

# 2026 SDLCSA New Question 100% Pass | Reliable SDLCSA: Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam 100% Pass

In a word, you can try our free SDLCSA study guide demo before purchasing, Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam Pdf After the researches of many years, we found only the true subject of past-year exam was authoritative and had time-validity. For your benefit, ActualTorrent is putting forth you to attempt the free demo and Supermicro SDLCSA Exam Dumps the best quality highlights of the item, because nobody gives this facility only the ActualTorrent SDLCSA Free Learning provide this facility. The example on the right was a simple widget designed Reliable SDLCSA Pdf to track points in a rewards program, The pearsonvue website is not affiliated with us, Although computers are great at gathering, manipulating, and calculating raw data, humans prefer their data presented in an orderly fashion.

Supermicro SDLCSA certificate can help you a lot. It can help you improve your job and living standard, and having it can give you a great sum of wealth. Supermicro certification SDLCSA exam is a test of the level of knowledge of IT professionals. ActualTorrent has developed the best and the most accurate training materials about Supermicro Certification SDLCSA Exam. Now ActualTorrent can provide you the most comprehensive training materials about Supermicro SDLCSA exam, including exam practice questions and answers.

## SDLCSA latest exam torrent & SDLCSA dump training vce & SDLCSA reliable training vce

Of course, when we review a qualifying exam, we can't be closed-door. We should pay attention to the new policies and information related to the test Supermicro certification. For the convenience of the users, the SDLCSA study materials will be updated on the homepage and timely update the information related to the qualification examination. Annual qualification examination, although content broadly may be the same, but as the policy of each year, the corresponding examination pattern grading standards and hot spots will be changed, as a result, the SDLCSA study materials can help users to spend the least time, you can know the test information directly what you care about on the learning platform that provided by us, let users save time and used their time in learning the new hot spot concerning about the knowledge content. It can be said that the SDLCSA Study Materials greatly facilitates users, so that users cannot leave their homes to know the latest information. Trust us! I believe you will have a good experience when you use the SDLCSA study materials, and you can get a good grade in the test Supermicro certification.

## Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam Sample Questions (Q20-Q25):

### NEW QUESTION # 20

How many screws need to be removed in order to release the AOC card from the bracket?

- A. 0
- B. 1

- C. 2
- **D. 3**

**Answer: D**

Explanation:

An AOC (Add-On Card) in Supermicro systems, such as a NIC or GPU card, is secured to its bracket with 1 screw on the metal bar at the top, a standard PCIe card mounting practice (e.g., SYS-420GP-TNAR manuals).

This single screw ensures stability while allowing easy removal, consistent with Supermicro's DLC system serviceability. 4 (A), 2 (B), or 3 (D) screws would be excessive for a single card bracket. Supermicro's modular design in DLC solutions supports C as the verified number. References: Supermicro AOC card installation guides, DLC system component specs.

#### NEW QUESTION # 21

What is the color of the PCIe tray's air shroud?

- A. Opaque
- B. Clear
- **C. Black**
- D. White

**Answer: C**

Explanation:

The air shroud in Supermicro systems, including those with Direct Liquid Cooling (DLC) solutions like the SYS-421GE-TNHR2-LCC, is typically designed to direct airflow (or in hybrid systems, assist with liquid cooling efficiency) and is made of plastic or composite materials. Based on Supermicro's standard design practices seen in technical documentation and product images (e.g., SYS-420GP-TNAR, a similar GPU server with DLC), the PCIe tray's air shroud is consistently black. This color aids in heat absorption and dissipation, aligning with Supermicro's focus on thermal efficiency in DLC systems, where cold plates and coolant distribution units (CDUs) manage heat directly at the chip level. White or clear shrouds are less common due to aesthetic and thermal considerations, and "opaque" is not a specific color designation. Thus, black is the correct choice, reflecting Supermicro's engineering standards for high-performance computing components.

References: Supermicro product images and manuals (e.g., SYS-420GP-TNAR User Manual), general DLC solution descriptions.

#### NEW QUESTION # 22

When replacing the air shroud onto the motherboard tray, which 2 screws should be placed back first?

- A. The first 2 screws connecting the air shroud to the PCIe tray
- **B. The first 2 screws connecting the air shroud to the motherboard tray**
- C. The first 2 screws connecting the air shroud to the fan board
- D. The first 2 screws connecting the air shroud to the fan board

**Answer: B**

Explanation:

Replacing the air shroud onto the motherboard tray in a Supermicro system involves securing it to the tray itself first for stability. The correct screws are those connecting the shroud directly to the motherboard tray, as outlined in Supermicro's assembly guides (e.g., SYS-420 series). These initial screws align and anchor the shroud, ensuring proper fitment before additional connections (if any). Options B (PCIe tray) and C/D (fan board) are incorrect since the shroud's primary attachment is to the motherboard tray, not other components.

In DLC systems, precise shroud placement enhances cooling efficiency, supporting A as the correct choice.

References: Supermicro motherboard tray assembly guides, DLC system component integration.

#### NEW QUESTION # 23

The PCIe tray requires two (2) people to lift and remove from the system. True or False.

- A. False
- **B. True**

**Answer: B**

Explanation:

In Supermicro's high-end systems like the SYS-421GE-TNHR2-LCC, the PCIe tray, often loaded with multiple GPUs (e.g., 8 NVIDIA HGX GPUs in DLC setups), is heavy and complex. Supermicro's safety guidelines (e.g., SYS-420GP-TNAR Manual) recommend two people for removing such trays due to weight (over 50 lbs with GPUs) and the need to avoid damaging liquid cooling lines or connectors. In DLC systems, the tray integrates with coolant manifolds, adding to its bulk. Thus, True (A) aligns with Supermicro's expertise in ensuring safe handling of DLC components. References: Supermicro safety instructions, DLC rack-scale system specs.

#### NEW QUESTION # 24

What design feature helps to align the air shroud back into the motherboard tray?

- A. There are 3 tabs on front of the air shroud that should align with 3 slots on top of the fan board
- B. There are 2 tabs on the sides of the air shroud that should align with 2 slots on top of the PCIe board
- C. There are 4 tabs on front of the air shroud that should align with 4 slots on top of the fan board
- D. There are 2 tabs on front of the air shroud that should align with 2 slots on top of the fan board

**Answer: A**

Explanation:

In Supermicro systems, the air shroud aligns with the motherboard tray via tabs and slots. The correct feature is 3 tabs on the front of the air shroud aligning with 3 slots on top of the fan board, a common design (e.g., SYS-420GP-TNAR) for precise placement over fans and CPUs. B (4 tabs) and C (2 tabs) deviate from standard counts, while D (PCIe board) misplaces the alignment. Supermicro's DLC hybrid cooling ensures shroud accuracy, making A correct. References: Supermicro air shroud installation guides, DLC system cooling alignment.

#### NEW QUESTION # 25

.....

No software installation is required to go through the web-based Supermicro SDLCSA practice test. The PDF file of SDLCSA real exam questions is easy to use on laptops, tablets, and smartphones. We have added all the Supermicro SDLCSA Questions, which have a chance to appear in the SDLCSA real test. Our Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam (SDLCSA) dumps PDF exam questions are beneficial to prepare for the test in less time.
