Sharing-and-Visibility-Architect최신 업데이트버전 덤프 - Sharing-and-Visibility-Architect 100% 시험패스 덤프

Salesforce Sharing-and-Visibility-Architect 덤프는 고객님의Salesforce Sharing-and-Visibility-Architect시험패스요망에 제일 가까운 시험대비자료입니다. 많은 자료정리 필요없이 DumpTOP에서 제공해드리는 깔끔한Salesforce Sharing-and-

Visibility-Architect 덤프만 있으면 자격증을 절반 취득한 것과 같습니다. Salesforce Sharing-and-Visibility-Architect 덤프를 다운받아 열공하세요.

Salesforce 공유 및 가시성 아키텍트 인증은 준비와 경험이 필요한 어려운 시험입니다. 시험은 60개의 다지선형 문제로 구성되어 있으며 120분의 시간 제한이 있습니다. 시험에 통과하려면 후보자는 최소 65%의 점수를 얻어야 합니다. 시험은 공유 아키텍처, 데이터 모델링, 보안 및 규정 준수, 그리고 다른 시스템과의 통합 등 다양한 주제를 다룹니다.

Salesforce Sharing-and-Visibility-Architect는 Salesforce 플랫폼에서 제공하는 가장 고급스러우며 전문화된 인증 프로그램 중 하나입니다. 이 프로그램은 복잡한 공유 및 가시성 솔루션을 설계하고 구현하는 Salesforce 전문가들의 지식과 전문성을 검증하는 것을 목적으로 합니다. 이 인증 프로그램은 Salesforce 아키텍트 경험이 풍부하며 플랫폼의 공유 모델에 대한 이해도가 높아 실제 비즈니스 문제를 해결하는 데 사용할 수 있는 전문가를 대상으로 합니다.

최신 Salesforce Architect Sharing-and-Visibility-Architect 무료 샘플문제 (Q56-Q61):

질문 # 56

Which method should be used to grant access to an unrelated group of users?

- A. Role Hierarchy
- B. Public Groups
- C. Sharing Sets

정답: C

질문 # 57

Sales Operations at Universal Containers (UC) has created Public Report and Dashboard folders for sales managers that report to the VP of sales. Sales Operations currently spends a few hours each month updating users that should have access to edit items in these folders. In which two ways can UC grant access to sales managers to automate access to these Reports and Dashboards folders?

Choose 2 answers

- A. Share the folders lowest roles in the role hierarchy, Superiors will get access automatically.
- B. Share the folders with the "Sales Managers" Queue.
- C. Share the folders with a "Sales Managers" Public Group.
- D. Share the folders with the "VP of Sales" Role and Subordinates.

정답: D

질문 # 58

Universal Container is a global Telco that has recently implemented enterprise territory management to better align their sales teams and sales processes. They are in Q4 of the FY and they have completely revamped their territory structure and created a plan for a new structure that would support the new FY. Their current territory model has 8k territories. Their new model would be a new set of 8,5K territories, and their org limit is 10k. What enterprise territory management feature can US take advantage of in order to help them stay within their org limits?

- A. Territory Type
- B. Territory Hierarchy
- C. Territory type priority
- D. Territory Model State

정답: D

질문 # 59

Sales reps at Universal Containers (UC) complain about the manual activities they need to perform in order to grant access to supporting internal users (legal, engineering, finance, etc.) for customer records when they need help. In general, the sales reps involved in the deals will not change.

How should an architect help UC improve sales reps' productivity?

- A. Create a permission set with View All Data and assign to supporting users.
- **B. Leverage default Account team.**
- C. Create a criteria based sharing rule to grant access to other users.

정답: B

설명:

Default Account Teams allow users to predefine a set of supporting internal users (e.g., legal, engineering, finance) who need access to customer records. The team members are automatically granted the specified access whenever an Account is created or updated, reducing the manual effort required by sales reps.

* Option A: A criteria-based sharing rule might grant access to a larger group but does not provide the flexibility and precision of Account Teams.

* Option C: Assigning View All Data via a permission set gives overly broad access and violates the principle of least privilege.

Account Teams Overview

질문 # 60

Universal Containers uses the standard Case object to track various support requests sent to servicing agents.

Currently, the Case object has more than 400 fields. Eight different types of case processes have been established, each with a unique combination of statuses. The Director of Customer Service wants to ensure that servicing agents see only the required information specific to the case type they are addressing.

Which option is recommended to implement this requirement?

- A. Use a custom LWC to override the View action of the Case object, and a Custom Metadata Type to define the relevant fields per case type.
- B. Use different Page Layouts per case type, each representing the relevant fields per case type.
- **C. Use Dynamic Forms with different field sections representing the relevant fields per case type, and control visibility of sections by Case Record Type value.**

정답: C

설명:

Dynamic Forms allow administrators to create page layouts with field visibility controlled at the section level based on record-specific criteria, such as the Case Record Type. This approach ensures servicing agents only see fields relevant to the specific case type, enhancing usability and performance.

* Option A (Correct): Dynamic Forms provide flexibility and scalability for managing field visibility dynamically without duplicating layouts.

* Option B: Using different Page Layouts is less efficient because managing and maintaining a separate layout for each case type is cumbersome with 400 fields and eight processes.

* Option C: A custom LWC adds complexity and development overhead, making it a less optimal solution for this scenario.
