However, the appearance of our NIS-2-Directive-Lead-Implementer certification materials will solve your question and change your impression of NIS-2-Directive-Lead-Implementer certification exam. You will find it is easy to pass the NIS-2-Directive-Lead-Implementer certification exam. What's more, contrary to most of the exam preparation materials available online, the NIS-2-Directive-Lead-Implementer certification materials of NIS-2-Directive-Lead-Implementer can be obtained at a reasonable price, and its quality and advantages exceed all similar products of our competitors. All our customers have successfully passed the exam. NIS-2-Directive-Lead-Implementer certification materials will enable you to obtain the actual certification within days, and will be the best choice for your time and money.

Preparing for the exam may be not an easy thing for some candidates, if you choose us, we will do the things for you, what you need to do is practicing. We offer you free demo for NIS-2-Directive-Lead-Implementer training materials, you can have a try before buying. And you will receive the downloading link and password within ten minutes after purchasing the NIS-2-Directive-Lead-Implementer Exam Dumps. In addition, we have after-service stuff to resolve the confusions you have. If you fail to pass the exam, we are money back guaranteed, or if you have other exam to attend, we can also replace other 2 valid exam dumps for you.

## Pass Guaranteed Quiz PECB - NIS-2-Directive-Lead-Implementer - PECB Certified NIS 2 Directive Lead Implementer –Reliable Reliable Dumps Book

GuideTorrent PECB Certified NIS 2 Directive Lead Implementer (NIS-2-Directive-Lead-Implementer) web-based practice exam software also works without installation. It is browser-based; therefore no need to install it, and you can start practicing for the PECB Certified NIS 2 Directive Lead Implementer (NIS-2-Directive-Lead-Implementer) exam by creating the PECB NIS-2-Directive-Lead-Implementer practice test. You don't need to install any separate software or plugin to use it on your system to practice for your actual PECB Certified NIS 2 Directive Lead Implementer (NIS-2-Directive-Lead-Implementer) exam. GuideTorrent PECB Certified NIS 2 Directive Lead Implementer (NIS-2-Directive-Lead-Implementer) web-based practice software is supported by all well-known browsers like Chrome, Firefox, Opera, Internet Explorer, etc.

## PECB NIS-2-Directive-Lead-Implementer Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Cybersecurity controls, incident management, and crisis management: This domain focuses on Security Operations Managers and Incident Response Coordinators and involves implementing cybersecurity controls, managing incident response activities, and handling crisis situations. It ensures organizations are prepared to prevent, detect, respond to, and recover from cybersecurity incidents effectively.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Fundamental concepts and definitions of NIS 2 Directive: This section of the exam measures the skills of Cybersecurity Professionals and IT Managers and covers the basic concepts and definitions related to the NIS 2 Directive. Candidates gain understanding of the directive's scope, objectives, key terms, and foundational requirements essential to lead implementation efforts effectively within organizations.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Planning of NIS 2 Directive requirements implementation: This domain targets Project Managers and Implementation Specialists focusing on how to initiate and plan the rollout of NIS 2 Directive requirements. It includes using best practices and methodologies to align organizational processes and cybersecurity programs with the directive's mandates.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Testing and monitoring of a cybersecurity program: This domain assesses the abilities of Security Auditors and Compliance Officers in testing and monitoring the effectiveness of cybersecurity programs. Candidates learn to design and conduct audits, continuous monitoring, performance measurement, and apply continual improvement practices to maintain NIS 2 Directive compliance.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Communication and awareness: This section covers skills of Communication Officers and Training Managers in developing and executing communication strategies and awareness programs. It emphasizes fostering cybersecurity awareness across the organization and effective internal and external communication during cybersecurity events or compliance activities.</li> </ul>

## PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q60-Q65):

### NEW QUESTION # 60

#### Scenario 2:

MHospital, founded in 2005 in Metropolis, has become a healthcare industry leader with over 2,000 dedicated employees known for its commitment to qualitative medical services and patient care innovation. With the rise of cyberattacks targeting healthcare institutions, MHospital acknowledged the need for a comprehensive cyber strategy to mitigate risks effectively and ensure patient safety and data security. Hence, it decided to implement the NIS 2 Directive requirements. To avoid creating additional processes that do not fit the company's context and culture, MHospital decided to integrate the Directive's requirements into its existing processes. To initiate the implementation of the Directive, the company decided to conduct a gap analysis to assess the current state of the cybersecurity measures against the requirements outlined in the NIS 2 Directive and then identify opportunities for closing the gap.

Recognizing the indispensable role of a computer security incident response team (CSIRT) in maintaining a secure network environment, MHospital empowers its CSIRT to conduct thorough penetration testing on the company's networks. This rigorous testing helps identify vulnerabilities with a potentially significant impact and enables the implementation of robust security measures. The CSIRT monitors threats and vulnerabilities at the national level and assists MHospital regarding real-time monitoring of their network and information systems. MHospital also conducts cooperative evaluations of security risks within essential supply chains for critical ICT services and systems. Collaborating with interested parties, it engages in the assessment of security risks, contributing to a collective effort to enhance the resilience of the healthcare sector against cyber threats.

To ensure compliance with the NIS 2 Directive's reporting requirements, MHospital has streamlined its incident reporting process. In the event of a security incident, the company is committed to issuing an official notification within four days of identifying the incident to ensure that prompt actions are taken to mitigate the impact of incidents and maintain the integrity of patient data and healthcare operations. MHospital's dedication to implementing the NIS 2 Directive extends to cyber strategy and governance. The company has established robust cyber risk management and compliance protocols, aligning its cybersecurity initiatives with its overarching business objectives.

According to scenario 2, MHospital is committed to issuing an official notification within four days of identifying an incident. Is this in compliance with the NIS 2 Directive requirements?

- A. Yes, the official notification should be issued within 96 hours of identifying the incident
- B. No, the official notification should be issued within 72 hours of identifying the incident
- C. No, the official notification should be issued within 48 hours of identifying the incident

**Answer: A**

### NEW QUESTION # 61

Scenario 1:

into incidents that could result in substantial material or non-material damage. When it comes to identifying and mitigating risks, the company has employed a standardized methodology. It conducts thorough risk identification processes across all operational levels, deploys mechanisms for early risk detection, and adopts a uniform framework to ensure a consistent and effective incident response. In alignment with its incident reporting plan, SecureTech reports on the initial stages of potential incidents, as well as after the successful mitigation or resolution of the incidents.

Moreover, SecureTech has recognized the dynamic nature of cybersecurity, understanding the rapid technological evolution. In response to the ever-evolving threats and to safeguard its operations, SecureTech took a proactive approach by implementing a comprehensive set of guidelines that encompass best practices, effectively safeguarding its systems, networks, and data against threats. The company invested heavily in cutting-edge threat detection and mitigation tools, which are continuously updated to tackle emerging vulnerabilities. Regular security audits and penetration tests are conducted by third-party experts to ensure robustness against potential breaches. The company also prioritizes the security of customers' sensitive information by employing encryption protocols, conducting regular security assessments, and integrating multi-factor authentication across its platforms.

Based on the scenario above, answer the following question:

In which category SecureTech fit according to the NIS 2 Directive?

- A. Essential entities
- B. Important entities
- C. Critical entities

**Answer: A**

### NEW QUESTION # 62

Which reporting method is best suited for presenting raw data in an easy-to-read format, including features like nested grouping, rolling summaries, and dynamic drill-through or linking?

- A. Scorecards or strategic dashboards
- B. Tactical and operational dashboards
- C. Reports

**Answer: C**

### NEW QUESTION # 63

Scenario 5:Based in Altenberg, Germany, Astral Nexus Power is an innovative company founded by visionary engineers and scientists focused on pioneering technologies in the electric power sector. It focuses on the development of next-generation energy storage solutions powered by cutting-edge quantum materials. Recognizing the critical importance of securing its energy infrastructure, the company has adopted the NIS 2 Directive requirements. In addition, it continually cooperates with cybersecurity experts to fortify its digital systems, protect against cyber threats, and ensure the integrity of the power grid. By incorporating advanced security protocols, the company contributes to the overall resilience and stability of the European energy landscape. Dedicated to ensuring compliance with NIS 2 Directive requirements, the company initiated a comprehensive journey toward transformation, beginning with an in-depth comprehension of its structure and context, which paved the way for the clear designation of roles and responsibilities related to security, among others. The company has appointed a Chief Information Security Officer (CISO) who is responsible to set the strategic direction for cybersecurity and ensure the protection of information assets. The CISO reports directly to the Chief Executive Officer (CEO) of Astral Nexus Power which helps in making more informed decisions concerning risks, resources, and investments. To effectively carry the roles and responsibilities related to information security, the company established a cybersecurity team which includes the company's employees and an external cybersecurity consultant to guide them.

Astral Nexus Power is also focused on managing assets effectively. It consistently identifies and categorizes all of its digital assets, develops an inventory of all assets, and assesses the risks associated with each asset. Moreover, it monitors and maintains the assets and has a process for continual improvement in place. The company has also assigned its computer security incident response team

(CSIRT) with the responsibility to monitor its on and off premises internet-facing assets, which help in managing organizational risks. Furthermore, the company initiates a thorough process of risk identification, analysis, evaluation, and treatment. By identifying operational scenarios, which are then detailed in terms of assets, threats, and vulnerabilities, the company ensures a comprehensive identification and understanding of potential risks. This understanding informs the selection and development of risk treatment strategies, which are then communicated and consulted upon with stakeholders. Astral Nexus Power's commitment is further underscored by a meticulous recording and reporting of these measures, fostering transparency and accountability.

Based on the scenario above, answer the following question:

Which risk identification approach does Astral Nexus Power use?

- **A. Asset-based approach**
- B. Event-based approach
- C. All-hazards approach

**Answer: A**

#### NEW QUESTION # 64

Which type of vulnerability assessment scans is primarily focused on evaluating websites and mobile applications of known software vulnerabilities and incorrect configurations?

- A. Web-based scans
- **B. Application scans**
- C. Network-based scans

**Answer: B**

#### NEW QUESTION # 65

.....

For candidates who prefer a more flexible and convenient option, PECB provides the NIS-2-Directive-Lead-Implementer PDF file, which can be easily printed and studied at any time. The PDF file contains the latest real PECB Certified NIS 2 Directive Lead Implementer (NIS-2-Directive-Lead-Implementer) questions, and NIS-2-Directive-Lead-Implementer ensures that the file is regularly updated to keep up with any changes in the exam's content.
