The Oracle 1z0-1080-25 pdf questions learning material provided to the customers from Exams4sures is in three different formats. The first format is PDF format which is printable and portable. It means it can be accessed from tablets, laptops, and smartphones to prepare for the Oracle Planning 2025 Implementation Professional exam. The Oracle 1z0-1080-25 Pdf Format can be used offline, and candidates can even prepare for it in the classroom or library by printing questions or on their smart devices.

With Exams4sures, you can trust that you're accessing authentic and error-free 1z0-1080-25 exam practice questions. These questions are available in three different formats: PDF questions files, desktop practice test software, and web-based practice test software. All three formats contain genuine 1z0-1080-25 Practice Questions that will effectively prepare you for the final exam.

## Oracle 1z0-1080-25 New Cram Materials, Exam 1z0-1080-25 Certification Cost

Oracle 1z0-1080-25 Exam provided by Exams4sures is of the highest quality, and it enables participants to pass the exam on their first try. For successful preparation, it is essential to have good Oracle 1z0-1080-25 exam dumps and to prepare questions that may come up in the exam. Exams4sures helps candidates overcome all the difficulties they may encounter in their exam preparation. To ensure the candidates' satisfaction, Exams4sures has a support team that is available 24/7 to assist with a wide range of issues.

## Oracle Planning 2025 Implementation Professional Sample Questions (Q92-Q97):

### NEW QUESTION # 92

Which three statements are true about importing metadata from a flat file into Planning?

- A. You can import data forms, dashboards, and infolets by loading a local import file or an import file from the Inbox server.
- B. When selecting to clear members during import, any member not specified is deleted from the outline after importing the dimension unless it is an ancestor of a member that was specified, or is a base member of a shared member that was specified.
- C. You can use the import file functionality to import more metadata or to perform incremental updates from the source system.
- D. Your import file must contain a list of metadata records. Each metadata record contains a delimited list of property values that matches the order designated in the header record.
- E. You can rename or delete members of attribute dimensions during a metadata import.

**Answer: B,C,D**

Explanation:

In Oracle Planning 2024, importing metadata from a flat file into Planning involves specific rules and capabilities. The three true statements are:

\* A. You can rename or delete members of attribute dimensions during a metadata import: Incorrect.

Metadata imports update dimension members (e.g., adding, updating properties), but renaming or deleting attribute dimension members is not directly supported via flat file import—it requires manual action or a separate process.

\* B. You can import data forms, dashboards, and infolets by loading a local import file or an import file from the Inbox server: Incorrect. Flat file imports are for metadata (e.g., dimensions, members), not artifacts like forms, dashboards, or infolets, which are managed via Migration or Application tools.

\* C. Your import file must contain a list of metadata records. Each metadata record contains a delimited list of property values that matches the order designated in the header record: Correct. The import file format requires a header defining properties (e.g., Name, Parent) and subsequent records with delimited values (e.g., CSV) matching that order, a standard requirement for metadata imports.

\* D. When selecting to clear members during import, any member not specified is deleted from the outline after importing the dimension unless it is an ancestor of a member that was specified, or is a base member of a shared member that was specified: Correct. When the "Clear Members" option is selected, unspecified members are removed, but ancestors of specified members and base members of shared members are retained to maintain hierarchy integrity.

\* E. You can use the import file functionality to import more metadata or to perform incremental updates from the source system: Correct. Metadata imports support both full loads and incremental updates, allowing administrators to add or modify members as needed from a source system.

The Oracle documentation verifies that C, D, and E accurately describe the metadata import process, making them the correct answers.

### NEW QUESTION # 93

Which three types of revenue and expense assumptions drive data calculations in Projects?

- A. Program mappings
- B. Standard rates
- C. Discount rates
- D. Plan start year
- E. Working days and hours
- F. Project rates

**Answer: B,E,F**

Explanation:

In Oracle Planning 2024's Projects module, revenue and expense calculations are driven by specific assumptions that influence project financials. The three types of assumptions that directly drive these calculations are Working days and hours, Standard rates,

and Project rates:

\* A. Working days and hours: This assumption defines the available time for project execution (e.g., days per week, hours per day), directly impacting labor costs and revenue projections based on resource utilization.

\* C. Standard rates: These are predefined rates (e.g., hourly or daily rates for labor or equipment) applied across projects unless overridden, driving cost and revenue calculations consistently.

\* E. Project rates: These are project-specific rates that override standard rates when defined, allowing for tailored revenue and expense calculations based on unique project requirements.

\* B. Plan start year: This is incorrect because, while it sets the timeline for planning, it does not directly drive revenue or expense calculations-it's a temporal parameter, not an assumption affecting financial data.

\* D. Program mappings: This is incorrect because program mappings relate to integrating data across programs, not driving revenue or expense calculations within Projects.

\* F. Discount rates: This is incorrect because discount rates are used for net present value (NPV) or financial analysis, not as a direct driver of revenue and expense assumptions in Projects.

The Oracle Projects module documentation highlights that Working days and hours, Standard rates, and Project rates are foundational assumptions that calculate costs (e.g., labor expenses) and revenues (e.g., billable amounts), making them the correct choices.

#### NEW QUESTION # 94

From which two locations can you export data files?

- A. Outbox
- B. Local
- C. Repository
- D. Workspace

Answer: A,B

#### NEW QUESTION # 95

What is the purpose of selecting the Project Benefits option when enabling Projects?

- A. Track the Workforce expense benefits calculated on each Contract project.
- B. Plan detailed project revenue for Contract projects.
- C. Help justify the need for projects and plan nonfinancial benefits.
- D. Plan detailed project expenses for projects.

Answer: C

#### NEW QUESTION # 96

Which three sources of data can you use in Dashboards 2.0?

- A. Spreadsheets
- B. Forms
- C. Cubes
- D. Ad hoc grids
- E. Reports

Answer: B,D

#### NEW QUESTION # 97

.....

You can access the premium PDF file of Oracle 1z0-1080-25 dumps right after making the payment. It will contain all the latest

**1z0-1080-25 New Cram Materials:** <https://www.exams4sures.com/Oracle/1z0-1080-25-practice-exam-dumps.html>

It lets the employer know that you have a vested interest in your 1z0-1080-25 career and are interested in knowing more than where your desk will be, how much you'll be paid, and what the vacation policy is.

In Scrum Shortcuts without Cutting Corners, Scrum expert Ilan Goldstein Lab 1z0-1080-25 Questions helps you translate the Scrum framework into reality to meet the Scrum challenges your formal training never warned you about.

Our Oracle Planning 2025 Implementation Professional (1z0-1080-25) PDF file of updated exam questions is compatible with smartphones, laptops, and tablets. A good deal of researches has been made to figure 1z0-1080-25 New Cram Materials out how to help different kinds of candidates to get Oracle Planning 2025 Implementation Professional certification.
