The chance of making your own mark is open, and only smart one can make it. We offer ABMM exam materials this time and support you with our high quality and accuracy ABMM learning quiz. Comparing with other exam candidates who still feel confused about the perfect materials, you have outreached them. So it is our sincere suggestion that you are supposed to get some high-rank practice materials like our ABMM Study Guide.

Our ABMM real test was designed by many experts in different area, they have taken the different situation of customers into consideration and designed practical ABMM study materials for helping customers save time. Whether you are a student or an office worker, we believe you will not spend all your time on preparing for ABMM Exam, you are engaged in studying your specialized knowledge, doing housework, looking after children and so on. With our simplified information, you are able to study efficiently. And do you want to feel the true exam in advance? Just buy our ABMM exam questions!

ABMM Testking - ABMM New Exam Bootcamp

After clients pay successfully for our ABMM guide torrent, they will receive our mails sent by our system in 5-10 minutes. Then they can click the mail and log in to use our software to learn immediately. For that time is extremely important for the learners, everybody hope that they can get the efficient learning. So clients can use our ABMM Test Torrent immediately is the great merit of our ABMM exam questions. When you begin to use, you can enjoy the various functions and benefits of our ABMM practice guide such as it can simulate the exam and boosts the timing function.

American Society of Microbiology ABMM Sample Questions (Q13-Q18):

NEW QUESTION # 13

A clinical microbiology laboratory is performing antimicrobial susceptibility testing on a *Klebsiella pneumoniae* isolate. The isolate is resistant to multiple beta-lactam antibiotics, and further testing reveals the presence of a carbapenemase enzyme. The MOST clinically significant carbapenemase in *Klebsiella pneumoniae* is often:

- A. *Klebsiella pneumoniae* carbapenemase (KPC)
- B. Extended-spectrum beta-lactamase (ESBL)
- C. AmpC beta-lactamase
- D. Metallo-beta-lactamase (MBL)

Answer: A

NEW QUESTION # 14

A patient with a history of neutropenia following chemotherapy develops a severe pneumonia. Bronchoalveolar lavage fluid reveals the presence of hyaline, septate hyphae with frequent dichotomous branching at acute angles. Culture yields a filamentous fungus that produces conidiophores with a vesicle bearing phialides that release chains of conidia. The MOST likely genus is:

- A. *Mucor*
- B. *Aspergillus*
- C. *Fusarium*
- D. *Rhizopus*

Answer: B

NEW QUESTION # 15

A patient presents with a chronic, non-healing skin ulcer in a tropical region. Microscopic examination of a biopsy reveals amastigotes within macrophages. Culture of the biopsy on Novy-MacNeal-Nicolle (NNN) medium yields flagellated promastigotes. The MOST likely diagnosis is cutaneous leishmaniasis caused by:

- A. *Trypanosoma cruzi*
- B. *Leishmania donovani*
- C. *Leishmania tropica* or *Leishmania major*
- D. *Trypanosoma brucei gambiense*

Answer: C

NEW QUESTION # 16

A clinical microbiology laboratory is investigating an outbreak of vancomycin-resistant *Enterococcus faecium* (VRE) in a hospital. Whole-genome sequencing of isolates from different patients reveals the presence of the vanA operon on a mobile genetic element that is highly conserved across all isolates. This finding MOST strongly suggests:

- A. Clonal spread of a single VRE strain carrying the vanA operon.
- B. Independent acquisition of vancomycin resistance by different *E. faecium* strains.
- C. Horizontal transfer of the vanA operon to multiple susceptible *E. faecium* strains.
- D. Selection of vancomycin-resistant mutants within a susceptible *E. faecium* population due to antibiotic pressure.

Answer: A

NEW QUESTION # 17

A clinical microbiology laboratory is investigating a cluster of *Clostridium difficile* infections in a hospital. Which of the following methods is MOST appropriate for determining if the isolates from different patients are related?

- A. Antimicrobial susceptibility testing

- B. Enzyme immunoassay for C. difficile toxins
- **C. Molecular typing (e.g., PCR ribotyping)**
- D. Gram staining and morphology

Answer: C

NEW QUESTION # 18

.....

TestSimulate also presents desktop-based American Society of Microbiology ABMM practice test software which is usable without any internet connection after installation and only required license verification. American Society of Microbiology ABMM Practice Test software is very helpful for all those who desire to practice in an actual ABMM (ABMM) exam-like environment.
