MB-330 Premium Files, New MB-330 Test Discount

This pdf covers all of the MB-330 Exam Questions from the previous exams as well as those that will appear in the upcoming Microsoft MB-330 exam. The MB-330 PDF exam questions are compiled according to the latest exam syllabus to ensure your success. The Microsoft MB-330 PDF exam questions are also printable to make handy notes.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Sample Questions (Q352-Q357):

NEW QUESTION # 352

A company uses Dynamics 365 Supply Chain Management. The company plans to add trucks to the existing truck fleet over the upcoming months.

The company requires truck drivers to complete a daily self-inspection of their trucks. The government requires that commercial trucks are inspected annually by a certified repair facility.

The fleet manager wants to minimize the amount of time the truck is in the shop.

* When a truck driver reports a problem during the daily inspection that requires a repair and is within a week of the annual inspection, the company requires that both events occur at the same time in the shop.

* The annual inspection can vary on due date for both new and existing trucks.

You must configure the requirements to minimize truck downtime.

What should you configure for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement
Establish maintenance plan for all trucks.

Ensure annual inspection is completed if it is due within a week of a reported maintenance issue.

Configuration

- Asset types, time
- Asset types, time
- Asset types, counter
- Individual asset, time
- Individual asset, counter
- Time fence
- Time fence
- Tolerance days
- Finish within days

Answer:

Explanation:

Answer Area

Requirement
Establish maintenance plan for all trucks.

Ensure annual inspection is completed if it is due within a week of a reported maintenance issue.

Configuration

- Asset types, time
- Asset types, time
- Asset types, counter
- Individual asset, time
- Individual asset, counter
- Time fence
- Time fence
- Tolerance days
- Finish within days

Explanation:

Answer Area

Microsoft

Requirement

Establish maintenance plan for all trucks.

Ensure annual inspection is completed if it is due within a week of a reported maintenance issue.

Configuration

Asset types, time

Time fence

NEW QUESTION # 353

A company plans to stock new items and value those items by using FIFO principle. The company has multiple sites set up. There are multiple warehouses for each site.

You must be able to view the value and quantity of these items at each warehouse.

You need to apply FIFO costing per warehouse.

How should you complete the costing setup? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement	Action
Create the product and assign costing method.	
Create Storage dimension groups.	

Answer Area

Requirement
Create the product and assign costing method.
Create Storage dimension groups.

Action

- Set the Costing method field to FIFO.
- Set the item model group to FIFO.
- Enter the FIFO amount in the Cost price field.
- Set the item group to FIFO.
- Physically and financially track inventory by site and warehouse.
- Physically track inventory by site. Financially track inventory by site and warehouse.
- Physically track inventory by warehouse. Financially track inventory by warehouse.
- Physically track inventory by site, warehouse, and location. Financially track inventory by warehouse.

Answer:

Explanation:

Answer Area

Requirement
Create the product and assign costing method.
Create Storage dimension groups.

Set the Costing method field to FIFO.
Set the Item model group to FIFO.
Enter the FIFO amount in the Cost price field.
Set the item group to FIFO.

Physically and financially track inventory by site and warehouse.
Physically track inventory by site. Financially track inventory by site and warehouse.
Physically track inventory by warehouse. Financially track inventory by warehouse.
Physically track inventory by site, warehouse, and location. Financially track inventory by warehouse.

Explanation

Requirement

Create the product and assign costing method.

Create Storage dimension groups.

Action

Set the Costing method field to FIFO.
Set the Item model group to FIFO.
Enter the FIFO amount in the Cost price field.
Set the item group to FIFO.

Physically and financially track inventory by site and warehouse.
Physically track inventory by site. Financially track inventory by site and warehouse.
Physically track inventory by warehouse. Financially track inventory by warehouse.
Physically track inventory by site, warehouse, and location. Financially track inventory by warehouse.

NEW QUESTION # 354

A company uses Dynamics 365 Supply Chain Management.

You need to implement inventory cycle counting.

Which counting methods should you use? To answer, drag the appropriate counting methods to the correct requirements. Each counting method may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Counting methods	Answer Area	Counting method
system directed	<p>Requirement</p> <p>Guide the user through a count and assign a cycle counting work ID to the user.</p> <p>Allow the user to determine which location, work pool, or zone to count.</p> <p>Allow the user to determine which location to count and when to count the location.</p> <p>Perform an on-demand count.</p>	
cycle count		
cycle count		
grouping		
user-directed		
cycle count		
spot count		

Answer:

Explanation:

Counting methods	Answer Area	Counting method
system directed	Requirement Guide the user through a count and assign a cycle counting work ID to the user. Allow the user to determine which location, work pool, or zone to count. Allow the user to determine which location to count and when to count the location. Perform an on-demand count.	system directed
cycle count		cycle count
grouping		grouping
user-directed		user-directed
cycle count		cycle count
spot count		spot count

Explanation:

Requirement	Counting method
Guide the user through a count and assign a cycle counting work ID to the user.	system directed cycle count
Allow the user to determine which location, work pool, or zone to count.	cycle count grouping
Allow the user to determine which location to count and when to count the location.	user-directed cycle count
Perform an on-demand count.	spot count

NEW QUESTION # 355

A manufacturing company has implemented Dynamics 365 Supply Chain Management. The company relies on machinery and equipment for its operations. It has a diverse range of assets, including manufacturing equipment, vehicles, and tools.

The company wants to optimize its asset maintenance processes to minimize downtime and improve overall productivity. The company wants to implement both preventive and reactive maintenance strategies on the following scenarios:

- * Changing the tires and oil on the maintenance vehicle fleet.
- * Replacing a faulty component on a box maker.

You need to determine the functionality to use for each maintenance requirement.

Solution: Create maintenance plans for the vehicle fleet and the box maker.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION # 356

You need to configure the solution to replace the Excel spreadsheet.

Which feature should you use for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Feature										
Select the appropriate screen	<table border="1"> <tr><td></td><td>▼</td></tr> <tr><td>Supply schedule form</td><td></td></tr> <tr><td>Load Planning Workbench</td><td></td></tr> <tr><td>Planned orders form</td><td></td></tr> </table>		▼	Supply schedule form		Load Planning Workbench		Planned orders form			
	▼										
Supply schedule form											
Load Planning Workbench											
Planned orders form											
Configure the appropriate feature	<table border="1"> <tr><td></td><td>▼</td></tr> <tr><td>Period templates</td><td></td></tr> <tr><td>Coverage groups</td><td></td></tr> <tr><td>Mobile workspaces</td><td></td></tr> <tr><td>Planning optimization</td><td></td></tr> </table>		▼	Period templates		Coverage groups		Mobile workspaces		Planning optimization	
	▼										
Period templates											
Coverage groups											
Mobile workspaces											
Planning optimization											

Answer:

Explanation:

Requirement	Feature
