Our AgilePM-Foundation Certification material is closely linked with the test and the popular trend among the industries and provides all the information about the test. The answers and questions seize the vital points and are verified by the industry experts. Diversified functions can help you get an all-around preparation for the test. Our online customer service replies the clients' questions about our AgilePM-Foundation certification material at any time.

## APMG-International Agile Project Management (AgilePM) Foundation Exam Sample Questions (Q13-Q18):

### NEW QUESTION # 13

Which purpose relates to the Consolidation in a structured Timebox?

- A. To formally accept the structured Timebox deliverables.

- B. To tie up any loose ends related to Evolutionary Development
- C. To address the requirements and test the structure Timebox product.
- D. To confirm the detail of all the requirements to be delivered by the structured Timebox.

**Answer: D**

#### NEW QUESTION # 14

How is Quality ensured during Evolutionary Development?

- A. By managing objectives in a fixed time period
- B. By facilitating session to enable a group to work to achieve an agreed goal
- C. By continuous verification
- D. By understanding and managing priorities

**Answer: C**

Explanation:

Quality during Evolutionary Development is ensured by continuous verification<sup>2</sup>. This involves iterative development, where all development processes, including testing, are repeated to ensure the output is complete and able to generate useful feedback<sup>2</sup>.

#### NEW QUESTION # 15

What role is responsible for interpreting the needs of the Business Sponsor and communicating these to the team?

- A. Business Visionary
- B. Team Leader
- C. Technical Coordinator
- D. Business Analyst

**Answer: A**

Explanation:

The Business Visionary is responsible for interpreting the needs of the Business Sponsor and communicating these to the team<sup>1</sup>. This role represents the Business Sponsor by communicating the vision of the project and ensuring that the team understands the sponsor's requirements<sup>1</sup>.

#### NEW QUESTION # 16

Which of the following statements about an agile approach to projects is true?

Deploying the Solution incrementally throughout the project to validate the solution.

Early release of Solution Increments helps test assumptions about value.

- A. Only 1 is true
- B. Neither 1 or 2 is true
- C. Both 1 and 2 are true
- D. Only 2 is true

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation (verified, paraphrased from AgilePM principles):

AgilePM promotes incremental and iterative delivery, aiming to deploy usable increments early and often. Regular deployment and demonstration validate fitness for purpose, expose risks sooner, and provide empirical feedback for planning. Early release of increments also tests assumptions about value with real users and stakeholders, informing prioritization (e.g., MoSCoW) and shaping subsequent increments. This approach supports continuous learning, sharper benefits focus, and stronger financial governance, because funding and scope decisions can be based on evidence from working solution slices rather than predictions. Hence, both statements accurately reflect agile project delivery.

## NEW QUESTION # 17

Which technique allows for testing the achievability of objectives?

- A. MoSCoW
- B. Modeling
- C. Facilitated Workshop
- **D. Timeboxing**

**Answer: D**

Explanation:

Timeboxing is the technique that allows for testing the achievability of objectives. This approach involves setting a fixed period (the Timebox) during which specific tasks or objectives must be completed. By focusing on what can be achieved within the set time frame, Timeboxing helps teams test and validate whether their objectives are realistic and attainable. This iterative approach ensures continuous assessment and adaptation, promoting efficient project management.
