## Best Way To Ensure Success With CompTIA FC0-U71 Exam Questions

There are many benefits after you pass the FC0-U71 certification such as you can enter in the big company and double your wage. Our FC0-U71 study materials boost high passing rate and hit rate so that you needn't worry that you can't pass the test too much. We provide free tryout before the purchase to let you decide whether it is valuable or not by yourself. To further understand the merits and features of our FC0-U71 Practice Engine you could look at the introduction of our product in detail.

## CompTIA Tech+ Certification Exam Sample Questions (Q123-Q128):

### NEW QUESTION # 123

A database administrator creates a new database and assigns the primary key. Which of the following database types has the administrator created?

- A. Document
- B. Non-structured
- C. Relational
- D. Key/value

**Answer: C**

Explanation:

A relational database uses tables consisting of rows and columns where a primary key uniquely identifies each row (record). As stated in the CompTIA ITF+ FC0-U71 Official Study Guide:

"Relational databases store data in tables consisting of rows and columns. Each table has a primary key, which uniquely identifies each record."

"Document and key/value databases are types of NoSQL databases and do not use primary keys in the same structured tabular format." Non-structured databases (like object storage or big data repositories) do not enforce primary keys.

-

### NEW QUESTION # 124

Which of the following is a touch screen used for? (Choose two.)

- A. Processing
- B. Logging
- C. Input
- D. Networking
- E. Storage
- F. Output

**Answer: C,F**

Explanation:

A touch screen functions as both an input and output device. According to the CompTIA ITF+ FC0-U71 Official Study Guide:

"A touchscreen display is a hybrid device combining input and output. It shows visual output like a standard monitor but also allows the user to interact directly by touching the screen."

"Input devices allow users to provide data or control signals (e.g., keyboard, mouse, touchscreen)."

"Output devices show results from the computer's processing (e.g., monitor, printer, touchscreen)." Touchscreens display information (output) and receive user input through touch (input). They do not perform storage, networking, processing, or logging.

### NEW QUESTION # 125

A student is setting up a laptop with a built-in camera for an online class. Upon logging in, the student is able to see the teacher, but the teacher is unable to see the student. Which of the following actions would most likely fix this issue?

- A. Update the device driver
- B. Reset the peripheral IP
- C. Install a videoconference application
- D. Disable pop-up blockers

**Answer: A**

Explanation:

If the student's built-in camera isn't functioning, it is likely due to a missing or outdated device driver. Updating the camera driver allows the OS to properly interface with the hardware.

"Drivers are essential software that enables communication between the OS and hardware devices. A malfunctioning camera often points to a driver issue." - CompTIA ITF+ Correct answer: B

### NEW QUESTION # 126

Which of the following concepts is represented by the sale of customer email addresses to potential product vendors?

- A. Data capture
- B. Data analytics
- C. Data correlation
- D. Data monetization

**Answer: D**

Explanation:

Data monetization refers to generating revenue from data assets, such as selling access or insights from collected user data to third parties.

"Data monetization involves using data to generate economic value - for example, selling user data to vendors or advertisers." - CompTIA ITF+ Data Concepts Correct answer: A

### NEW QUESTION # 127

Which of the following data types would be best for storing data representing a phone number?

- A. String
- B. Integer
- C. Char
- D. Float

**Answer: A**

Explanation:

Although a phone number contains only digits, it is best stored as a string because:

It doesn't require mathematical operations.

It may include formatting symbols like dashes or parentheses.

"Phone numbers are stored as strings because they are identifiers, not values for computation." - CompTIA ITF+ Data Types Correct answer: A

### NEW QUESTION # 128

.....

We have applied the latest technologies to the design of our CompTIA FC0-U71 test prep not only on the content but also on the

displays. As a consequence you are able to keep pace with the changeable world and remain your advantages with our CompTIA Tech+ Certification Exam FC0-U71 Training Materials.
