

Realistic Exam Dumps 300-640 Zip, 300-640 Valid Exam Vce Free

P.S. Free 2026 Cisco 300-640 dumps are available on Google Drive shared by Actual4dump: <https://drive.google.com/open?id=1I2oTp5cYRpZsbxQVz03nl4DBPaiGxvWU>

Even in a globalized market, the learning material of similar 300-640 doesn't have much of a share, nor does it have a high reputation or popularity. In this dynamic and competitive market, the 300-640 learning questions can be said to be leading and have absolute advantages. In order to facilitate the user real-time detection of the learning process, we 300-640 Exam Material provided by the questions and answers are all in the past. It is closely associated, as our experts in constantly update products every day to ensure the accuracy of the problem, so all 300-640 practice materials are high accuracy.

Annual test syllabus is essential to predicate the real 300-640 questions. So you must have a whole understanding of the test syllabus. After all, you do not know the 300-640 exam clearly. It must be difficult for you to prepare the 300-640 exam. Then our study materials can give you some guidance. All questions on our 300-640 study materials are strictly in accordance with the knowledge points on newest test syllabus. Also, our experts are capable of predicating the difficult knowledge parts of the 300-640 Exam according to the test syllabus. We have tried our best to simply the difficult questions. In order to help you memorize the 300-640 study materials better, we have detailed explanations of the difficult questions such as illustration, charts and referring website. Every year some knowledge is reoccurring over and over. You must ensure that you master them completely.

300-640 Valid Exam Vce Free | 300-640 Instant Access

If you are new to our website, you can ask any questions about our 300-640 study materials. Our workers are very familiar with our 300-640 learning braindumps. So you will receive satisfactory answers. What is more, our after sales service is free of charge. So our 300-640 Preparation exam really deserves your choice. Welcome to come to consult us. We are looking forward to your coming at any time.

Cisco Implementing Cisco Data Center AI Infrastructure Sample Questions (Q58-Q63):

NEW QUESTION # 58

A company deploys a Cisco UCS environment to host AI inferencing workloads that demand low latency, high throughput, and efficient resource utilization. Which set of actions must be taken to deploy a high-performance fabric within the Cisco UCS infrastructure?

- A. Implement a dual-fabric design with two Cisco Fabric Interconnects, and use 100 Gb Ethernet for server-to-fabric connectivity.
Configuring port channels for uplink connections.

- B. Deploy a Cisco MDS 9000 Series Switch for Fibre Channel connectivity to storage. Use a Cisco Fabric Interconnect for management traffic only.
- C. Use a single Cisco Fabric Interconnect in a standalone configuration. Connect all UCS servers directly to it using 10 Gb Ethernet.
- D. Connect UCS servers to a Cisco Nexus 3000 Series Switch using 100 Gb Ethernet. Configure a separate management network using a dedicated Cisco Catalyst switch.

Answer: A

Explanation:

A dual-fabric design with redundant Cisco Fabric Interconnects provides high availability, bandwidth scale, and resilient server-to-fabric connectivity. Using 100 Gb Ethernet and port-channel uplinks supports the low-latency, high-throughput fabric required for AI inferencing workloads while improving utilization and avoiding single points of failure.

NEW QUESTION # 59

A network team is configuring quality of service (QoS) for RoCEv2 traffic on a VXLAN fabric. The team must ensure that congestion notification packets (CNP) generated by storage targets are never dropped in the network, as these packets are critical for congestion control feedback. How must CNP packets be handled in the QoS configuration to ensure reliable delivery?

- A. Classify CNP packets to a high-priority queue using their DSCP marking.
- B. Apply traffic shaping to CNP packets to prevent them from causing additional congestion.
- C. Configure CNP packets to use the same queue as regular RoCEv2 data traffic.
- D. Enable Priority Flow Control specifically for CNP packets on a dedicated CoS value.

Answer: A

Explanation:

CNP packets provide congestion feedback for RoCEv2 traffic and must be delivered reliably so senders can reduce their transmission rate when congestion is detected. Classifying CNP packets into a high-priority queue based on their DSCP marking ensures that these control packets receive preferential treatment and are not dropped during congestion.

NEW QUESTION # 60

Which result is provided through image recognition using AI?

- A. detection and labeling of visual elements from digital sources
- B. anonymization of audit trails for compliance objectives
- C. routing of multicast messages across network boundaries
- D. scheduling of management tasks during maintenance periods

Answer: A

Explanation:

Image recognition uses AI to analyze digital images or video frames and identify, detect, classify, or label visual elements such as objects, people, patterns, or scenes.

NEW QUESTION # 61

An administrator configures VXLAN EVPN in a Cisco AI data center fabric. The requirement is to provide Layer 2 adjacency across multiple leaf switches while maintaining scalable control-plane learning. Which protocol fulfills this function?

- A. STP
- B. HSRP
- C. BGP EVPN
- D. OSPF

Answer: C

NEW QUESTION # 62

A global enterprise is deploying a new AI-driven analytics platform that requires high-performance GPU acceleration, large memory capacity, and robust virtualization support. The compute and GPU resources selected must provide direct GPU to GPU access leveraging NVLink technology.

Which set of products meets the requirements?

- A. UCS C240 M8 with NVIDIA L40 GPU
- B. UCS C845A M8 with AMD MI210 GPU
- **C. UCS C885A M8 with NVIDIA H200 GPU**
- D. UCS C220 M8 with NVIDIA A16 GPU

Answer: C

Explanation:

Cisco UCS C885A M8 with NVIDIA H200 GPUs is designed for high-performance AI workloads that require dense GPU acceleration, large memory capacity, and direct GPU-to-GPU communication through NVIDIA NVLink. This combination supports demanding analytics, training, and inference workloads where high-bandwidth GPU interconnect is required.

NEW QUESTION # 63

.....

If you fail in the exam, we will refund you in full immediately at one time. After you buy our Implementing Cisco Data Center AI Infrastructure exam torrent you have little possibility to fail in exam because our passing rate is very high. But if you are unfortunate to fail in the exam we will refund you immediately in full and the process is very simple. If only you provide the scanning copy of the 300-640 failure marks we will refund you immediately. If you have any doubts about the refund or there are any problems happening in the process of refund you can contact us by mails or contact our online customer service personnel and we will reply and solve your doubts or questions timely. We provide the best service and 300-640 Test Torrent to you to make you pass the exam fluently but if you fail in we will refund you in full and we won't let your money and time be wasted.
