Download the PrepAwayETE Certified CSF Practitioner 2025 Exam (CCSFP) exam real dumps now and start this career advancement journey.

HITRUST Certified CSF Practitioner 2025 Exam Sample Questions (Q22-Q27):

NEW QUESTION # 22

Which assessment type tests against requirement statements considered essential to cybersecurity hygiene?

- A. Targeted Assessment
- B. i1 Assessment
- C. r2 Assessment
- D. e1 Assessment
- E. None of the above

Answer: B,D

Explanation:

The HITRUSTe1andil assessments are streamlined, moderate-effort assurance models designed to evaluate an entity's implementation of essential cybersecurity hygiene controls. These assessments focus on baseline security practices recognized across industries as foundational for protecting sensitive information. The e1 is intended for smaller organizations or those with limited

resources, covering a subset of controls that address basic hygiene. The i1 provides expanded coverage beyond e1, testing against controls deemed critical for medium assurance levels. By contrast, the r2 is the most rigorous and risk-tailored assessment, covering a broader and more detailed control set. Targeted assessments are specialized and do not focus broadly on hygiene. Therefore, the e1 and i1 assessments are the correct answers.

References: HITRUST Assurance Program Overview - "e1, i1, r2 Comparison"; CCSFP Practitioner Guide - "Cybersecurity Hygiene in e1 and i1 Assessments."

NEW QUESTION # 23

An Interim Assessment must be completed in how many months after r2 certification is achieved? [0023]

- A. 18 months
- B. 24 months
- C. 12 months
- D. 6 months

Answer: C

Explanation:

For an r2 Certification:

Certification is valid for two years, but an Interim Assessment must be performed at the 12-month mark to maintain certification status.

This ensures continuous compliance, validation of CAP progress, and confirmation of no significant scope changes.

Extract Reference (HITRUST Assurance Program, CCSFP Guide [0023]):

Interim Assessments are required 12 months after r2 certification to maintain certification validity for the second year.

NEW QUESTION # 24

A validated assessment may lead to either a validated report or a validated report with certification.

- A. False
- B. True

Answer: B

Explanation:

Validated assessments undergo QA by HITRUST after submission by the assessor. The outcome can be either:

* A Validated Report- issued if the assessment is complete but certification thresholds (e.g., domain scores #71 for r2) are not met.

This report still provides assurance to relying parties by confirming independent validation, even without certification.

* A Validated Report with Certification- issued when all certification criteria are met, including minimum domain scores and interim assessment requirements for multi-year validity.

This distinction allows HITRUST to provide value even to organizations that fall short of certification, by documenting their current control maturity and gaps. Organizations can use the validated report as a roadmap to remediate deficiencies and pursue certification in the future.

References: HITRUST Assurance Program Overview - "Validated Reports and Certification"; CCSFP Study Guide - "Assessment Outcomes."

NEW QUESTION # 25

A three-year HITRUST certification can be achieved by scoring 100% across all 19 Domains. [0095]

- A. False
- B. True

Answer: A

Explanation:

HITRUST certifications are valid for two years, not three.

Interim assessments are required at the 1-year mark to maintain certification status.

Even if an organization scored 100% across all 19 domains, the maximum certification term is two years.

Extract Reference (HITRUST CSF Assurance Program Guide [0095]):

HITRUST certifications are valid for a period of two years, contingent upon the successful completion of an interim assessment after year one.

NEW QUESTION # 26

On an r2 assessment, HITRUST requires evidence to be linked to all maturity levels that score above 25% for Policy and Procedure, and over 0% for Implementation, Measured, and Managed.

- A. False
- **B. True**

Answer: B

Explanation:

HITRUST enforces strict evidence requirements to maintain credibility of assessment results. For Policy and Procedure maturity levels, if a score above 25% is claimed, the organization must link appropriate evidence (e.g., documented policies, standard operating procedures). For Implementation, Measured, and Managed, evidence must be provided whenever a score greater than 0% is claimed. This ensures that claims are supported by objective artifacts rather than assertions. Evidence can include policy documents, monitoring reports, logs, meeting minutes, or audit records. HITRUST QA verifies that evidence is linked to requirement statements at each maturity level. Without linked evidence, scores may be reduced or reverted during QA.

This policy ensures transparency, accountability, and prevents overstatement of control effectiveness.
