You don't need to sacrifice your job hours or travel to distant training institutes for exam preparation when you have Microsoft GH-100 Dumps for instant success. These GH-100 dumps questions with authentic answers are compiled by Microsoft professionals and follow the actual exam's questioning style.

Microsoft GitHub Administration Sample Questions (Q37-Q42):

NEW QUESTION # 37

Which feature is unique to self-hosted runners?

- A. Execute scripts before and after a job
- B. GPU support

- C. Automatic updates to the operating system
- D. Dynamic scaling

Answer: A

Explanation:

Self-hosted runners support custom pre- and post-job scripts via runner hooks, letting you run arbitrary scripts before a job starts and after it finishes - capabilities not available on GitHub-hosted runners.

NEW QUESTION # 38

An organization wants to share a single API key required for their Actions workflows. They need to restrict its use to only a subset of repositories. Where should they configure the secrets to minimize maintenance?

- **A. Organization secrets**
- B. Repository secrets
- C. Development environment secrets
- D. Environment secrets

Answer: A

Explanation:

By defining the API key as an organization secret, you centralize management and can grant access only to the subset of repositories you choose - eliminating per-repo duplication while enforcing the desired scope.

NEW QUESTION # 39

Which THREE of the following accurately describe how the SCIM protocol enhances user management in GitHub Enterprise Cloud? (Choose three.)

- A. SCIM generates authentication tokens for accessing GitHub's REST API.
- B. SCIM automatically deletes organization repositories when administrators are removed.
- C. SCIM configures repository permissions based on user roles within the organization.
- **D. SCIM deactivates GitHub accounts when users are deleted from the identity provider.**
- **E. SCIM synchronizes changes to user attributes from the identity provider to GitHub.**
- F. SCIM automates user provisioning when new users are added to the identity provider.

Answer: D,E

Explanation:

SCIM automatically updates a user's account on GitHub whenever their profile attributes change in the identity provider.

When a user is removed or deactivated in the IdP, SCIM deactivates (soft-deprovisions) their GitHub account and disables access.

SCIM provisions new GitHub Enterprise Cloud accounts automatically when users are added in the identity provider.

NEW QUESTION # 40

A GitHub Enterprise administrator is planning to implement SAML SSO across their company. Which of the following correctly distinguishes enterprise-wide SAML SSO from organization-level SAML SSO?

- A. Enterprise-wide SAML SSO requires less initial administrative overhead than organization-level implementation.
- **B. Enterprise-wide SAML SSO ensures users authenticate through the same IdP across all organizations.**
- C. Enterprise-wide SAML SSO immediately removes users who fail to authenticate via the IdP.
- D. Enterprise-wide SAML SSO allows different organizations to use different authentication methods.

Answer: B

Explanation:

Enterprise-wide SAML SSO enforces a single IdP across all member organizations-its configuration overrides any per-organization SAML settings, so everyone must authenticate through the same provider.

NEW QUESTION # 41

Which factor affects GitHub Actions pricing for GitHub-hosted runners on GitHub Enterprise Cloud?

- A. Total number of repositories using Actions
- B. Number of contributors to the repository Explanation: Incorrect. Contributor count does not impact billing for Actions
- C. Number of workflows defined in .github/workflows/
- **D. Operating system used in the runner environment**

Answer: D

Explanation:

GitHub Actions billing for GitHub-hosted runners is based on the number of minutes consumed and the operating system of the runner - Linux, Windows, and macOS each have different per-minute rates.

NEW QUESTION # 42

.....

What we provide for you is the latest and comprehensive GH-100 exam dumps, the safest purchase guarantee and the immediate update of GH-100 exam software. Free demo download can make you be rest assured to buy; one-year free update of GH-100 Exam software after payment can assure you during your preparation for the exam. What's more, what make you be rest assured most is that we develop the exam software which will help more candidates get GH-100 exam certification.

GH-100 Test Pattern: <https://www.realexamfree.com/GH-100-real-exam-dumps.html>

Our GH-100 guide torrent cover most questions and answers of real test and can help you pass exam certainly, With this purpose, our GH-100 learning materials simplify the questions and answers in easy-to-understand language so that each candidate can understand the test information and master it at the first time, and they can pass the test at their first attempt, Microsoft GH-100 Pass Rate With the aid of our exam materials, it can absolutely help you pass the exam.

A fair amount of legal confusion has existed ever since the judiciary Pass4sure GH-100 Study Materials began to view electronic records as intentional reduction to tangible form, Each type of site has its own characteristics.

GH-100 Exam Pass Rate & Authoritative GH-100 Test Pattern Pass Success

Our GH-100 guide torrent cover most questions and answers of real test and can help you pass exam certainly, With this purpose, our GH-100 Learning Materials simplify the questions and answers in easy-to-understand language so that each candidate GH-100 Test Pattern can understand the test information and master it at the first time, and they can pass the test at their first attempt.
