NEW QUESTION # 41

Your company has a Microsoft Teams deployment.

You need to configure meetings to meet the following requirements:

- * The company logo must be added to meeting invites.
- * Users must be prevented from selecting the webinar meeting template when creating a new meeting from the Teams client.

What should you configure to meet each requirement? To answer, drag the appropriate options to the correct requirements. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 42

Your company has a Microsoft Teams Phone deployment that uses Direct Routing and a single carrier.

You deploy a new Session Border Controller (SBC) that shows as healthy in the Microsoft Teams admin center.

You place a test call over the new SBC, and the call succeeds.

When you attempt to transfer the call, the transfer fails. A portion of the SIP ladder is shown in the exhibit. (Click the Exhibit tab.)

What is a possible cause of the issue?

- A. The SSL certificate of the SBC is incorrect.
- B. notify is enabled in the SIP options of the SBC.
- C. The carrier rejects the format of the forwarded FROM number.
- **D. The Refer on the SBC is misconfigured.**

Answer: D

Explanation:
