SAP C_ARCIG_2508 Prüfungsplan:

Thema	Einzelheiten
Thema 1	• SAP Ariba AddOn Simplified Configuration (SPRO): This section of the exam measures the skills of Solution Architects and includes simplified configuration through the SPRO transaction in SAP. It ensures candidates can manage add-on settings to streamline system deployment.
Thema 2	• Managed Gateway Configuration: This section of the exam measures skills of Implementation Consultants and emphasizes practical knowledge of configuring Managed Gateway. It includes mapping, routing, and handling different business process requirements.
Thema 3	• SAP Ariba Cloud Integration Overview: This section of the exam measures skills of Solution Architects and covers the foundational knowledge of SAP Ariba Cloud integration. It ensures familiarity with the general integration landscape and prepares candidates to understand the key elements of cloud connectivity.

Thema 4	CI to Managed Gateway: This section of the exam measures the skills of Implementation Consultants and deals with the integration setup between SAP Ariba and Managed Gateway. It emphasizes understanding connection points and smooth data flow for business processes.
Thema 5	Supplier Lifecycle Performance: This section of the exam measures the skills of Implementation Consultants and includes the setup and management of supplier lifecycle performance processes. It validates understanding of integration elements supporting supplier evaluation and collaboration.
Thema 6	SAP Business Network Integration Configuration: This section of the exam measures the skills of Implementation Consultants and focuses on configuring integration with the SAP Business Network. It validates understanding of connectivity steps to enable business-to-business collaboration.
Thema 7	Managing Clean Core: This section of the exam measures the skills of Implementation Consultants and focuses on applying clean core principles within SAP environments. It highlights practices that maintain standard processes, minimize customizations, and ensure long-term system stability.
Thema 8	SAP Ariba Strategic Sourcing Integration Configuration: This section of the exam measures the skills of Solution Architects and focuses on the configuration required for strategic sourcing processes within SAP Ariba. It ensures candidates understand integration steps that connect sourcing data with SAP systems.
