UiPath UiAAAv1 Dumps For Quick Exam Preparation 2026

Actual4test promise that we will spare no effort to help you pass UiPath certification UiAAAv1 exam. Now you can free download part of practice questions and answers of UiPath certification UiAAAv1 exam on Actual4test. When you select Actual4test, you can not only pass UiPath Certification UiAAAv1 Exam, but also have one year free update service. Actual4test can also promise if you fail to pass the exam, Actual4test will 100% refund.

UiPath Agentic Automation Associate Sample Questions (Q22-Q27):

NEW QUESTION # 22
Scenario: A Citrix Administrator needs to create local user accounts for other administrators with limited privileges. The other

administrators will need only:
- Read-only access
- The ability to enable and disable services and servers
Which built-in Command Policy permission level can the administrator use?

- A. Operator
- B. Read-Only
- C. Network
- D. Sysadmin

Answer: A

NEW QUESTION # 23
Scenario: A Citrix Administrator maintains a Citrix Virtual Apps and Desktops Site with a number of network print servers being used for all users. Currently, the print servers use native Windows drivers. No client printers are being used. New company guidelines require a reduction in the number of native drivers being used within the Site infrastructure. Which step can the administrator take to meet the new company guidelines?

- A. Install the Universal Print Server on all print servers in the Site and leave the default Universal printer driver usage policy setting.
- B. Configure the Citrix Universal Generic Printer and update the Auto-create generic universal printer policy setting.
- C. Enable the Citrix Universal Print Driver (EMF) driver and leave the default Universal printer driver usage policy setting.
- D. Install the Universal Print Server on all print servers in the Site and update the Universal printer driver usage policy setting.

Answer: D

Explanation:
By installing the Citrix Universal Print Server and configuring the Universal printer driver usage policy, print servers can use the Citrix Universal Print Driver instead of multiple native Windows drivers. This reduces the number of drivers in the environment while ensuring centralized network printing remains functional.

NEW QUESTION # 24
What are three valid ways to configure Virtual Delivery Agent (VDA) registration? (Choose three.)

- A. Organizational Unit (OU) based Controller discovery
- B. Group Policy Object (GPO)
- C. CONFIG.XML file
- D. DHCP Options
- E. MCS-based PERSONALITY.INI

Answer: B,C,D

Explanation:
DHCP Options can be used to provide Delivery Controller addresses dynamically.
CONFIG.XML file (created during VDA installation) can contain Controller information for registration.
Group Policy Object (GPO) can centrally define and manage Controller discovery settings.

NEW QUESTION # 25
Scenario: A Citrix Administrator configures the 'Auto connect client drives' user settings to map client drives within the HDX session for all published desktops. The setting is configured in a Baseline Group Policy Object (GPO) and linked to an Organizational Unit (OU) that contains all of the published desktops. When a user launches the desktop, client drives are NOT mapped. What is a possible reason?

- A. The GPO needs to be linked to the User OU.
- B. gpupdate /force needs to be executed on all of the machines.
- C. Loopback processing is NOT enabled.
- D. Desktops need to be restarted for the policy to be applied.

Answer: C

Explanation:
User settings in a GPO linked to a machine OU only apply if loopback processing is enabled.
Since the "Auto connect client drives" setting is a user policy but applied at the desktop OU level, loopback processing must be enabled for the policy to take effect within the HDX sessions.

NEW QUESTION # 26
A Citrix Administrator is concerned about the TCP overhead associated with Citrix HDX connections. There are concerns about latency and TCP overhead associated with setting up a connection to Virtual Delivery Agent (VDA) resources. What technology should be deployed to move connections to UDP and improve the quality of the user experience?

- A. Microsoft Teams Optimization
- B. Citrix Optimizer
- C. HDX Adaptive Transport
- D. Browser Content Redirection

Answer: C

Explanation:
HDX Adaptive Transport uses Citrix's Enlightened Data Transport (EDT) protocol, which runs over UDP instead of TCP. This reduces latency, minimizes TCP overhead, and improves the quality and responsiveness of HDX sessions, especially in high-latency or lossy network conditions.

NEW QUESTION # 27
......

You only need 20-30 hours to practice our software and then you can attend the exam. You needn't spend too much time to learn our UiAAAv1 study questions and you only need spare several hours to learn our UiAAAv1 guide torrent each day. Our UiAAAv1 study questions are efficient and can guarantee that you can pass the UiAAAv1 exam easily. But if you buy our UiAAAv1 exam torrent you can save your time and energy and spare time to do other things.
