Salesforce Health Cloud Accredited Professional certification is an industry-recognized certification that verifies a professional's expertise in using the Health Cloud platform. It is an ideal certification for healthcare professionals and Salesforce administrators who want to demonstrate their expertise in managing patient data, improving care coordination, and streamlining workflows. With this certification, professionals can stand out in the job market, earn higher salaries, and make a positive impact on patient outcomes.

Salesforce Health-Cloud-Accredited-Professional Exam consists of multiple-choice questions that assess a candidate's knowledge of the Health Cloud platform. Health-Cloud-Accredited-Professional Exam covers various topics such as patient management, care coordination, patient engagement, and analytics. Health-Cloud-Accredited-Professional exam is intended for professionals who work with the Health Cloud platform, including healthcare providers, administrators, and consultants. Salesforce Health Cloud Accredited Professional certification is an excellent way for professionals to showcase their expertise and differentiate themselves in a competitive job market.

Salesforce Health Cloud Accredited Professional Sample Questions (Q71-Q76):

NEW QUESTION # 71

Which two actions should be completed by health cloud admin in order to leverage the health cloud utilization management capabilities?

- A. Assign the health cloud social determinants permission set
- B. Assign the health cloud foundation permission set
- C. **Install the health cloud managed package**
- D. Install the health cloud unmanaged package extension
- E. **Install the healthcloud care request extensions managed package.**

Answer: C,E

Explanation:

Explanation

Reference and details below.

Prepare to Set Up Utilization Management

Before you get started, **install** and **configure** Health Cloud.

Install the Health Cloud Care Request Extensions unmanaged package.

Assign the Health Cloud Permission Set License and the Health Cloud Platform permission set license to yourself and your users.

NEW QUESTION # 72

A HC admin is configuring a 'Convert to Patient' process, utilizing the Lead to Individual Conversion Apex class. Which statements are true about the steps the admin can take?(choose 3)

- A. **Duplicate checks on Medical Record Number,Source System and Source System ID can be handled automatically by HC**
- B. The Lead to Individual Conversion apex class will create a new Opportunity for the patient.
- C. **Some Lead field mappings including Medical Record Number,Source SystemID can be handled automatically by HC.**
- D. **The admin must configure all Lead field mappings including Medical Record Number,Source System and Source System ID.**
- E. The custom Convert to Patient button should be added to the Lead list view.

Answer: A,C,D

Explanation:

The admin must configure all Lead field mappings including Medical Record Number, Source System and Source System ID (A), some Lead field mappings including Medical Record Number, Source System ID can be handled automatically by HC , and duplicate checks on Medical Record Number, Source System and Source System ID can be handled automatically by HC (E) are true statements about the steps the admin can take. The custom Convert to Patient button should be added to the Lead detail page, not the list view (B). The Lead to Individual Conversion apex class will not create a new Opportunity for the patient (D).

NEW QUESTION # 73

Which 3 of the components are customizable in HC?

- A. Custom Label
- B. Timeline
- C. EHR Data
- D. Patient Card
- E. Life Events

Answer: A,B,D

NEW QUESTION # 74

An administrator at Bloomington Caregivers has received a change request to alter the appearance of the timeline so that it displays vertically instead of horizontally.

Which step should the administrator take when implementing this change request?

- A. Enable Timeline in Salesforce Setup, then configure and activate new timeline and add to the relevant Lightning record.
- B. Find the Timeline Orientation setting in Custom Metadata, which controls the orientation of all timelines, and change the value to vertical.
- C. Find the Timeline View Configuration for each relevant timeline in the Health Cloud - Lightning Admin app and change the orientation to vertical.
- D. Enable Timeline in Salesforce Setup, then set the toggle for vertical orientation to true to set all timeline orientations as vertical.

Answer: C

Explanation:

To modify the timeline orientation in Health Cloud, administrators can adjust the Timeline View Configuration to display the timeline vertically.

Steps:

Access Timeline View Configuration:

Open the Health Cloud - Lightning Admin app in Salesforce.

Locate Timeline View Configuration records.

Edit the Configuration:

Select the relevant configuration for the timeline you wish to update.

Change the orientation setting to Vertical.

Save and activate the updated configuration.

Verify the Changes:

Check the timeline in the respective Lightning record pages to ensure the vertical layout is applied.

Why Other Options Are Incorrect:

A . Enable Timeline in Salesforce Setup: Timelines are already enabled in Health Cloud, and appearance changes are handled at the configuration level.

B . Toggle in Setup: There is no global toggle for orientation in Salesforce Setup.

D . Custom Metadata: Timeline orientation is not controlled by custom metadata; it's managed through view configurations.
