

# 2026 CPC-CDE-RECERT: Valid New CyberArk CDE-CPC Recertification Test Practice

What's more, part of that Itcertking CPC-CDE-RECERT dumps now are free: <https://drive.google.com/open?id=1uQsC2dtmmugMDLn4rmk64oRQhFZzp4bO>

We aim to provide the best service for our customers, and we demand of ourselves and our after sale service staffs to the highest ethical standard, and our CPC-CDE-RECERT study guide and compiling processes will be of the highest quality. We play an active role in making every country and community in which we selling our CPC-CDE-RECERT Practice Test a better place to live and work. That is to say, if you have any problem after CPC-CDE-RECERT exam materials purchasing, you can contact our after sale service staffs anywhere at any time on our CPC-CDE-RECERT study guide. And our staffs are only waiting for you online.

A dedicated team is accessible for Itcertking customers. One can reach our 24/7 customer support team to resolve their queries. Moreover, our team will also assist users if they face any kind of trouble while using above-mentioned formats of CPC-CDE-RECERT practice material. We will offer you a refund guarantee (terms and conditions apply) as saving your money is our priority. Additionally, we offer up to 1 year of free updates and free demo of the CPC-CDE-RECERT product. Order CyberArk CPC-CDE-RECERT exam questions now and get excellent these offers.

## CPC-CDE-RECERT Valid Test Tips - Valid CPC-CDE-RECERT Test Topics

Our CPC-CDE-RECERT practice materials comprise of a number of academic questions for your practice, which are interlinked and helpful for your exam. So their perfection is unquestionable. As a result, CPC-CDE-RECERT real exam win worldwide praise and acceptance. Our CPC-CDE-RECERT practice materials are determinant factors giving you assurance of smooth exam. The sooner you make up your mind, the more efficient you will win.

## CyberArk CDE-CPC Recertification Sample Questions (Q79-Q84):

### NEW QUESTION # 79

What is a supported certificate format for retrieving the LDAPS certificate when not using the Cyberark provided LDAPS certificate tool?

- A. p7c
- B. p12
- C. .p7b
- D. .der

**Answer: D**

Explanation:

For retrieving the LDAPS certificate when not using the CyberArk provided LDAPS certificate tool, the supported certificate format is .der. The DER (Distinguished Encoding Rules) format is a binary form of a certificate rather than the ASCII PEM format. This format is widely supported across various systems for securing LDAP connections by providing a mechanism for LDAP servers to

authenticate themselves to users.

This information can be verified by checking LDAP configuration guides and CyberArk's secure implementation documentation which outline supported certificate formats for LDAP integrations.

### NEW QUESTION # 80

The Secure Tunnel component of CyberArk Privilege Cloud connects to which services in the CyberArk Privilege Cloud? (Choose two.)

- A. <https://backend-services.privilegecloud.cyberark.cloud>
- B. <https://connector-<subdomain>.privilegecloud.cyberark.cloud>
- C. <https://update.privilegecloud.cyberark.cloud>
- D. <https://telemetry.privilegecloud.cyberark.cloud>
- E. <https://console.privilegecloud.cyberark.cloud>

**Answer: B,E**

Explanation:

CyberArk's official outbound traffic/network requirements explicitly list the two Privilege Cloud cloud- side endpoints that are required for Secure Tunnel communications (for REST/API calls over HTTPS/443):

\* Backend service management (Required for Secure Tunnel): <https://console.privilegecloud.cyberark.com>

cyberark.com

\* Connector (Required for Secure Tunnel): <https://connector-<subdomain>.privilegecloud.cyberark.com>

These map directly to answer choices A (console) and B (connector-<subdomain>).

Note: Your options use the .cyberark.cloud domain, while CyberArk's network requirements documentation shows these endpoints in the .cyberark.com domain for Privilege Cloud. The service roles (Console + Connector endpoint) are what Secure Tunnel must reach, and those are the two "Required for Secure Tunnel" services in the official requirements.

Why the other options are not selected (based on what's "required for Secure Tunnel" in the official allowlist guidance):

\* C (backend-services...): Not listed in CyberArk's published "Required for Secure Tunnel" FQDN allowlist entries (console + connector are).

\* D (telemetry...): Telemetry is a separate capability (dashboards / utilization tracking) and is not documented as the required Secure Tunnel service endpoint.

\* E (update...): Secure Tunnel upgrade/download processes are documented, but "update.\*" is not listed as a required Secure Tunnel cloud endpoint in the outbound allowlist table.

### NEW QUESTION # 81

When creating a new safe, what is the default number of password versions stored if using 'Save latest account versions' within version management settings?

- A. 0
- B. 1
- C. 2
- D. 3

**Answer: A**

Explanation:

CyberArk's Safe creation documentation explains that when you choose "Save the last <number> account versions" (also shown as "Save latest account versions" in some UIs), the Safe retains the most recent password versions indefinitely by keeping a fixed number of versions and rolling off the oldest. It also states that by default, the last five password versions are stored.

### NEW QUESTION # 82

What is a requirement when installing the PSM on multiple Privileged Cloud Connector servers?

- A. Additional Privilege Cloud Connector servers cannot have CPM installed.
- B. Each PSM must have the same path to the same recordings directory.
- C. In-domain servers cannot be used when deploying multiple PSM servers.

- D. All PSMs in the environment must be configured to use load balancing.

**Answer: B**

Explanation:

When installing the Privileged Session Manager (PSM) on multiple servers, it is required that each PSM installation has the same path to the same recordings directory. This is necessary to ensure that session recordings are stored consistently across different PSM instances, which is important for high availability and load balancing implementations, as well as for maintaining a unified audit trail.

:

CyberArk documentation on installing multiple PSM servers

### NEW QUESTION # 83

According to best practice, when considering the location of PSM Connector servers in Privilege Cloud environments, where should the PSM be placed?

- A. near the CPM servers
- B. near the Vault (closer to the external internet connection)
- C. near the Users
- D. near the target devices

**Answer: D**

Explanation:

According to best practice, when considering the location of PSM Connector servers in Privilege Cloud environments, the PSM should be placed near the target devices. This placement minimizes latency and maximizes performance by reducing the distance that data has to travel between the PSM servers and the devices they are managing. This is particularly important for maintaining high efficiency and response times during remote session management and operations, which are critical for the overall effectiveness of the Privilege Cloud environment.

### NEW QUESTION # 84

.....

An CyberArk CPC-CDE-RECERT (CPC-CDE-RECERT) practice questions is a helpful, proven strategy to crack the CyberArk CPC-CDE-RECERT exam successfully. It helps candidates to know their weaknesses and overall performance. Itcertking has hundreds of CyberArk CPC-CDE-RECERT (CPC-CDE-RECERT) exam dumps that are useful to practice in real time. The CyberArk CPC-CDE-RECERT practice questions have a close resemblance with the actual CPC-CDE-RECERT exam.

**CPC-CDE-RECERT Valid Test Tips:** [https://www.itcertking.com/CPC-CDE-RECERT\\_exam.html](https://www.itcertking.com/CPC-CDE-RECERT_exam.html)

Maybe you are not familiar to Itcertking CPC-CDE-RECERT Valid Test Tips, CyberArk New CPC-CDE-RECERT Test Practice And these notes will make it easier for you to absorb the testing centers, Are you looking for a fast and smart way to prepare for CPC-CDE-RECERT certification dumps, CyberArk New CPC-CDE-RECERT Test Practice Some customers might worry that passing the exam is a time-consuming process, If we have no valid study method (real CPC-CDE-RECERT questions and dumps) for examination we will feel difficult and want to give up easily.

Convective Mass-Transfer Coefficients, But perhaps it's the beginning CPC-CDE-RECERT of a process that results in well thought out legislation that clearly defines who is, and is not, and independent contractor.

## Quiz CPC-CDE-RECERT - CyberArk CPC-CDE-RECERT Accurate New Test Practice

Maybe you are not familiar to Itcertking. And these notes will make it easier for you to absorb the testing centers, Are you looking for a fast and smart way to prepare for CPC-CDE-RECERT Certification Dumps?

Some customers might worry that passing the exam is a time-consuming process, If we have no valid study method (real CPC-CDE-RECERT questions and dumps) for examination we will feel difficult and want to give up easily.
