

SAP C-ACDET-2506 Exam | C-ACDET-2506 Practice Exam Pdf - Free Download for your New C-ACDET-2506 Exam Review any time

P.S. Free 2025 SAP C-ACDET-2506 dumps are available on Google Drive shared by BraindumpsPass:
<https://drive.google.com/open?id=1fox1K-ORDtK68V0k1Pi85owmBGhcoqf>

There are three different versions of our C-ACDET-2506 exam questions: the PDF, Software and APP online. The PDF version of our C-ACDET-2506 study guide can be printable and You can review and practice with it clearly just like using a professional book. The second Software versions which are usable to windows system only with simulation test system for you to practice in daily life. The last App version of our C-ACDET-2506 learning guide is suitable for different kinds of electronic products.

SAP C-ACDET-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.
Topic 2	<ul style="list-style-type: none"> Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.
Topic 3	<ul style="list-style-type: none"> Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.

Free PDF C-ACDET-2506 - SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite –High Pass-Rate Practice Exam Pdf

If you are not aware of your problem, please take a good look at the friends around you! Now getting an international C-ACDET-2506 certificate has become a trend. If you do not hurry to seize the opportunity, you will be far behind others! Now the time cost is so high, choosing C-ACDET-2506 Exam Prep will be your most efficient choice. You can pass the C-ACDET-2506 exam in the shortest possible time to improve your strength.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q43-Q48):

NEW QUESTION # 43

Which of the following applies to Suite Integration?

- A. Suite Integration refers to the process of manually connecting SAP Ariba applications with third-party software solutions.
- **B. Suite Integration is a key benefit of SAP Ariba Strategic Sourcing suite as they are natively integrated.**
- C. Suite Integration represents the out-of-the-box integration between SAP Ariba Strategic Sourcing suite and S/4HANA Public Cloud.
- D. Suite Integration is the activity to integrate SAP Ariba Buying and Invoicing with an SAP Ariba Strategic Sourcing suite solution.

Answer: B

Explanation:

Suite Integration in SAP Ariba refers to the native, out-of-the-box integration among SAP Ariba Strategic Sourcing Suite components such as sourcing, contracts, and supplier lifecycle. This integration ensures seamless workflows, shared master data (suppliers, users, commodity codes), and a unified user experience without manual intervention. It is a key benefit differentiating SAP Ariba from fragmented solutions. Manual third-party integrations or ERP integrations like S/4HANA are separate and not referred to as Suite Integration.

NEW QUESTION # 44

Which of the following data elements must be manually loaded into the Production environment after full configuration migration is completed using the Intelligent Configuration Manager (ICM)? (Select 2 correct answers)

- A. Units of Measure
- **B. Relation and Relation Entries**
- C. User to Group Mapping
- **D. Enumerations**

Answer: B,D

Explanation:

After migrating configurations using ICM, Enumerations and Relation entries require manual loading into Production because they are not included in automatic migration bundles. Enumerations provide picklist values, while Relations define dependencies between fields. Units of Measure are typically part of standard configuration or migrated automatically. User to Group Mapping is managed separately through provisioning or identity management tools, not via ICM. Manual loading of these data elements ensures data integrity and avoids missing references.

NEW QUESTION # 45

During which SAP Activate Methodology phase do you define the customer requirements?

- A. Design
- B. Discover
- **C. Explore**
- D. Define

Answer: C

Explanation:

SAP Activate's Explore phase is focused on refining and validating customer requirements through fit-to-standard workshops. During this phase, project teams analyze SAP best practice processes alongside customer business needs, identifying configuration gaps and defining functional requirements.

Design as a distinct phase has been replaced by the more agile Explore phase, focusing on solution validation.

The Discover phase focuses on solution evaluation and strategy alignment, not detailed requirements gathering. The term "Define" is not part of SAP Activate methodology.

Proper requirements definition during Explore ensures that the configurations built in Realize align with business needs, reducing rework and enhancing solution adoption. This methodology reflects SAP's emphasis on agile and iterative project delivery within cloud and hybrid deployments.

NEW QUESTION # 46

A Migration is performed for a Greenfield deployment to production, and the status of the Template configuration type indicates that it Failed. What actions do you take to make the failed template(s) available in production?

- A. Import the template in production
- **B. Import the missing data in production and then import the template in production**
- C. The template must always be rebuilt in production
- D. Request SAP intervention

Answer: B

NEW QUESTION # 47

Users are able to publish a contract workspace without populating the Supplier field. What action can be performed on the Supplier field to force population before publishing?

- A. Enable Required
- B. Configure a visibility condition
- C. Configure a validity condition
- **D. Enable Require value before publish**

Answer: D

Explanation:

SAP Ariba provides a specific property in the Advanced tab called "Require value before publish", which ensures that a field must be populated prior to the contract workspace being published. Enabling this option on the Supplier field enforces this mandatory behavior during the publish action. The standard "Required" checkbox only enforces field completion in the UI during data entry but does not prevent publishing if the field is empty. Visibility conditions control whether the field is displayed, not whether it is required at publish. Validity conditions enforce value correctness but not presence at publish time. This feature enhances data completeness at critical lifecycle points.

NEW QUESTION # 48

.....

We can promise that our C-ACDET-2506 exam questions are always the latest and valid for we are always trying to do better for our worthy customers. The first and the most important thing is to make sure the high-quality of our C-ACDET-2506 learning guide and keep it updated on time. Once any new question is found, we will send you a link to download a new version of the C-ACDET-2506 Training Materials. So don't worry if you are left behind the trend. Experts in our company won't let this happen.
