Exam 2V0-32.24 Collection Pdf & 2V0-32.24 Reliable Test Tips

The VMware 2V0-32.24 web-based practice exam software can be easily accessed through browsers like Safari, Google Chrome, and Firefox. The customers do not need to download or install excessive software or applications to take the VMware Cloud Operations 8.x Professional V2 (2V0-32.24) web-based practice exam. The 2V0-32.24 web-based practice exam software format can be accessed through any operating system like Windows or Mac.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.

Topic 2	<ul style="list-style-type: none"> VMware Products and Solutions: This section of the exam measures the skills of Cloud Engineers and covers the components, integrations, and use cases for various VMware Cloud Management solutions. It includes tools like vRealize True Visibility Suite, Skyline, Federated Analytics, vRealize AI Cloud, and Log Insight Cloud. Candidates also explore deployment tools such as Remote Collectors and Cloud Proxies to understand their role in scalable cloud operations.
Topic 3	<ul style="list-style-type: none"> Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.
Topic 4	<ul style="list-style-type: none"> Planning and Designing: This section of the exam measures the skills of Cloud Architects and covers the architectural models and sizing requirements for vRealize Operations and vRealize Log Insight. It evaluates the ability to choose between standalone, clustered, and high-availability setups, and to plan appropriately based on scenario-based requirements for capacity and deployment type, ensuring well-designed cloud solutions.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q50-Q55):

NEW QUESTION # 50

An administrator has added Microsoft Azure as a data source in vRealize Operations. Which is the minimal time interval that is supported for data collection?

- A. 5 minutes
- B. 1 minute
- C. 10 minutes
- D. 30 minutes

Answer: D

Explanation:

When Microsoft Azure is added as a data source in vRealize Operations, the minimal supported time interval for data collection is 30 minutes. This is the smallest interval at which data can be retrieved from Azure, ensuring that performance and resource utilization data is gathered at regular intervals for monitoring and analysis.

NEW QUESTION # 51

An Administrator needs to create a new alert in vRealize Log Insight that will send email notifications to a distribution list based on the defined query.

Drag and drop the five actions the administrator must complete in order to create the alert from the action list on the left and place the actions into the correct sequence on the right. (Choose five.)

Action List	Sequential Order [®]
Select the button called Create Alert from Query.	1
Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.	2
Run the query for which the notification should be send.	3
Switch to Interactive Analytics in vRealize Log Insight.	4
Specify the alert details including a name.	5

Answer:

Explanation:

Action List

0	Select the button called Create Alert from Query.
0	Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.
0	Run the query for which the notification should be send.
0	Switch to Interactive Analytics in vRealize Log Insight.
0	Specify the alert details including a name.

Action List

	Select the button called Create Alert from Query.
	Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.
	Run the query for which the notification should be send.
	Switch to Interactive Analytics in vRealize Log Insight.
	Specify the alert details including a name.

Sequential Order

1	Switch to Interactive Analytics in vRealize Log Insight.
2	Run the query for which the notification should be send.
3	Select the button called Create Alert from Query.
4	Specify the alert details including a name.
5	Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.

Sequential Order

1	Switch to Interactive Analytics in vRealize Log Insight.
2	Run the query for which the notification should be send.
3	Select the button called Create Alert from Query.
4	Specify the alert details including a name.
5	Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.

NEW QUESTION # 52

An administrator needs to change the password for the admin user account on vRealize Operations.

Which two methods can the administrator use to complete this task? (Choose two.)

- A. Log in to the Primary node via SSH and use the appropriate command to reset the admin user account password
- B. Log in to each node via SSH and use the appropriate script to reset the admin user account password
- C. Log in to the vRealize Operations admin UI as the admin user, take the cluster offline and use the change password functionality
- D. Log in to the vRealize Operations admin UI as the admin user and use the change password functionality
- E. Log in to vRealize Suite Lifecycle Manager and use the rotate password functionality

Answer: A,B

Explanation:

To change the password for the admin user account in vRealize Operations, these methods can be used:

Log in to the Primary node via SSH and use the appropriate command to reset the admin user account password: This method allows the administrator to directly reset the admin password on the primary node via SSH using command-line utilities specific to vRealize Operations.

vmware®

examdiscuss.com

Log in to each node via SSH and use the appropriate script to reset the admin user account password: In a multi-node environment, the password reset might need to be performed on each node using a script to ensure that the new password is applied across all nodes in the cluster.

NEW QUESTION # 53

An administrator has configured vRealize Lifecycle Manager to manage content between two vRealize Operations instances. The administrator is encountering an issue when releasing content to the second vRealize Operations instance. What are the two possible causes of the issue? (Choose two.)

- A. Content release from different versions of vRealize Operations Manager may fail.

- B. The policy "Enable code review" must be added to the second vRealize Operations endpoint.
- C. Only the policy "Allow content to be captured from this endpoint" has been configured for both vRealize Operations endpoints.
- D. A vRealize Operations endpoint can only be configured with FQDN.
- E. Configuring a vRealize Operations endpoint with an SSH user other than root is not supported.

Answer: A,E

Explanation:

Configuring a vRealize Operations endpoint with an SSH user other than root is not supported: vRealize Lifecycle Manager (vRSLCM) requires the use of the root user for SSH access to vRealize Operations endpoints. Using any other user for SSH access is not supported and may lead to issues when attempting to release content.

Content release from different versions of vRealize Operations Manager may fail: If the two vRealize Operations instances are running different versions, content release might fail due to version incompatibility.

It's recommended to ensure both instances are running compatible versions of vRealize Operations to ensure seamless content management and release.

NEW QUESTION # 54

Which statement is correct about the deployment process for vRealize Log Insight using vRealize Suite Lifecycle Manager?

- A. A cluster Virtual IP (VIP) address is a mandatory requirement.
- B. VMware Identity Manager (VIDM) is not a mandatory requirement.
- C. A DHCP address can be used for vRealize Log Insight worker nodes.
- D. Federal Information Processing Standard (FIPS) is enabled by default.

Answer: C

Explanation:

In the deployment process for vRealize Log Insight using vRealize Suite Lifecycle Manager, DHCP addresses can be used for vRealize Log Insight worker nodes. This allows the flexibility to use dynamic IP addresses for worker nodes, simplifying network configuration in some environments.

NEW QUESTION # 55

.....

ExamDiscuss deeply believe that our latest 2V0-32.24 exam torrent will be very useful for you to strength your ability, pass your 2V0-32.24 exam and get your certification. Our 2V0-32.24 study materials with high quality and high pass rate in order to help you get out of your harassment. If you do not have access to internet most of the time, if you need to go somewhere is in an offline state but you want to learn for your 2V0-32.24 Exam. Our website will help you solve your problem with the help of our excellent 2V0-32.24 exam questions.
