Salesforce Experience-Cloud-Consultant (Salesforce Certified Experience Cloud Consultant) Certification Exam is a highly sought-after certification that validates an individual's expertise in implementing and designing Salesforce Experience Cloud solutions. Salesforce Experience Cloud is a powerful platform that enables companies to create personalized digital experiences for their customers, partners, and employees. With this certification, individuals can showcase their ability to create engaging and seamless experiences that meet the unique needs of their clients.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q178-Q183):

NEW QUESTION # 178

The Experience Cloud manager has been asked to ensure that a Knowledge article is visible to Internal Salesforce users, unauthenticated visitors to the site, and third-party authenticated users.

Which two settings need to be configured on the draft article before it is published?

Choose 2 answers

- A. Visible to Partner
- **B. Visible in Public Knowledge Base**
- **C. Visible to Employee**
- D. Visible to Guest User

Answer: B,C

Explanation:

These two options allow the article to be visible to internal Salesforce users, unauthenticated visitors to the site, and third-party authenticated users. Visible in Public Knowledge Base enables the article to be accessed by guest users without logging in, while Visible to Employee enables the article to be accessed by internal users with the appropriate permissions⁴

NEW QUESTION # 179

Universal Containers (UC) works with a large retainer network. UC wants these retailers to start registering deal and work with UC to convert them into sales.

Which user license should the Experience Cloud consultant recommend?

- A. Partner Community Plus
- **B. Partner Community**
- C. Platform Portal
- D. Commerce Portal

Answer: B

NEW QUESTION # 180

Universal Containers is implementing a Partner Community.

Which sharing setting would allow users to collaborate with their peers who work for the same partner firm, but not with any users outside of their firm?

- **A. Portal User Visibility**
- B. Site User Visibility
- C. Chatter Group Member Visibility
- D. Community User Visibility

Answer: A

Explanation:

The sharing setting that would allow users to collaborate with their peers who work for the same partner firm, but not with any users outside of their firm, is Portal User Visibility. Portal User Visibility is a setting that allows portal users (such as Customer Community or Partner Community users) to see other portal users who have the same role or a role below them in the portal role hierarchy. This setting enables portal users to share information and collaborate with their peers within their own firm, but not with other firms.

NEW QUESTION # 181

Dreamscape Flowers recently launched three Experience Cloud sites for North America, Europe, and Asia Pacific regions. The Community managers have installed the Salesforce Communities Management package and are getting useful insights on adoption and engagement.

During the Community managers' weekly meeting, the Community manager for Europe mentioned that the preconfigured Insights reports cannot be used for their Experience Cloud site.

What is the reason for this issue?

- A. The preconfigured Insights reports need to be modified to meet GDPR requirements.
- B. The Community manager for Europe does not have System Administrator privileges.
- **C. The Experience Cloud site for Europe is not using Chatter which is needed to use the preconfigured Insights reports.**
- D. The Experience Cloud site for Europe has more than a million users.

Answer: C

NEW QUESTION # 182

A manager at Ursa Major Solar is responsible for creating and editing only the community users for the Partner Community they have recently set up using Experience Cloud. However, the manager is able to make organizational changes to the user records of the internal users as well.

What could be the possible issue here?

- A. The manager has been given the Manage Customer Users permission.
- B. The manager has been given the Manage Profiles and Permission Sets permission.
- **C. The manager has been given the Manage User permission.**
- D. The manager has been given the Manage External Users permission.

Answer: C

Explanation:

This permission allows the manager to create, edit, and delete all users in the org, including internal users.

This permission overrides the sharing settings and role hierarchy that normally restrict access to user records. To limit the manager's access to only community users, the manager should be given the Manage External Users permission instead.

NEW QUESTION # 183

.....
