EC-COUNCIL 312-40 Unlimited Exam Practice & 312-40 Valid Test Test

Some of our customers are white-collar workers with no time to waste, and need a EC-COUNCIL certification urgently to get their promotions, meanwhile the other customers might aim at improving their skills. Our reliable 312-40 question dumps are developed by our experts who have rich experience in the fields. Constant updating of the 312-40 Prep Guide keeps the high accuracy of exam questions thus will help you get use the 312-40 exam quickly. During the exam, you would be familiar with the questions, which you have practiced in our 312-40 question dumps. That's the reason why most of our customers always pass exam easily.

EC-COUNCIL EC-Council Certified Cloud Security Engineer (CCSE) Sample Questions (Q106-Q111):

NEW QUESTION # 106

Daffod is an American cloud service provider that provides cloud-based services to customers worldwide.

Several customers are adopting the cloud services provided by Daffod because they are secure and cost-effective. Daffod complies with the cloud computing law enacted in the US to realize the importance of information security in the economic and national security interests of the US. Based on the given information, which law order does Daffod adhere to?

- A. ECPA
- B. FERPA
- C. FISMA
- D. CLOUD

Answer: C

Explanation:

Daffod, as an American cloud service provider complying with the cloud computing law that emphasizes the importance of information security for economic and national security interests, adheres to the Federal Information Security Management Act (FISMA). Here's why:

FISMA Overview: FISMA is a US law enacted to protect government information, operations, and assets against natural or man-made threats.

Importance of Information Security: FISMA requires that all federal agencies develop, document, and implement an information security and protection program.

Relevance to Daffod: As Daffod complies with this law, it ensures that its cloud services are secure and adhere to national security standards, making it a trusted provider for secure and cost-effective cloud services.

Reference:

NIST SP 800-53: Security and Privacy Controls for Information Systems and Organizations Federal Information Security Modernization Act (FISMA)

NEW QUESTION # 107

Daffod is an American cloud service provider that provides cloud-based services to customers worldwide.

Several customers are adopting the cloud services provided by Daffod because they are secure and cost-effective. Daffod complies with the cloud computing law enacted in the US to realize the importance of information security in the economic and national security interests of the US. Based on the given information, which law order does Daffod adhere to?

- A. ECPA
- B. FERPA
- C. FISMA
- D. CLOUD

Answer: C

Explanation:

Daffod, as an American cloud service provider complying with the cloud computing law that emphasizes the importance of information security for economic and national security interests, adheres to the Federal Information Security Management Act (FISMA). Here's why:

* FISMA Overview: FISMA is a US law enacted to protect government information, operations, and assets against natural or man-made threats.

* Importance of Information Security: FISMA requires that all federal agencies develop, document, and implement an information security and protection program.

* Relevance to Daffod: As Daffod complies with this law, it ensures that its cloud services are secure and adhere to national security standards, making it a trusted provider for secure and cost-effective cloud services.

* Federal Information Security Modernization Act (FISMA)

NEW QUESTION # 108

Trevor Noah works as a cloud security engineer in an IT company located in Seattle, Washington. Trevor has implemented a disaster recovery approach that runs a scaled-down version of a fully functional environment in the cloud. This method is most suitable for his organization's core business-critical functions and solutions that require the RTO and RPO to be within minutes. Based on the given information, which of the following disaster recovery approach is implemented by Trevor?

- **A. Warm Standby**
- B. Multi-Cloud Option
- C. Pilot Light approach
- D. Backup and Restore

Answer: A

Explanation:

The Warm Standby approach in disaster recovery involves running a scaled-down version of a fully functional environment in the cloud. This method is activated quickly in case of a disaster, ensuring that the Recovery Time Objective (RTO) and Recovery Point Objective (RPO) are within minutes.

* Scaled-Down Environment: A smaller version of the production environment is always running in the cloud. This includes a minimal number of resources required to keep the application operational¹².

* Quick Activation: In the event of a disaster, the warm standby environment can be quickly scaled up to handle the full production load¹².

* RTO and RPO: The warm standby approach is designed to achieve an RTO and RPO within minutes, which is essential for business-critical functions¹².

* Business Continuity: This approach ensures that core business functions continue to operate with minimal disruption during and after a disaster¹².

References: Warm Standby is a disaster recovery strategy that provides a balance between cost and downtime.

It is less expensive than a fully replicated environment but offers a faster recovery time than cold or pilot light approaches¹². This makes it suitable for organizations that need to ensure high availability and quick recovery for their critical systems.

NEW QUESTION # 109

Ocular Private Ltd. is an IT company that develops software related to graphic design. The organization has been using Google cloud services. Margot Robbie has been working as a cloud security engineer in Ocular Private Ltd. over the past three years. She uses the CCP Cloud Operations Suite (formerly Stack Driver) logging and monitoring tool to monitor and debug CCP hosted applications. Margot would like to monitor a compute engine instance with cloud monitoring; therefore, she created a compute engine instance, then she installed the cloud monitoring agent. Which of the following command can Margot use to start the cloud monitoring agent?

- A. `sudo service stackdriver.agent start`
- B. `sudo stackdriver.agent start`
- **C. `sudo service stackdriver-agent start`**
- D. `sudo stackdriver-agent start`

Answer: C

NEW QUESTION # 110

Assume you work for an IT company that collects user behavior data from an e-commerce web application. This data includes the user interactions with the applications, such as purchases, searches, saved items, etc. Capture this data, transform it into zip files, and load these massive volumes of zip files received from an application into Amazon S3. Which AWS service would you use to do this?

- A. AWS Database Migration Service
- **B. AWS Kinesis Data Firehose**
- C. AWS Migration Hub
- D. AWS Snowmobile

Answer: B

Explanation:

To handle the collection, transformation, and loading of user behavior data into Amazon S3, AWS Kinesis Data Firehose is the suitable service. Here's how it works:

Data Collection: Kinesis Data Firehose collects streaming data in real-time from various sources, including web applications that track user interactions.

Data Transformation: It can transform incoming streaming data using AWS Lambda, which can include converting data into zip files if necessary¹.

Loading to Amazon S3: After transformation, Kinesis Data Firehose automatically loads the data into Amazon S3, handling massive volumes efficiently and reliably¹.

Real-time Processing: The service allows for the real-time processing of data, which is essential for capturing dynamic user behavior data.

Reference:

AWS Kinesis Data Firehose is designed to capture, transform, and load streaming data into AWS data stores for near real-time analytics with existing business intelligence tools and dashboards¹. It's a fully managed service that scales automatically to match the throughput of your data and requires no ongoing administration. It can also batch, compress, and encrypt the data before loading, reducing the amount of storage used at the destination and increasing security¹.

NEW QUESTION # 111

.....

DumpStillValid has come up with the latest and real EC-COUNCIL 312-40 Exam Dumps that can solve these drastic problems for you. We guarantee that these questions will be enough for you to clear the EC-Council Certified Cloud Security Engineer (CCSE) (312-40) examination on the first attempt. Doubtlessly, cracking the EC-COUNCIL 312-40 test of the EC-Council Certified Cloud Security Engineer (CCSE) (312-40) credential is one tough task but this task can be made easier if you prepare with EC-Council Certified Cloud Security Engineer (CCSE) (312-40) practice questions of DumpStillValid.
