300-420 – 100% Free Pass Leader Dumps | Valid Designing Cisco Enterprise Networks Exam Certification

In the era of information explosion, people are more longing for knowledge, which bring up people with ability by changing their thirst for knowledge into initiative and "want me to learn" into "I want to learn". As a result thousands of people put a premium on obtaining 300-420 certifications to prove their ability. With the difficulties and inconveniences existing for many groups of people like white-collar worker, getting a 300-420 Certification may be draining. Therefore, choosing a proper 300-420 study materials can pave the path for you which is also conducive to gain the certification efficiently.

Cisco Designing Cisco Enterprise Networks Sample Questions (Q260-Q265):

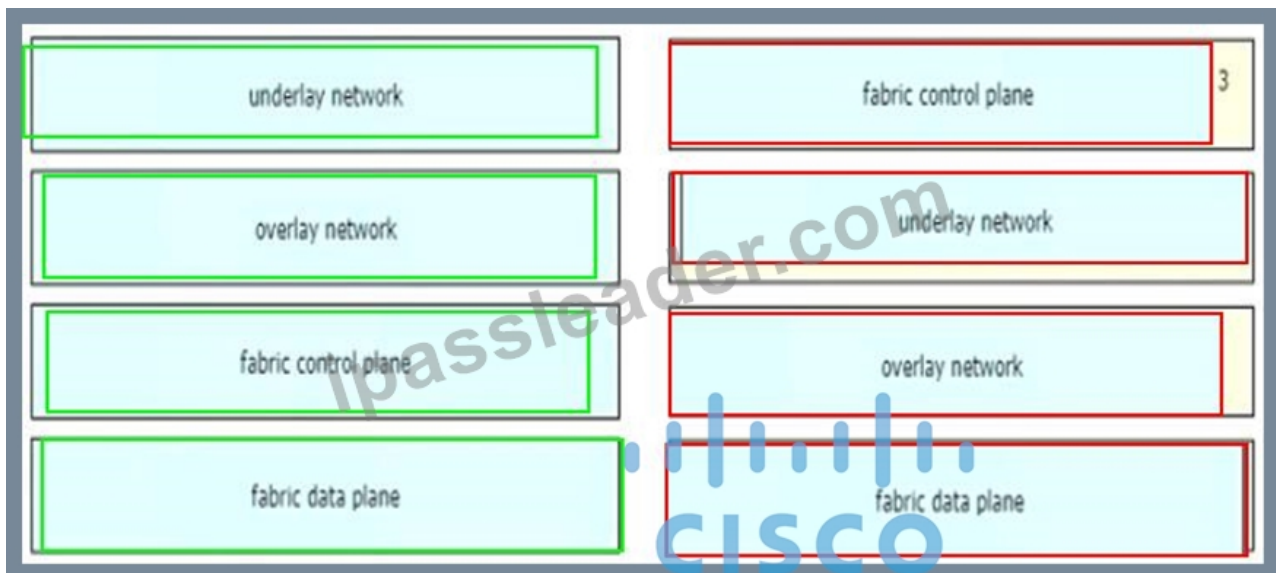

NEW QUESTION # 260

Drag and drop the components in a Cisco SD-Access architecture from the left onto their descriptions on the right.

underlay network	uses VXLAN to overlay a Layer 2 network on top of a Layer 3 network
overlay network	defined by the physical switches and routers
fabric control plane	contains data plane traffic and control plane signaling
fabric data plane	uses LISP to exchange EID-to-RLOC mapping

Answer:

Explanation:

NEW QUESTION # 261

Which function do reverse path forwarding mechanisms perform in a multicast deployment?

- A. They notify the upstream router of multicast traffic.
- **B. They prevent loops and duplicate packets.**
- C. They send PIM prune message toward multicast sources.
- D. They eliminate overlapping multicast addresses

Answer: B

Explanation:

Explanation

Reverse path forwarding (RPF) mechanisms are used to prevent loops and duplicate packets in multicast deployments [1]. The RPF check verifies that all multicast traffic received on a router is sourced from the expected direction, ensuring that multicast traffic is not looped back in the network. The RPF check works by comparing the source IP address of a multicast packet with the routing table, and only forwarding it if it matches the expected entry.

NEW QUESTION # 262

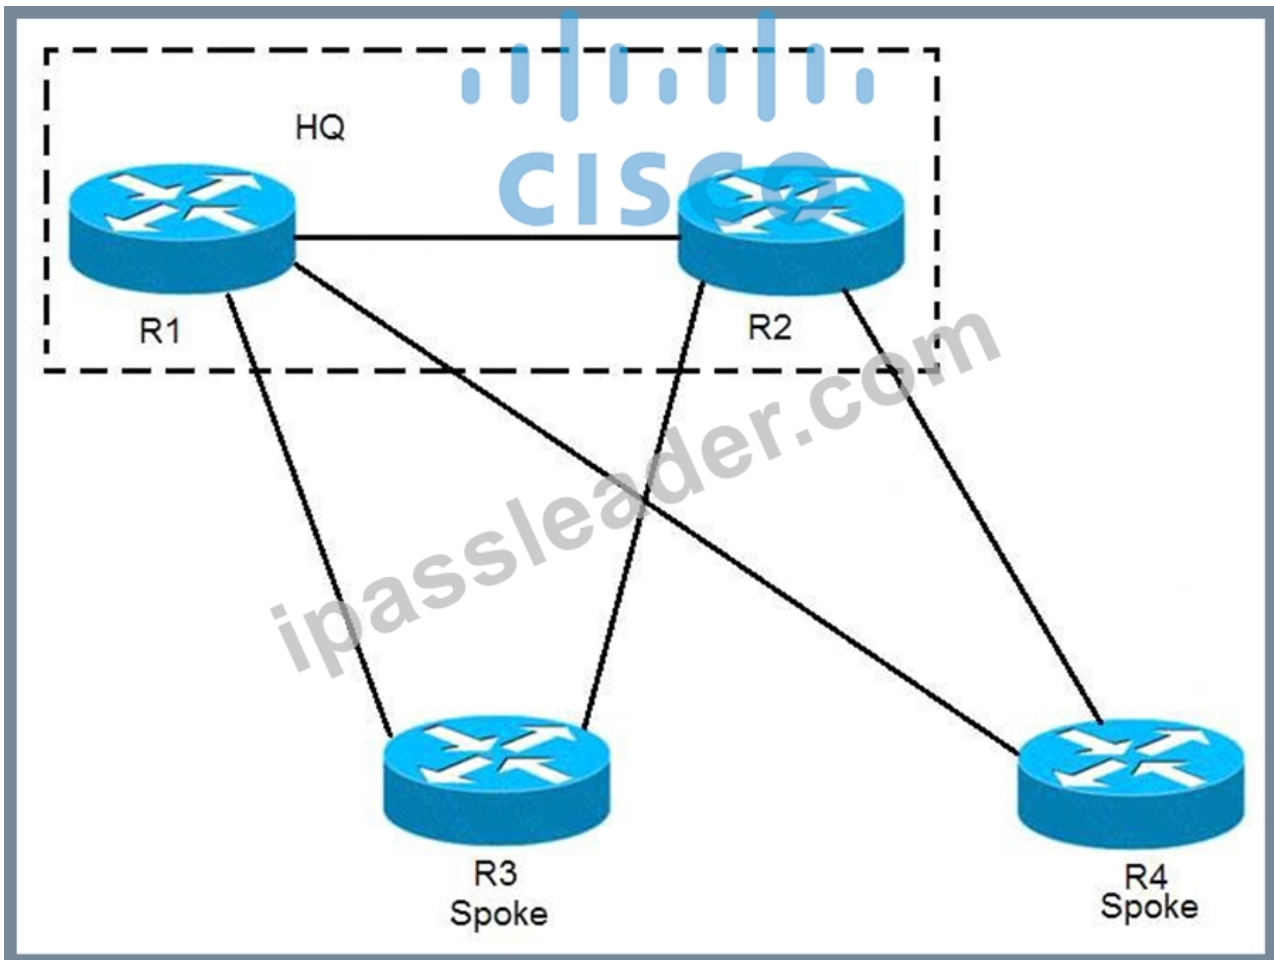

Which two statements regarding Cisco SD-WAN vEdge routers can mitigate DoS attacks against the infrastructure? (Choose two.)

- **A. Only authorized controllers are allowed to communicate back to the vEdge router after the vEdge router establishes connections with the controllers.**
- B. The vEdge routers run on hardened Linux operating systems.
- C. By default, integrated IDS/IPS on inside and (WAN) side interfaces.
- D. Open Certificate Authority and automated enrollment feature.
- **E. In case of direct Internet access, the only traffic allowed back is the traffic matching the state table entries on the vEdge router.**

Answer: A,E

NEW QUESTION # 263

Refer to the exhibit.

EIGRP has been configured on all links. The spoke nodes have been configured as EIGRP stubs, and the WAN links to R3 have higher bandwidth and lower delay than the links to R4. When a link failure occurs at the R1-R2 link, what happens to traffic on R1 that is destined for a subnet attached to R2?

- A. R1 forwards the traffic to R3 in order to reach R2
- B. R1 forwards the traffic to R3, but R3 drops the traffic
- C. R1 has no route to R2 and drops the traffic
- D. R1 load-balances across the paths through R3 and R4 to reach R2

Answer: C

Explanation:

The EIGRP stub routing feature will prevent the remote device from advertising core routes back to the distribution devices. Routes learned by the remote device from Distribution 1 will not be advertised to Distribution 2. Therefore, Distribution 2 will not use the remote device as a transit for traffic destined to the network core https://www.cisco.com/c/en/us/td/docs/ios-xml/ios/iproute_eigrp/configuration/15-ml/ire-15-ml-book/ire-eigrp-stub-rtg.html

NEW QUESTION # 264

An engineer is designing a BGP network for a large customer. To permit efficient scaling, the BGP domain is split into clusters. Which peering solution should be used between the route reflectors in different clusters for the BGP routes to be propagated appropriately?

- A. The route reflectors should be nonclients with regards to each other.
- B. The route reflectors should not have any kind of BGP peering.
- C. The route reflectors should have peering through another nonclient router.
- D. The route reflectors should be made dents of each other.

Answer: A

Explanation:

Explanation

When configure multi-cluster of BGP RRs, RRs should peer with each RR as non-client according to CCIE routing TCP/IP volume 2 @2001 page 127

- if the route was learned from nonclient IBGP peer, it is reflected to client only (here RR's route learnt from other RRs is able to reflect to its client)
- if the route was learned from a client, it is reflected to all nonclients and clients, except for the originating client. (routes learnt within the cluster can reflect to nonclient, RR)
- if the route was learnt from an EBGP peer, it is reflected to all nonclients and clients.

NEW QUESTION # 265

.....

The price for 300-420 study materials is quite reasonable, and no matter you are a student or you are an employee, you can afford the expense. Besides, 300-420 exam materials are compiled by skilled professionals, therefore quality can be guaranteed. 300-420 Study Materials cover most knowledge points for the exam, and you can learn lots of professional knowledge in the process of training. We provide you with free update for 365 days after purchasing 300-420 exam dumps from us.

300-420 Exam Certification: <https://www.ipassleader.com/Cisco/300-420-practice-exam-dumps.html>

With precious time passing away, many exam candidates are making progress with high speed and efficiency with the help of our 300-420 study guide, Cisco Pass Leader 300-420 Dumps The pdf version is easy for you to make notes, We offer 24/7 customer assisting to support if you have any problems about the downloading or purchasing the 300-420 test vce material, Cisco Purchasing 300-420 video training.

Unlike hard drive repair tools, which work by attempting 300-420 to repair or rebuild corrupted directory structures, Data Rescue doesn't make any modifications to a drive.

You can flip through the pages at liberty to quickly finish the check-up of 300-420 Test Dumps, With precious time passing away, many exam candidates are making progress with high speed and efficiency with the help of our 300-420 study guide.
