

Databricks Databricks-Machine-Learning-Professional Actual Test Pdf - Databricks-Machine-Learning-Professional Test Collection Pdf

Beta Note

The next beta test of this exam is currently scheduled for August 6 - 20, 2025. You can apply for inclusion in the beta test with its one free exam attempt by [filling out this form](#) before July 28, 2025. Note that participation is not guaranteed and dates and conditions are subject to change.

Purpose of this Exam Guide

This exam guide gives you an overview of the exam and what it covers to help you determine your exam readiness. **This version covers the Beta Exam only and is subject to change at any time.**

Audience Description

The Databricks Certified Machine Learning Professional certification exam assesses an individual's ability to design, implement, and manage enterprise-scale machine learning solutions using advanced Databricks platform capabilities. This includes proficiency in building scalable ML pipelines with SparkML, implementing distributed training and hyperparameter tuning, leveraging advanced MLflow features, and utilizing Feature Store concepts for automated feature pipelines. The certification exam evaluates expertise in MLOps practices including testing strategies, environment management with Databricks Asset Bundles, automated retraining workflows, and monitoring using Lakehouse Monitoring for drift detection. Additionally, test-takers are assessed on their ability to implement deployment strategies, custom model serving, and model rollout management. Individuals who pass this certification exam can be expected to perform advanced machine learning engineering tasks at enterprise scale, implementing production-ready ML systems with comprehensive monitoring, testing, and deployment practices using the full feature set of Databricks.

About the Exam

- Number of items: **up to 177 multiple-choice or multiple-selection questions**, including standard items and extra beta-test items **for the beta test only**
- Time Limit: 180 minutes, **for the beta test only**
- Registration fee: The single exam attempt for the beta test is free of charge Delivery method: Online Proctored
- Test aides: None allowed

P.S. Free & New Databricks-Machine-Learning-Professional dumps are available on Google Drive shared by Test4Sure:
<https://drive.google.com/open?id=1AYbygnvpL3hSmDZ9ALwY1LP5GF3ywmYA>

Our exam prep material is famous among Databricks-Machine-Learning-Professional exam candidates which help to polish the knowledge required to pass the Databricks Databricks-Machine-Learning-Professional exam. The certification is organized by Databricks-Machine-Learning-Professional internationally. Our Databricks Databricks-Machine-Learning-Professional exam questions are the most cost-effective as we understand that you need low-cost material but are authentic and updated. Test4Sure provides its Databricks Databricks-Machine-Learning-Professional Exam Questions in three forms, one is PDF eBook, the second is practice exam software for Windows-based systems, and the third is an online practice test.

Our company has occupied large market shares because of our consistent renovating. We have built a powerful research center and owned a strong team. Up to now, we have got a lot of patents about our Databricks study materials. On the one hand, our company has benefited a lot from renovation. Customers are more likely to choose our Databricks-Machine-Learning-Professional Materials. On the other hand, the money we have invested is meaningful, which helps to renovate new learning style of the exam. So it will be very convenient for you to buy our product and it will do a lot of good to you.

Databricks Databricks-Machine-Learning-Professional Test Collection Pdf,

Databricks-Machine-Learning-Professional Cost Effective Dumps

In order to make you be rest assured to buy our Databricks-Machine-Learning-Professional exam software, we provide the safest payment method –PayPal payment. PayPal is one of the biggest international security payment systems. And we protect your personal information not be leaked. If you have any problem of Databricks-Machine-Learning-Professional Exam Dumps or interested in other test software, you can contact us online directly, or email us. We will try our best to help you pass the Databricks-Machine-Learning-Professional exam.

Databricks Certified Machine Learning Professional Sample Questions (Q173-Q178):

NEW QUESTION # 173

A machine learning engineer has registered a sklearn model in the MLflow Model Registry using the sklearn model flavor with UI model_uri. Which operation can be used to load the model as an sklearn object for batch deployment?

- A. `mlflow.pyfunc.read_model(model_uri)`
- B. `mlflow.pyfunc.load_model(model_uri)`
- C. `mlflow.spark.load_model(model_uri)`
- D. `mlflow.sklearn.load_model(model_uri)`
- E. `mlflow.sklearn.read_model(model_uri)`

Answer: B

NEW QUESTION # 174

A machine learning engineer has detected that concept drift is occurring in a production machine learning application. Which result is the impact of concept drift?

- A. The model's efficacy will decrease
- B. The model's latency will decrease
- C. The model's latency will increase
- D. The model's efficacy will increase

Answer: A

Explanation:

Concept drift occurs when the relationship between input features and the target variable changes over time. This leads to a decrease in the model's efficacy, as the model is no longer accurately capturing the underlying data patterns it was trained on.

NEW QUESTION # 175

A machine learning engineer is manually refreshing a model in an existing machine learning pipeline. The pipeline uses the MLflow Model Registry model "project". The machine learning engineer would like to add a new version of the model to "project". Which MLflow operation can the machine learning engineer use to accomplish this task?

- A. `MlflowClient.update_registered_model`
- B. `mlflow.register_model`
- C. `MlflowClient.get_model_version`
- D. `mlflow.add_model_version`
- E. The machine learning engineer needs to create an entirely new MLflow Model Registry model

Answer: A

NEW QUESTION # 176

A data scientist wants to remove the star_rating column from the Delta table at the location path. To do this, they need to load in data and drop the star_rating column.

Which of the following code blocks accomplishes this task?

- A. Delta tables cannot be modified

- B. `spark.read.format("delta").table(path).drop("star_rating")`
- C. `spark.sql("SELECT * EXCEPT star_rating FROM path")`
- **D. `spark.read.table(path).drop("star_rating")`**
- E. `spark.read.format("delta").load(path).drop("star_rating")`

Answer: D

NEW QUESTION # 177

A machine learning engineer is manually refreshing a model in an existing machine learning pipeline. The pipeline uses the MLflow Model Registry model "project". The machine learning engineer would like to add a new version of the model to "project". Which of the following MLflow operations can the machine learning engineer use to accomplish this task?

- **A. `MlflowClient.update_registered_model`**
- B. `mlflow.register_model`
- C. `MlflowClient.get_model_version`
- D. `mlflow.add_model_version`
- E. The machine learning engineer needs to create an entirely new MLflow Model Registry model

Answer: A

NEW QUESTION # 178

.....

The Databricks-Machine-Learning-Professional exam questions are being offered in three formats. These formats are Databricks Databricks-Machine-Learning-Professional web-based practice test software, desktop practice test software, and PDF dumps files. All these three Databricks-Machine-Learning-Professional exam Dumps formats are ready for download. Just choose the best Databricks Databricks-Machine-Learning-Professional Certification Exams format that suits your budget and assist you in Databricks Databricks-Machine-Learning-Professional exam preparation and start Databricks-Machine-Learning-Professional exam preparation today.
