Question Set 1

NEW QUESTION # 236

Which 2 statements apply to the Derivation section?

- A. Move entry 12 to Composition, because this is within the scope of this project.
- B. Add 'Professional photographer'.
- C. Delete entry 10 because this is NOT a source product for this project.
- D. Delete entry 11 as this is already correctly shown under Development Skills required.
- E. Move entry 9 to Composition because this is within the scope of the project.

Answer: A,D

NEW QUESTION # 237

Scenario

Additional Information

Product Description

Quality notes from the Daily Log

The Director of Information Technology Division (DIT) has been asked to ensure that any changes to the outsourced staff employment contracts adhere to employment law. The DIT will review future job descriptions of the transferred staff before the final contract is signed with the selected service provider.

The service level agreement between MFH and the selected service provider will specify the type and quality of service required. The selected service provider must follow the industry standards for providing outsourced services.

MFH has a quality management system which contains a document control procedure for all its documentation, however this does not include change management.

All project documents will be subject to a quality review. Nominated products will require a formal approval record signed-off by

the quality review chair.

Extract from the draft Quality Management Strategy (may contain errors) Introduction

1. This document defines the approach to be taken to achieve the required quality levels during the project.
2. The Project Board will have overall responsibility for the Quality Management Strategy.
3. Project Assurance will provide assurance on the implementation of the Quality Management Strategy.

Quality management procedure - Quality standards

4. The selected service provider will operate to industry standards for providing outsourced services.
5. MFH document standards will be used.

Records

6. A Quality Register will be maintained to record the planned quality events and the actual results from the quality activities.

7. Configuration Item Records will be maintained for each product to describe its status, version and variant.

8. Approval records for products that require them will be stored in the quality database.

Roles and responsibilities

9. The DIT will check that the employment contracts for outsourced staff adhere to employment law.

10. Team Managers will provide details of quality checks that have been carried out.

11. Team Managers will ensure that the Quality Register is updated with the names of team members who are involved in the review process.

12. The Senior User will review the Product Descriptions of the products to be produced by the selected service provider to ensure that they can be achieved.

Which statement applies to the Introduction section?

- A. Delete entry 2 because this is the Project Manager's responsibility.
- B. Delete entry 3 because it is the Project Manager's responsibility to implement the Quality Management Strategy.
- C. Delete entry 1 because the project approach is defined in the Project Brief.
- D. Move entry 3 to the Roles and responsibilities section because this is a quality responsibility.

Answer: D

NEW QUESTION # 238

INITIATING A PROJECT

Here are three items of information relating to the 'initiating a project' process for the project.

As part of which activity (A-F) should this information be recorded?

Choose only one theme for each activity. Each theme can be used once, more than once, or not at all.

Answer:

Explanation:

Explanation

NEW QUESTION # 239

The project board has asked user and supplier assurance to review all product descriptions relating to the 'updated corporate quality procedures', prior to authorizing the stage plan for stage 3.

Is this appropriate as part of the 'directing a project' process, and why?

- A. No, because the project board should review new product descriptions before they authorize the stage 3 plan.
- B. No, because the project manager is responsible for writing product descriptions when creating the stage 3 plan.
- C. Yes, because project assurance should assess whether all stakeholders have been identified, if requested by the project board.
- D. Yes, because project assurance should review the stage 3 plan for viability, if requested by the project board.

Answer: A

NEW QUESTION # 240

.....
