software are the three best formats of DumpsValid JN0-481 valid dumps. JN0-481 pdf dumps file is the more effective and fastest way to prepare for the Juniper JN0-481 exam.
