

SDLCSA Latest Practice Materials, SDLCSA Learning Mode

DOWNLOAD the newest Itexamguide SDLCSA PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1IC4IKzC2gUNS6E_-e5cRdkr37lIFcaoS

Our SDLCSA study guide design three different versions for all customers. These three different versions include PDF version, software version and online version, they can help customers solve any problems in use, meet all their needs. Although the three major versions of our SDLCSA exam dumps provide a demo of the same content for all customers, they will meet different unique requirements from a variety of users based on specific functionality. The most important feature of the online version of our SDLCSA Learning Materials are practicality. The online version is open to all electronic devices, which will allow your device to have common browser functionality so that you can open our products. At the same time, our online version of the SDLCSA study guide can also be implemented offline, which is a big advantage that many of the same educational products are not able to do on the market at present.

Professionals have designed this Supermicro SDLCSA exam dumps product for the ones who want to clear the SDLCSA test in a short time. Success in the Supermicro SDLCSA exam questions helps you get a good salary job in a reputed company. Itexamguide Supermicro SDLCSA Study Material is available in three formats. These formats have SDLCSA real dumps so that the applicants can memorize them and crack the SDLCSA certification test with a good score.

100% Pass Quiz High Hit-Rate SDLCSA - Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam Latest Practice Materials

If you want to prepare for your exam in a paper version, our SDLCSA test materials can do that for you. SDLCSA PDF version is printable and you can print them into hard one, and take some notes on them. In addition, we offer you free demo to have a try, so that you can have a better understanding of what you are going to buy. We are pass guarantee and money back guarantee for SDLCSA Exam Dumps, if you fail to pass the exam, we will give you full refund. Online and offline chat service are available, if you have any questions about SDLCSA exam materials, you can have a conversation with us, and we will give you reply soon as possible.

Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam Sample Questions (Q22-Q27):

NEW QUESTION # 22

What 2 add-on component(s) are located inside the side bracket of the SYS-421GE-TNHR2-LCC?

- A. GPU card and PCIe card
- B. AOC NIC card and PCIe card
- C. AOM-PCIe card and GPU card
- D. AOM-PCIe card and AOC NIC card

Answer: D

Explanation:

The side bracket in the SYS-421GE-TNHR2-LCC likely houses networking or management add-ons. The AOM-PCIe card (e.g., AOM-GP401-PCIE module) and AOC NIC card (network interface card) are common components in Supermicro's DLC systems, enhancing connectivity (e.g., high-speed NICs for AI workloads).

A (GPU/PCIe) mixes unrelated categories, C pairs an AOM with a GPU (less likely), and D (AOC/PCIe) lacks specificity. B aligns with Supermicro's DLC networking focus, making it correct.

References: Supermicro add-on card specs, DLC system networking components.

NEW QUESTION # 23

When reseating the PCIe tray, how do you know when the PCIe tray has been correctly inserted all the way back into the system?

- A. The front of the PCIe tray should be slightly sticking out of the system
- B. The levers on each side of the front of the PCIe tray that were in the up position should move down slightly
- C. The levers on each side of the front of the PCIe tray that were in the down position should move up all the way into the locked position automatically
- D. The levers on each side of the front of the PCIe tray that were in the down position should move up slightly

Answer: C

Explanation:

Reseating the PCIe tray in a Supermicro system like the SYS-421GE-TNHR2-LCC involves aligning it with the chassis and locking it in place. Per Supermicro's design (e.g., SYS-420GP-TNAR), the tray has levers that start in the down (unlocked) position during insertion. When fully seated, these levers automatically move up to the locked position, clicking into place to secure the tray and ensure proper connection to power and cooling (e.g., DLC manifolds). Option A (sticking out) indicates incomplete insertion, B (slightly up) is insufficient, and C (up to down) reverses the mechanism. D reflects Supermicro's DLC system precision, ensuring tray stability.

References: Supermicro PCIe tray installation guides, DLC component alignment standards.

NEW QUESTION # 24

Which card would you most likely connect to the AOM module (AOM-GP401-PCIE)?

- A. AOC NIC card
- B. AOM card
- C. Debit card
- D. Credit card

Answer: A

Explanation:

The AOM module (AOM-GP401-PCIE) in Supermicro systems is a PCIe-based add-on module, typically for expansion cards like NICs (Network Interface Cards). The AOC NIC card (Add-On Card, Network Interface Card) is the most likely connection, as Supermicro's AOM modules (e.g., in SYS-420 series) are designed to interface with AOC cards for networking in DLC systems. A (AOM card) is vague and not a standard term, while B and D (credit/debit cards) are irrelevant. Supermicro's DLC solutions integrate high-speed networking, making C the verified choice.

References: Supermicro AOM module specs, DLC system networking components.

NEW QUESTION # 25

What is the color of the PCIe tray's air shroud?

- A. Black
- B. White
- C. Clear
- D. Opaque

Answer: A

Explanation:

The air shroud in Supermicro systems, including those with Direct Liquid Cooling (DLC) solutions like the SYS-421GE-TNHR2-LCC, is typically designed to direct airflow (or in hybrid systems, assist with liquid cooling efficiency) and is made of plastic or composite materials. Based on Supermicro's standard design practices seen in technical documentation and product images (e.g., SYS-420GP-TNAR, a similar GPU server with DLC), the PCIe tray's air shroud is consistently black. This color aids in heat absorption and dissipation, aligning with Supermicro's focus on thermal efficiency in DLC systems, where cold plates and coolant distribution units (CDUs) manage heat directly at the chip level. White or clear shrouds are less common due to aesthetic and thermal considerations, and "opaque" is not a specific color designation. Thus, black is the correct choice, reflecting Supermicro's engineering standards for high-performance computing components.

References: Supermicro product images and manuals (e.g., SYS-420GP-TNAR User Manual), general DLC solution descriptions.

NEW QUESTION # 26

How do you know when the DIMM has been properly inserted back into the slot?

- A. You should still be able to wiggle the DIMM after you've pressed the DIMM down into the slot
- **B. You should hear a click after you've pressed the DIMM down into the slot**
- C. You shouldn't hear a click after you've pressed the DIMM down into the slot
- D. You should see a green lit button on the DIMM

Answer: B

Explanation:

When inserting a DIMM in Supermicro systems, proper seating is confirmed by a click as the slot latches snap into place, securing the module (e.g., SYS-420GP-TNAR manuals). This audible feedback is standard in DLC systems for reliable memory installation. B (green button) isn't a feature, C contradicts correct insertion, and D (wiggling) indicates failure. Supermicro's design ensures firm DIMM placement, making A the verified sign. References: Supermicro DIMM installation guides, DLC system component reliability.

NEW QUESTION # 27

.....

We recommend you use Supermicro SDLCSA practice material to prepare for your SDLCSA certification exam. Itexamguide provides the most accurate and real Supermicro SDLCSA Exam Questions. These Supermicro SDLCSA practice test questions will assist you in better preparing for the final Supermicro SDLCSA exam.

SDLCSA Learning Mode: https://www.itexamguide.com/SDLCSA_braindumps.html

We can promise that the SDLCSA study materials from our company will help you prepare for your exam well, Supermicro SDLCSA Latest Practice Materials I met very difficult questions and failed, Secondly, our workers have checked the Liquid Cooled Servers SDLCSA training materials for a lot of times, Supermicro SDLCSA Latest Practice Materials It is normal that everyone wants to pass exam, Supermicro SDLCSA Latest Practice Materials Once there is latest version released, our system will send it to your email immediately.

For example, the regex `aircraft|airplane|jet` Valuable SDLCSA Feedback will match any text that contains aircraft or airplane or jet, These steps show you one way, We can promise that the SDLCSA Study Materials from our company will help you prepare for your exam well.

Experience the Real Time Supermicro SDLCSA Exam Environment

I met very difficult questions and failed, Secondly, our workers have checked the Liquid Cooled Servers SDLCSA training materials for a lot of times, It is normal that everyone wants to pass exam.

Once there is latest version released, SDLCSA our system will send it to your email immediately.
