

DEP-2025 Trainingsunterlagen - DEP-2025 Exam Fragen

Viele der DEP-2025 Fragenkatalog Apple Deployment and Management Exam aus Prüfung Frage sind in der Form von Vielfache-Wahl-Fragen. Um Ihre DEP-2025 Zertifizierungsprüfungen reibungslos zu meistern, brauchen Sie nur unsere Apple DEP-2025 Prüfungsfragen und Antworten (Apple Deployment and Management Exam) auswendigzulernen.

Apple DEP-2025 Prüfungsplan:

Thema	Einzelheiten
Thema 1	• Device Enrollment: This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.
Thema 2	• Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Thema 3	• Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Thema 4	• Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Thema 5	• Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Thema 6	• Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.

Thema 7	• Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.
Thema 8	• Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Thema 9	• Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.

Die seit kurzem aktuellsten Apple DEP-2025 Prüfungsinformationen, 100% Garantie für Ihren Erfolg in der Prüfungen!

Wollen Sie den Plan machen, dass Sie Apple DEP-2025 Zertifizierungsprüfung ablegen, um Ihre Fähigkeit zu entwickeln. Wenn Sie Apple DEP-2025 Prüfung ablegen, ob Sie die geeigneten Lernhilfe finden? Und welche Unterlage sind wertvoll? Haben Sie Apple DEP-2025 Dumps gewählt? Wenn ja, sorgen Sie sich bitte nicht um den Misserfolg.

Apple Deployment and Management Exam DEP-2025 Prüfungsfragen mit Lösungen (Q173-Q178):

173. Frage

What do you need for account-driven Device Enrollment?

- **A. A Managed Apple Account**
- B. Google Workspace or Microsoft Entra ID
- C. A supervised device
- D. A personal Apple Account

Antwort: A

Begründung:

Apple's account-driven enrollment allows users to self-enroll devices into MDM without the need for profiles distributed manually. To use this enrollment method, Apple requires the user to sign in with a Managed Apple Account created in Apple Business Manager or Apple School Manager. When the user enters their credentials, the device recognizes the account as managed and begins the enrollment process. Apple Learning highlights that this workflow simplifies enrollment for end users while ensuring the device is linked to organizational management. Supervision is not a prerequisite here, and personal Apple IDs are not eligible. Identity providers like Google Workspace or Microsoft Entra ID may provide federated authentication for the Managed Apple Account, but the account itself must exist as a managed entity in ABM or ASM.

References: Apple Platform Deployment - "Account-driven enrollment for devices."

174. Frage

Which statement is true about Managed Distribution?

- A. Apps can be distributed to only users, not devices.
- B. Apps can't be assigned without a Managed Apple Account.
- C. Books can be distributed to only devices, not users.
- **D. Apps can be revoked or reassigned.**

Antwort: D

Begründung:

Managed Distribution is Apple's licensing model for apps and books in Apple Business Manager and Apple School Manager. Apple

documentation emphasizes that Managed Distribution gives organizations flexibility

- licenses can be revoked from one user or device and reassigned to another. This allows organizations to maximize their investment, especially for paid apps, by reallocating licenses as staff or students change.

Unlike legacy redemption codes, which permanently attach to an Apple ID, Managed Distribution licenses remain organizational assets. Apps can be assigned to either devices or users, and books can be assigned to both as well. A Managed Apple Account is not mandatory for device-based assignment. Therefore, the critical and correct principle is that Managed Distribution supports revocation and reassignment, giving IT administrators ongoing control over licensed content.

175. Frage

What's the benefit of using Apple School Manager?

- A. Allows personalization
- **B. Enables educational content management**
- C. Separates personal and managed data
- D. Simplifies device setup

Antwort: B

Begründung:

Apple School Manager (ASM) enables educational content management by allowing administrators to purchase and distribute apps, books, and other resources to students and staff via Managed Distribution. It's tailored for schools, integrating with MDM and Shared iPad. Personalization (option A) is user-driven, not an ASM benefit. Data separation (option C) is a User Enrollment feature. Simplified setup (option D) is a byproduct of ADE, not ASM's primary focus. The Apple Platform Deployment Guide highlights content management as ASM's key benefit.

Reference: Apple Platform Deployment Guide (Chapter: Apple School Manager).

176. Frage

Where are bypass codes for Apple devices stored when you use organization-linked Activation Lock?

- A. In the user's personal Apple Account
- B. In Apple Business Manager or Apple School Manager
- C. In the user's Managed Apple Account
- **D. In the MDM solution**

Antwort: D

Begründung:

Bypass codes are stored in MDM for organization-linked Activation Lock. The Apple Platform Deployment Guide states, "Bypass codes for organization-linked Activation Lock are stored in the MDM solution, allowing administrators to unlock devices without user credentials." Reference:

Apple Platform Deployment Guide, "Activation Lock" section.

Mobile Device Management Protocol Reference, "Activation Lock Management" section.

177. Frage

Which is a deployment model to consider as part of your device management goals?

- A. Application Programming Interface (API)
- **B. One-to-one**
- C. Over-the-air (OTA) enrollment

Antwort: B

Begründung:

The one-to-one deployment model, also referred to as personally enabled, involves assigning a single device to an individual user, allowing personalization while maintaining organizational oversight via MDM. This model is a strategic choice for organizations aiming to balance user flexibility with management control, often used in education or enterprise settings. Application Programming Interface (API) (option A) is a technical tool, not a deployment model. Over-the-air (OTA) enrollment (option C) is a method of enrolling

devices, not a deployment model defining ownership or usage. The Apple Platform Deployment Guide identifies one-to-one as a core deployment model alongside shared and BYOD scenarios.

178. Frage

Unsere Webseite PrüfungFrage ist eine Webseite mit langer Geschichte, die Zertifizierungsantworten zur Apple DEP-2025 Prüfung bietet. Nach langjährigen Bemühungen beträgt die Bestehensrate der Apple DEP-2025 Zertifizierungsprüfung bereits 100%. Der Inhalt unserer Lehrbücher aktualisieren sich ständig, damit die Schulungsunterlagen zur Apple DEP-2025 Zertifizierungsprüfung immer korrekt sind. Darüber hinaus können Sie einjährige Aktualisierung genießen, wenn Sie unsere Dumps gekauft haben.
