**JN0-363 Reliable Braindumps Book | JN0-363 Detailed Answers**

JN0-363 exam braindumps can prove your ability to let more big company to attention you. JN0-363 exam guide will help you get a good job. JN0-363 test prep can help you in a very short period of time to prove yourself perfectly and efficiently. With tens of thousands of our customers proved that, if you study with our JN0-363 Exam Questions for twenty to thirty hours, then you will be more confident and capable to pass the JN0-363 exam and get the according certification.

## Juniper Service Provider Routing and Switching, Specialist (JNCIS-SP) Sample Questions (Q46-Q51):

### NEW QUESTION # 46

What are two types of SIDs used in segment routing? (Choose two.)

- A. adjacency
- B. node
- C. interface
- D. link

Answer: A,B

Explanation:

<https://zartmann.dk/sr-intro/>

In segment routing, SIDs (Segment Identifiers) are used to identify different types of segments that can be traversed. A node SID represents an instruction to route a packet to a particular node, and an adjacency SID represents an instruction to route a packet over a specific link or adjacency between two nodes.

Reference:

Juniper Networks Technical Documentation on Segment Routing

### NEW QUESTION # 47

Click the Exhibit button.

```
[edit routing-options]
user@router# show
generate {
    defaults {
        preference 5;
    }
    route 0.0.0.0/0 policy ISP-NET;
}

[edit]
user@router# show policy-options
policy-statement ISP-NET {
    term 1 {
        from protocol bgp;
        then accept;
    }
    term 2 {
        then reject;
    }
}
```

Referring to the exhibit, which two statements are correct? (Choose two.)

- A. The router will remove the 0.0.0.0/0 route from the routing table when any BGP prefixes are present
- B. The router will install the 0.0.0.0/0 route into the routing table when any BGP prefixes are present
- C. The router will remove the 0.0.0.0/0 route from the routing table when no BGP prefixes are present
- D. The router will install the 0.0.0.0/0 route into the routing table when no BGP prefixes are present

Answer: B,C

#### NEW QUESTION # 48

What is a key differentiator of generate routes from aggregate routes?

- A. Generate routes have a default preference value of 210.
- **B. Generate routes use a forwarding next hop.**
- C. Generate routes cannot be used as a gateway of last resort.
- D. Generate routes have a default next-hop value of reject.

**Answer: B**

#### NEW QUESTION # 49

By default, the Junos OS advertises which address(es) in LDP forwarding equivalency class (FEC) messages?

- A. all transit interfaces
- **B. loopback address**
- C. all router addresses
- D. primary transit interface address

**Answer: B**

#### NEW QUESTION # 50

You are asked to configure filter-based forwarding on a Junos device.

Which two statements are correct in this scenario? (Choose two.)

- A. You must create a routing policy.
- **B. You must create a routing instance.**
- **C. You must create and apply a match filter.**
- D. You must create a route target.

**Answer: B,C**

Explanation:

To configure filter-based forwarding, perform the following tasks: Create a match filter on the ingress device. To specify a match filter, include the filter filter-name statement at the [edit firewall] hierarchy level. A packet that passes through the filter is compared against a set of rules to classify it and to determine its membership in a set. Once classified, the packet is forwarded to a routing table specified in the accept action in the filter description language. The routing table then forwards the packet to the next hop that corresponds to the destination address entry in the table. Create routing instances that specify the routing table(s) to which a packet is forwarded, and the destination to which the packet is forwarded at the [edit routing-instances] hierarchy level.

#### NEW QUESTION # 51

.....

We have chosen a large number of professionals to make JN0-363 learning question more professional, while allowing our study materials to keep up with the times. Of course, we do it all for you to get the information you want, and you can make faster progress. You can also get help from JN0-363 exam training professionals at any time when you encounter any problems. We can be sure that with the professional help of our JN0-363 Test Guide you will surely get a very good experience. Good materials and methods can help you to do more with less. Choose JN0-363 test guide to get you closer to success.
