2026 Latest SurePassExams CWSP-208 PDF Dumps and CWSP-208 Exam Engine Free Share: <https://drive.google.com/open?id=1NEe5kvQlegPahfUaGI6hwvF2KXYvuhz6>

The pass rate for CWSP-208 study guide materials is 99%, and if you choose us, we can ensure you that you will pass the exam successfully. You can also enjoy free update for one year if you buy CWSP-208 study materials from us, and the update version will be sent to your email automatically, therefore in the following year, you can get the free update version without spending money. Besides, our technicians will check the website constantly to ensure you have a good online shopping environment while buying CWSP-208 Exam Dumps from us.

As you know, opportunities are reserved for those who are prepared. Everyone wants to stand out in such a competitive environment, but they don't know how to act. Maybe our Certified Wireless Security Professional (CWSP) exam questions can help you. Having a certificate may be something you have always dreamed of, because it can prove that you have a certain capacity. Our learning materials can provide you with meticulous help and help you get your certificate. Our CWSP-208 training prep is credible and their quality can stand the test. Therefore, our practice materials can help you get a great financial return in the future and you will have a good quality of life.

## Certified Wireless Security Professional (CWSP) Exam Dumps

So we can say that the Certified Wireless Security Professional (CWSP) (CWSP-208) practice test questions are real, valid, and updated and these will greatly help you in CWSP-208 exam preparation. The availability of Certified Wireless Security Professional (CWSP) (CWSP-208) exam questions in three different formats, free demo download facility, affordable price, free three months updated CWSP-208 Exam Questions download facility, and verified and real Certified Wireless Security Professional (CWSP) (CWSP-208) exam questions are the top features of SurePassExams CWSP-208 exam questions.

### CWNP Certified Wireless Security Professional (CWSP) Sample Questions (Q14-Q19):

#### NEW QUESTION # 14

Given: An 802.1X/EAP implementation includes an Active Directory domain controller running Windows Server 2012 and an AP from a major vendor. A Linux server is running RADIUS and it queries the domain controller for user credentials. A Windows client is accessing the network.

What device functions as the EAP Supplicant?

- A. Windows server
- B. Access point
- C. An unlisted WLAN controller
- D. Linux server
- E. Windows client
- F. An unlisted switch

**Answer: E**

Explanation:

In an 802.1X/EAP authentication model:

Supplicant: The device requesting access (the Windows client).

Authenticator: The AP or switch enforcing access decisions.

Authentication Server: The RADIUS server (Linux in this case), which communicates with a backend credential database (Active Directory).

The Windows client runs the EAP supplicant software to initiate authentication.

Incorrect:

A). The Linux server is the Authentication Server (not Supplicant).

C). The AP acts as the Authenticator.

D). The Windows Server is the credential store, not the supplicant.

#### NEW QUESTION # 15

Given: You view a protocol analyzer capture decode with the following protocol frames listed in the following order (excluding the ACK frames):

- 1) 802.11 Probe Request and 802.11 Probe Response
- 2) 802.11 Auth and another 802.11 Auth
- 2) 802.11 Assoc Req and 802.11 Assoc Rsp
- 4) EAPOL-Start
- 5) EAP Request and EAP Response
- 6) EAP Request and EAP Response
- 7) EAP Request and EAP Response
- 8) EAP Request and EAP Response
- 9) EAP Request and EAP Response
- 10) EAP Success
- 19) EAPOL-Key (4 frames in a row)

What are you seeing in the capture file? (Choose 4)

- A. 802.1X with Dynamic WEP
- B. WPA2-Enterprise authentication

- C. Wi-Fi Protected Setup with PIN
- D. WPA2-Personal authentication
- E. Active Scanning
- F. 4-Way Handshake
- G. 802.11 Open System authentication

**Answer: B,E,F,G**

Explanation:

A). WPA2-Enterprise authentication: The multiple EAP Request/Response exchanges followed by an EAP Success and a 4-Way Handshake (EAPOL-Key frames) indicate 802.1X authentication, characteristic of WPA2-Enterprise.

C). 802.11 Open System authentication: Two Auth frames (request and response) without encryption negotiation signify Open System Authentication - a default in RSN setups.

F). Active Scanning: Begins with Probe Request and Probe Response - part of an active scan process.

G). 4-Way Handshake: Identified by four sequential EAPOL-Key frames, completing the authentication process in WPA2.

### NEW QUESTION # 16

What TKIP feature was introduced to counter the weak integrity check algorithm used in WEP?

- A. RC5 stream cipher
- B. Michael
- C. Block cipher support
- D. 32-bit ICV (CRC-32)
- E. Sequence counters

**Answer: B**

Explanation:

TKIP (used with WPA) introduced "Michael" as a message integrity check (MIC) algorithm to replace the insecure CRC-32 used in WEP. Michael:

Adds tamper protection to each packet.

Helps detect packet forgery.

Incorrect:

A). CRC-32 was used in WEP and proven weak.

B). Sequence counters help prevent replay attacks, not integrity checking.

C). RC5 is not used in WLAN security.

E). TKIP does not support block ciphers-it uses RC4, a stream cipher.

CWSP-208 Study Guide, Chapter 3 (TKIP Security Features)

### NEW QUESTION # 17

What is the purpose of the Pairwise Transient Key (PTK) in IEEE 802.11 Authentication and Key Management?

- A. The PTK is used to encrypt the Pairwise Master Key (PMK) for distribution to the 802.1X Authenticator prior to the 4-Way Handshake.
- B. The PTK is XOR'd with the PSK on the Authentication Server to create the AAA key.
- C. The PTK contains keys that are used to encrypt unicast data frames that traverse the wireless medium.
- D. The PTK is a type of master key used as an input to the GMK, which is used for encrypting multicast data frames.

**Answer: C**

Explanation:

The Pairwise Transient Key (PTK) is derived during the 4-Way Handshake and is used to generate:

The EAPOL-Key Confirmation Key (KCK)

The EAPOL-Key Encryption Key (KEK)

The Temporal Key (TK), which encrypts unicast traffic

Incorrect:

- A). The Group Master Key (GMK) is used to derive the GTK, not the PTK.
- C). PTK is not XOR'd with the PSK-PTK is derived from PMK + other session parameters.
- D). PMK is never encrypted or transmitted; it is pre-shared or derived and remains local.

IEEE 802.11i-2004 Specification

### NEW QUESTION # 18

You are implementing an 802.11ac WLAN and a WIPS at the same time. You must choose between integrated and overlay WIPS solutions. Which of the following statements is true regarding integrated WIPS solutions?

- **A. Many integrated WIPS solutions that detect Voice over Wi-Fi traffic will cease scanning altogether to accommodate the latency sensitive client traffic.**
- B. Integrated WIPS use special sensors installed alongside the APs to scan for threats.
- C. Integrated WIPS is always more expensive than overlay WIPS.
- D. Integrated WIPS always perform better from a client throughput perspective because the same radio that performs the threat scanning also services the clients.

**Answer: A**

Explanation:

In integrated WIPS systems, radios are shared between client servicing and security scanning. To maintain quality of service for latency-sensitive applications such as VoWiFi (Voice over Wi-Fi), scanning operations may be temporarily suspended or deprioritized, potentially reducing security monitoring during those periods.

### NEW QUESTION # 19

.....

Our company has dedicated ourselves to develop the CWSP-208 study materials for all candidates to pass the exam easier, also has made great achievement after more than ten years' development. As the certification has been of great value, a right CWSP-208 study material can be your strong forward momentum to help you pass the exam like a hot knife through butter. On the contrary, it might be time-consuming and tired to prepare for the CWSP-208 Exam without a specialist study material. So it's would be the best decision to choose our CWSP-208 study materials as your learning partner.
