Scrum SSM (6.0) - SAFe® Scrum Master Sample Questions (Q77-Q82):

NEW QUESTION # 77

In complex systems development, what do local integration points ensure?

- A. That all team members have access to the current product status
- B. That an application passes all QA tests before being released to production
- C. That a common understanding of the system design is distributed to the entire team
- **D. That each capability of the system is meeting its responsibilities in contributing to the overall solution intent**

Answer: D

NEW QUESTION # 78

Who is responsible for assisting to establish Continuous Integration in SAFe?

- A. Shared Services
- B. The System Architect/Engineer
- **C. The System Team**
- D. Agile Teams

Answer: C

NEW QUESTION # 79

What is one way a servant leader can support team members in decision-making?

- A. Perform regular retrospectives on behalf of the team
- B. Identify solutions to problems the team surfaces
- **C. Give each team member the opportunity to contribute**
- D. Support teams in affinity mapping their concerns

Answer: C

Explanation:

According to the SAFe 6 Scrum Master documentation, one of the ways a servant leader can support team members in decision-making is by giving each team member the opportunity to contribute. This means that the servant leader encourages and facilitates the participation of all team members in the decision-making process, ensuring that everyone's voice is heard and valued. By giving each team member the opportunity to contribute, the servant leader fosters a culture of collaboration, empowerment, and trust, as well as increases the quality and buy-in of the decisions.
