

Reliable 2V0-32.24 Exam Question & Reliable 2V0-32.24 Exam Guide

BONUS!!! Download part of TestKingIT 2V0-32.24 dumps for free: <https://drive.google.com/open?id=17yNYwMSzICdPmtdpNns4i5x8-NiNkEcX>

Though the content of our 2V0-32.24 practice guide is the same, the varied formats indeed bring lots of conveniences to our customers. The PDF version of 2V0-32.24 exam materials can be printed so that you can take it wherever you go. And the Software version can simulate the real exam environment and support offline practice. Besides, the APP online can be applied to all kind of electronic devices. No matter who you are, I believe you can do your best to achieve your goals through our 2V0-32.24 Preparation questions!

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.
Topic 2	<ul style="list-style-type: none">Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.
Topic 3	<ul style="list-style-type: none">Planning and Designing: This section of the exam measures the skills of Cloud Architects and covers the architectural models and sizing requirements for vRealize Operations and vRealize Log Insight. It evaluates the ability to choose between standalone, clustered, and high-availability setups, and to plan appropriately based on scenario-based requirements for capacity and deployment type, ensuring well-designed cloud solutions.
Topic 4	<ul style="list-style-type: none">Installing, Configuring, and Setting Up: This section of the exam measures skills of Implementation Specialists and covers the end-to-end setup process for vRealize Suite Lifecycle Manager, vRealize Operations, and Log Insight. It includes prerequisites, installation steps (manual and automated), identity and access configuration, environment settings, data sources, content packs, and system integrations to enable a functional cloud management platform.

Topic 5	<ul style="list-style-type: none"> VMware Products and Solutions: This section of the exam measures the skills of Cloud Engineers and covers the components, integrations, and use cases for various VMware Cloud Management solutions. It includes tools like vRealize True Visibility Suite, Skyline, Federated Analytics, vRealize AI Cloud, and Log Insight Cloud. Candidates also explore deployment tools such as Remote Collectors and Cloud Proxies to understand their role in scalable cloud operations.
Topic 6	<ul style="list-style-type: none"> Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.

Latest Reliable 2V0-32.24 Exam Question - 100% Pass 2V0-32.24 Exam

Our web-based practice exam software is an online version of the VMware 2V0-32.24 practice test. It is also quite useful for instances when you have internet access and spare time for study. To study and pass the certification exam on the first attempt, our VMware 2V0-32.24 Practice Test software is your best option. You will go through VMware 2V0-32.24 exams and will see for yourself the difference in your preparation.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q45-Q50):

NEW QUESTION # 45

What three types of authentication sources are valid in vRealize Operations? (Choose three.)

- A. OpenLDAP
- B. QAuth2
- C. Active Directory
- D. LocalOS
- E. RADIUS
- F. VMware Identity Manager

Answer: A,C,F

Explanation:

In vRealize Operations, the following authentication sources are valid:

Active Directory: vRealize Operations can integrate with Active Directory for user authentication.

vmware®

testkingit.com

OpenLDAP: vRealize Operations supports integration with OpenLDAP as an authentication source.

vmware®

testkingit.com

VMware Identity Manager: vRealize Operations can also integrate with VMware Identity Manager to manage user authentication and access.

testkingit.com

NEW QUESTION # 46

An administrator has been tasked to deploy vRealize Operations. The corporate policy states that DHCP should be used whenever supported.

Which two types of node support DHCP? (Choose two.)

- A. Worker Node
- B. Primary Node
- C. Remote Collector
- D. Replica Node
- E. Data Node

Answer: C,E

Explanation:

Remote Collector: These nodes can use DHCP to obtain their IP addresses, which is useful in environments where static IPs are not preferred for non-primary infrastructure.

Data Node: Data nodes can also be configured with DHCP, simplifying IP management in large deployments.

NEW QUESTION # 47

An administrator is tasked with installing vRealize Log Insight using vRealize Suite Lifecycle Manager (vRSLCM). They have been instructed to use DHCP for the deployment.

Which statement about this scenario is correct?

- A. A default gateway does not need to be supplied for the deployment
- B. DHCP addresses are only supported for the cluster virtual IP address (VIP)
- C. DHCP addresses are only supported for vRealize Log Insight worker nodes
- D. Static IP addresses are required for any product deployment in vRSLCM

Answer: C

Explanation:

In vRealize Suite Lifecycle Manager (vRSLCM), DHCP addresses can be used for vRealize Log Insight worker nodes. However, static IP addresses are typically recommended for the management and master nodes to ensure stability and consistency in the

deployment. DHCP addresses are not recommended for the primary or management nodes because they might change after a reboot, causing issues with connectivity and accessibility.

NEW QUESTION # 48

Which three guest information properties are collected for all objects created by the OS and Application Monitoring management pack? (Choose three.)

- A. OS Version
- B. OS Build Number
- C. MAC Address
- D. Hostname
- E. BIOS UUID
- F. IP Address

Answer: A,B,F

Explanation:

The OS and Application Monitoring management pack in vRealize Operations collects various guest information properties for all objects, including:

OS Build Number: The version/build of the operating system running on the guest.

OS Version: The version of the operating system installed on the guest.

vmware®

testkingit.com

IP Address: The network IP address assigned to the guest.

vmware®

testkingit.com

NEW QUESTION # 49

An administrator would like to limit the access in vRealize Log Insight for application developers to a specific group of hosts where their application is running.

What should the administrator to configure satisfy this requirement?

- A. Define a data set with required ESXi hosts and associate it with the vSphere content pack.
- B. Create a DRS Host group and assign the users as part of the role assignment in vRealize Log Insight.
- C. Define a data set with required ESXi hosts and associate it with a role.

- D. Make sure that all ESXi hosts are added to the same vSphere HA/DRS cluster.

Answer: C

Explanation:

To limit access in vRealize Log Insight for application developers to a specific group of hosts, the administrator can define a dataset that includes only the required ESXi hosts where the application is running, and then associate this data set with a specific role. By doing this, the administrator ensures that the developers only have access to the logs from those specific hosts.

This method leverages the role-based access control (RBAC) in vRealize Log Insight, allowing granular control over the logs that users can access based on their assigned role and the data sets to which they are associated.

NEW QUESTION # 50

.....

Our web-based practice exam software is an online version of the VMware 2V0-32.24 practice test. It is also quite useful for instances when you have internet access and spare time for study. To study and pass the certification exam on the first attempt, our VMware 2V0-32.24 Practice Test software is your best option.
