DSCI Certified Privacy Lead Assessor DCPLA certification Sample Questions (Q19-Q24):

NEW QUESTION # 19

Can a DSCI Certified Lead Assessor for Privacy, not currently an employee of a DSCI Accredited Organization, conduct external assessment leading to DSCI Privacy certification?

- **A. True**
- B. False

Answer: A

NEW QUESTION # 20

Which of the following statement is incorrect?

- A. Privacy policy may be derived from outcomes of privacy impact assessment
- B. None of the Above
- **C. A privacy policy once framed cannot be changed before the specified review period**
- D. Misuse of personal information available in public domain may be construed as a privacy violation

Answer: C

Explanation:

Privacy policies are living documents that reflect how organizations manage personal information. While regular review cycles (e.g., annually) are recommended, nothing restricts updates outside of that cycle when significant changes in processing activities, legal obligations, or identified risks occur.

Therefore, Statement C is incorrect - a privacy policy can and should be updated before the scheduled review if warranted.

NEW QUESTION # 21

The assessor organization can issue the DSCI certification to the assessee organization if it is satisfied with the assessment outcome.

- **A. True**

Categorize the following statement:

"The network is unable to restrict unwanted external connections carrying sensitive information."

- **A. Capability**
- B. Enforcement
- C. Demonstration

- D. Visibility

Answer: A

Explanation:

The issue presented refers to a lack of technical ability or insufficient infrastructure to prevent data leakage, which is indicative of a "Capability Problem." In DSCI terminology:

- * Visibility = Lack of knowledge of data or process

- * Demonstration = Lack of evidence of implementation

This situation clearly reflects an inability (capability gap) to restrict external data transfers effectively.
