

# Exam SAFe-SPC Answers & New SAFe-SPC Test Format

## Agile Safe 5.1 SPC Test-with 100% verified answers-2022

According to SAFe Principle #10, what should the Enterprise do when markets and customers demand change?

- 1) Reorganize the network around the new value flow
- 2) Create a reliable decision-making framework to empower employees and ensure a fast flow of value
- 3) Apply development cadence and synchronization to operate effectively and manage uncertainty
- 4) Create an Agile Release Train to focus on value

Why do Business Owners assign business value to team PI Objectives?

- 1) To ensure the teams do not work on architectural Enablers
- 2) To override the decisions made in WSJF prioritization
- 3) To determine the highest value using WSJF
- 4) To provide guidance on the business value of the team objectives

When should new approaches be anchored in an organization's culture?

- 1) Culture change comes last as a result of changing work habits

Which SAFe Principle includes working with purpose, mission, and minimum constraints?

- 1) Build projects around motivated individuals
- 2) Unlock the intrinsic motivation of knowledge workers
- 3) Organize around value
- 4) Base Milestones on an objective evaluation of working systems

What is one way Lean-Agile leaders lead by example?

- 1) By using the SAFe Implementation Roadmap to script the way for change
- 2) By modeling SAFe's Lean-Agile Mindset, values, principles, and practices
- 3) By mastering the Seven Core Competencies of the Lean Enterprise
- 4) By applying empathic design and focusing on Customer Centricity

Topic 7	<ul style="list-style-type: none"> <li>Leading the Change: This section of the exam measures skills of the Change Leader and focuses on guiding transformation. It reviews how to lead by example, how to lead organizational change, and how to apply the SAFe implementation roadmap. Lesson 6 provides a simple view of the leadership behaviors needed to support enterprise level change.</li> </ul>

## Scaled Agile SAFe Practice Consultant SPC (6.0) Sample Questions (Q95-Q100):

### NEW QUESTION # 95

(Select 3) Based on the work of Don Reinertsen, SAFe denotes five primary economic factors that can be used to consider the economic perspective of a particular investment. From the list below, choose three of those primary economic factors.

- A. Return on Investment (ROI)
- B. Value stream budget
- C. Development expense
- D. Lead time
- E. Risk

**Answer: A,C,D**

Explanation:

SAFe adopts the five primary economic factors from Don Reinertsen's "The Principles of Product Development Flow." These are:  
Development expense,  
Lead time,  
Product cost,  
Value,  
Risk.

From the options given:

A). Lead time is correct (one of the primary factors).

C). Return on Investment (ROI) is a direct measurement of value, so this aligns with "Value." E). Development expense is correct. "Value stream budget" is not one of the original economic factors. "Risk" is a primary factor, so if you need only three, the best answers are A, C, and E.

### NEW QUESTION # 96

(Select 2) What applies to the Portfolio Backlog?

- A. The Portfolio Kanban holds Capabilities that are ready for implementation.
- B. WSJF is used to prioritize Epics in the Portfolio Backlog.
- C. Programs plan PIs so that they exhaust the Portfolio Backlog and only then work on their local priorities.
- D. It provides a low-cost holding area for approved Business and Enabler Epics.

**Answer: B,D**

Explanation:

C: The Portfolio Backlog is used as a low-cost holding area for approved Business and Enabler Epics until they are ready for implementation, avoiding premature commitment of resources.

D: Weighted Shortest Job First (WSJF) is the recommended method for prioritizing Epics in the Portfolio Backlog, balancing the cost of delay and job size to deliver maximum value.

Option A is incorrect because the Portfolio Kanban holds Epics, not Capabilities (which are managed at the Solution/ART level).

Option B is incorrect because programs do not wait to exhaust the Portfolio Backlog before working on local priorities; local priorities are managed at the ART level.

SPC 6.0 Guide: "Epics are held in the Portfolio Backlog and prioritized using WSJF."

### NEW QUESTION # 97

Which of the following is a responsibility of a Lean-Agile Center of Excellence (LACE)?

- A. To implement a new organizational structure
- B. To coordinate Portfolio events
- C. To help foster relentless improvement
- D. To select the Agile Team Product Owners

**Answer: C**

Explanation:

A Lean-Agile Center of Excellence (LACE) is responsible for fostering relentless improvement across the enterprise. This includes driving the adoption of Lean-Agile practices, sustaining the SAFe implementation, and ensuring the organization continually improves its way of working.

### NEW QUESTION # 98

You are invited to help an Agile Release Train that has struggled through multiple PIs. They just finished the second Iteration in the current PI and have nothing to demonstrate at the System Demo. Program stakeholders are really concerned.  
What would you do?

- A. Re-architect the system so that there are no dependencies between the teams and integration is not needed.
- **B. Stop working on any new functionality and fully integrate and test the system; adjust scope based on learnings.**
- C. Have every team demonstrate their team increment to the stakeholders separately in the team branch.
- D. Find a vendor that specializes in integrating system increments from multiple teams.
- E. Re-plan the current PI: De-scope to leave enough time to integrate what you've built during the IP Iteration.

**Answer: B**

### NEW QUESTION # 99

(Select 2) Why is Architectural Runway important?

- **A. It supports a stable velocity.**
- B. It provides the documentation on which Features and Capabilities are built.
- **C. It iteratively evolves the architecture to meet changing needs.**
- D. It allows for nontechnical changes

**Answer: A,C**
