## PECB ISO-45001-Lead-Auditor資格講座、ISO-45001-Lead-Auditor問題例

さまざまな電子デバイスを通じてISO-45001-Lead-Auditorガイド資料を使用できます。自宅ではコンピューターを使用でき、外では電話も使用できます。ISO-45001-Lead-Auditor学習教材を学ぶために携帯電話を使用する人が増えているので、好きなものを選択することもできます。利点の1つは、ネットワーク環境でISO-45001-Lead-Auditor練習問題を初めて使用する場合、次回教材を使用するときにネットワーク要件がなくなることです。いつでもどこでもISO-45001-Lead-Auditor本物の試験を開くことができます。

## PECB Certified ISO 45001 Lead Auditor Exam 認定 ISO-45001-Lead-Auditor 試験問題 (Q49-Q54):

### 質問 # 49

Worker's participations is a key factor for the success of OHSMS. Which three of the following ISO 45001 activities require workers' participation?

- A. Determining actions to eliminate hazards
- B. Determining what needs to be communicated
- C. Managing internal audit programme

- D. Determining competence requirements
- E. Establishing OHS objectives
- F. Establishing OHS policy

正解: A、E、F

解説:

Worker participation is a fundamental principle of ISO 45001 (Clause 5.4). It ensures workers at all levels are involved in key activities to enhance the OH&S management system's effectiveness.

Analysis of Options:

A . Determining competence requirements:

Incorrect. Determining competence is primarily the responsibility of management, though workers may provide input.

B . Establishing OHS objectives:

Correct. Worker involvement ensures objectives are realistic and relevant to workplace conditions (Clause 6.2).

C . Managing internal audit programme:

Incorrect. Managing audits is typically a managerial responsibility, though workers may participate in audits.

D . Determining actions to eliminate hazards:

Correct. Workers' insights are critical in identifying and implementing actions to eliminate hazards (Clause 8.1.2).

E . Determining what needs to be communicated:

Incorrect. While communication strategies impact workers, their participation in determining communication needs is not explicitly required.

F . Establishing OHS policy:

Correct. Workers should be involved in developing policies to ensure relevance and buy-in (Clause 5.2).

ISO Reference:

Clause 5.4: Worker participation.

Clause 6.2: OHS objectives.

Clause 8.1.2: Hierarchy of controls and hazard elimination.

#### 質問 # 50

Which two of these statements about processes are true?

- A. All processes needed to meet the requirements of the OHSMS must be documented.
- B. The organisation must implement controls to ensure processes are operating in accordance with defined criteria.
- C. OHS and S processes that are undertaken by external providers must be audited to ensure they are controlled.
- D. All processes must have a designated process owner who has specific responsibility to ensure the process remains under control.
- E. OHS and S processes that are undertaken by external providers may or may not form part of the organisation ' s OHSMS.
- F. The organisation must seek to continually improve its OHSMS processes

正解: B、C

#### 質問 # 51

You are an audit team leader overseeing the activity of a trainee auditor. Your team has just completed a surveillance audit and is assembling the final report.

The trainee has not contributed to a final report before and is clearly struggling with what she should provide to you for inclusion.

Which three of her following statements would be appropriate?

- A. The audit client's objectives for this audit were never realistic. That's why we were unable to complete the audit plan.
- B. The Sales Manager said he had forgotten the password to the Sales Ordering system and so too had everyone else in his department
- C. The Production Manager is kooky to have a job as he does not appear to understand how anything works around here.
- D. The OHS Management team were extremely helpful and went out of their way to facilitate access to required records.
- E. The OHS Manager disagreed with me in respect of all of the nonconformances I raised. He still does not accept any of them
- F. The guide was trying to be helpful and would not stop talking during the audit.
- G. The maintenance team could not replace a lightbulb, let alone an air conditioning unit.
- H. The Sales Manager was kind and seems to be a nice person.

正解: A、B、D

解説:

Audit reports should focus on objective evidence, observations, and findings relevant to the management system and the audit process. Personal opinions, unrelated remarks, or derogatory comments are inappropriate.

Analysis of Statements:

A . The guide was trying to be helpful and would not stop talking during the audit:

Incorrect. This is irrelevant to the audit findings or conclusions.

B . The Sales Manager was kind and seems to be a nice person:

Incorrect. Personal opinions about individuals are not appropriate in audit reports.

C . The audit client's objectives for this audit were never realistic. That's why we were unable to complete the audit plan:

Correct. This is relevant as it relates to the audit process and highlights challenges in meeting objectives.

D . The maintenance team could not replace a lightbulb, let alone an air conditioning unit:

Incorrect. This is derogatory and irrelevant to the audit report.

E . The OHS Management team were extremely helpful and went out of their way to facilitate access to required records:

Correct. This is a valid observation about cooperation during the audit process.

F . The OHS Manager disagreed with me in respect of all of the nonconformances I raised. He still does not accept any of them:

Incorrect. While disagreements may occur, this statement is overly subjective and not constructive.

G . The Production Manager is lucky to have a job as he does not appear to understand how anything works around here:

Incorrect. Personal attacks or irrelevant judgments have no place in the report.

H . The Sales Manager said he had forgotten the password to the Sales Ordering system and so too had everyone else in his department:

Correct. This relates to system access and could indicate a nonconformance or an opportunity for improvement.

ISO Reference:

ISO 19011:2018, Clause 6.7: Reporting audit results.

## 質問 # 52

You are in the closing meeting of a second-party audit to ISO 45001. Which three of the following topics are most likely to come for discussion?

- A. Whether the audit has correctly performed in current contracts with other customers.
- **B. nature of the trading relationship that currently exists between the auditee's and auditor's organisations.**
- C. The names and email address of a attendees at the closing meeting. The question of who should chair the closing meeting.
- **D. The extent to which the auditee is conforming to the OH&S requirements contained in supply contracts with the auditing organisation.**
- **E. The extent to which the auditee is conforming to the requirements set out in ISO 45001.**
- F. Whether the work instructions for a specify auditee OH&S process are focused on efficiency.
- G. The extent of the auditee's documented information system.

正解: B、D、E

解説:

The closing meeting of a second-party audit focuses on the findings, conformance to agreed requirements, and areas for improvement. ISO 19011:2018 provides guidance on closing meetings, stating that the results of the audit, including conformity with criteria, must be reviewed and agreed upon.

Analysis of Options:

\* A. The names and email addresses of attendees at the closing meeting: Irrelevant. Attendance details are not part of the audit discussion.

\* B. The extent of the auditee's documented information system: While relevant during the audit, it is not typically a focus in the closing meeting.

\* C. The extent to which the auditee is conforming to OH&S requirements in supply contracts:

Correct. Second-party audits often assess compliance with contractual requirements.

\* D. The extent to which the auditee conforms to ISO 45001 requirements: Correct. The core purpose of the audit is to evaluate conformity to ISO 45001.

\* E. The nature of the trading relationship between the organizations: Correct. The trading relationship often shapes the scope and context of second-party audits.

\* F. Whether the audit has correctly performed in current contracts with other customers:

Irrelevant. The focus is on the specific audit, not contracts with other customers.

\* G. Whether the work instructions for a specific OH&S process are focused on efficiency:

Irrelevant. Efficiency is not the primary focus of an OH&S audit.

ISO References:

\* ISO 19011:2018, Clause 6.6.1: Conducting the closing meeting.

\* ISO 45001:2018, Clause 9.2: Internal audit requirements.

### 質問 # 53

Showitoff is an organisation specialising in the design and production of wall decorating material for the domestic market. During an ISO 45001 certification audit of the site, the auditor comes across an open, walled area just outside the maintenance department. It contains various scraps of wood and metal as well as several rusty components. Several heavy concrete beams are leaning against a thin brick wall in which cracks are visible. When asked about it, the OHS Manager states that he presumes that the material comes from maintenance work, so it is the Maintenance Manager's responsibility.

The auditor interviews the Maintenance Manager in his department. He asks about the area outside and is told that it contains some excess materials that the Manager likes to keep in case they come in handy at some stage. The auditor points out that the wall appears to be unstable and could collapse at any moment. The Maintenance Manager is not aware of such a situation.

Which three statements represent good audit practice?

- A. The auditor should consider surveying more areas of the site for other potentially unsafe situations.
- B. The audit should refer the organization to the health and safety authorities.
- C. The auditor should advise the organisation to get rid of the walled area.
- D. The audit should demand that the Maintenance Manager deals with the wall.
- E. The audit should raise a nonconformity against ISO 45001.
- F. The auditor should check whether the organization has identified the safety hazards associated with the walled area.
- G. The audit should ask the Maintenance Manager to conduct a safety survey.
- H. The audit should check the lines of communication between the OHS Manager and maintenance Manager.

正解: A、F、H

解説:

Comprehensive Detailed Explanation along with All ISO 45001 Audit Reference Clause 6.1.2 of ISO 45001:2018 emphasizes the identification of hazards and assessment of risks, and Clause 5.4 highlights the importance of consultation and communication among roles. The auditor's role includes verifying conformity to these clauses through evidence gathering and observation.

Analysis of Options:

A :The auditor should advise the organization to get rid of the walled area.

This is outside the scope of an auditor's role, which is to observe and report findings, not to dictate specific actions.

B :The auditor should ask the Maintenance Manager to conduct a safety survey.

While safety surveys are useful, asking the Maintenance Manager to conduct one is not the auditor's responsibility.

C :The auditor should check the lines of communication between the OHS Manager and Maintenance Manager.

This aligns with ISO 45001:2018, Clause 5.4, as communication gaps may have contributed to the situation.

D :The auditor should check whether the organization has identified the safety hazards associated with the walled area.

Clause 6.1.2 requires hazard identification. The auditor must determine whether this has been done.

E:The auditor should consider surveying more areas of the site for other potentially unsafe situations.

Broadening the audit scope to identify additional risks is a good practice in line with Clause 9.2.2.

F :The auditor should demand that the Maintenance Manager deals with the wall.

Demanding action is not within the auditor's authority. The auditor should raise findings instead.

G :The auditor should raise a nonconformity against ISO 45001.

While this may be appropriate depending on evidence, raising a nonconformity is not a replacement for good audit practices.

H :The auditor should refer the organization to health and safety authorities.

This step is extreme and should only occur if there is an imminent danger and no action is being taken.

ISO Reference:

Clause 6.1.2: Hazard identification and risk assessment.

Clause 5.4: Worker consultation and participation.

Clause 9.2.2: Internal audit program and execution.
