Do you want to pass your exam just one time? Then choose us, we can do that for you. H11-861_V4.0 exam cram contains both questions and answers, and you can have a quick check after practicing. H11-861_V4.0 exam materials are high-quality, because we have professional team to compile and verify them. In order to build up your confidence for H11-861_V4.0 Training Materials, we are pass guarantee and money back guarantee, and if you fail to pass the exam, we will give you full refund. We provide you with free update for 365 days, so that you can know the latest information for the exam, and the update version for H11-861_V4.0 exam dumps will be sent to your email automatically.

Huawei H11-861_V4.0 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Cybersecurity and Risk Management: This section assesses the expertise of Security Engineers and Compliance Officers in securing IIoT environments by applying security frameworks, identity and access management, threat detection, and risk mitigation strategies.
Topic 2	<ul style="list-style-type: none"> • Operations and Maintenance: This domain measures skills of Operations Engineers and Network Administrators in monitoring IIoT systems, troubleshooting network and device issues, and maintaining overall system health and performance.
Topic 3	<ul style="list-style-type: none"> • Technical Concepts: This section measures skills of Industrial IoT Engineers and Network Engineers and covers fundamental technical principles relevant to Industrial Internet of Things (IIoT), including architectures, protocols, data management, and integration technologies.
Topic 4	<ul style="list-style-type: none"> • Integration and Application: This section targets Solution Developers and System Integrators involved in integrating IIoT systems with existing enterprise applications, cloud platforms, and analytics tools for data-driven decision making.
Topic 5	<ul style="list-style-type: none"> • Implementation and Configuration: This domain targets IIoT Solution Architects and System Integrators, focusing on configuring IoT devices, network connectivity, communication protocols, and edge computing components used in IIoT deployments.

Authorized H11-861_V4.0 Pdf & H11-861_V4.0 Certified Questions

The price of our H11-861_V4.0 practice guide is among the range which you can afford and after you use our study materials you will certainly feel that the value of the product far exceed the amount of the money you pay. Choosing our H11-861_V4.0 study guide equals choosing the success and the perfect service. And our H11-861_V4.0 Exam Questions are definitely 100% success guaranteed for you to prepare for your exam. Just buy our H11-861_V4.0 training braindumps and you will have a brighter future!

Huawei HCIP-Collaboration V4.0 Sample Questions (Q37-Q42):

NEW QUESTION # 37

Assume the SMC system administrator wants to remotely log in to the SC in SSH mode. Which of the following is the default port for the admin user to log in to the SC?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

Explanation:

SSH uses port 22 by default for secure CLI access to the SC admin account.

NEW QUESTION # 38

FILL in BLANK

Assume endpoints T1 and T2 are registered with the same SC node zone (signaling routing is disabled on the SC). After T1 calls the number of T2 using H.323, T1 and T2 communicate with each other. In this process, a total of _____ TCP connection(s) need to be established between T1 and T2. (Enter an Arabic numeral.)

Answer:

Explanation:

2

NEW QUESTION # 39

Which of the following statements is false about point-to-point calls?

- A. During a point-to-point call, H.245 performs capability set matching before the logical channel is opened.
- B. During a point-to-point call, the GK receives two call requests.
- **C. During a point-to-point call, the Alerting signaling is used during the H.225/RAS connection.**
- D. During a point-to-point call, the called endpoint sends a call request to the GK after receiving a SETUP message.

Answer: C

Explanation:

Alerting is part of the H.225 call-signaling sequence, not the RAS interface, so it is not used over the RAS channel.

NEW QUESTION # 40

When the MCU has two service network ports, you can use the IP address bound to bond0 or bond1 to access the MCU web interface.

- **A. FALSE**
- B. TRUE

Answer: A

Explanation:

The MCU's web management interface listens only on the service-network bond (bond0); the second port group (bond1) is

dedicated to media traffic and does not provide web access.

NEW QUESTION # 41

Which of the following statements are true about the SC cluster reconstruction deployment scenario? (Choose all that apply.)

- A. If the number of SIP endpoints is much greater than that of H.323 endpoints, an SC cluster can be deployed for SIP and H.323 endpoint access.
- B. If the number of connected extranet soft clients is greater than 2000, you are advised to reconstruct a non-cluster proxy SC into a proxy SC cluster.
- C. If the number of SIP endpoints is much greater than that of H.323 endpoints, an SC cluster can be deployed for SIP endpoint access. The non-cluster registration SC is reserved for H.323 endpoint access.
- D. If the number of SIP endpoints is far less than that of H.323 endpoints, you are advised not to deploy the SC cluster.

Answer: B,C,D

Explanation:

When SIP endpoints greatly outnumber H.323 endpoints, you deploy an SC cluster to serve the SIP devices while leaving a standalone SC for the H.323 endpoints.

If SIP registrations are much fewer than H.323 registrations, clustering the SC for SIP isn't recommended, as the scale doesn't justify the added complexity.

A proxy SC supports up to 2,000 external soft-client registrations; if you exceed this, you should rebuild it as a proxy-SC cluster to handle the extra load.

NEW QUESTION # 42

.....

You will need to pass the HCIP-Collaboration V4.0 (H11-861_V4.0) exam to achieve the HCIP-Collaboration V4.0 (H11-861_V4.0) certification. Due to extremely high competition, passing the Huawei H11-861_V4.0 exam is not easy; however, possible. You can use Getcertkey products to pass the H11-861_V4.0 Exam on the first attempt. The HCIP-Collaboration V4.0 (H11-861_V4.0) practice exam gives you confidence and helps you understand the criteria of the testing authority and pass the Huawei H11-861_V4.0 exam on the first attempt.
