ASIS-PSP certification exam is a comprehensive assessment that covers a broad range of topics related to physical security. These topics include threat assessment, risk management, security technology, physical security design and implementation, emergency management, and business continuity planning. ASIS-PSP exam is designed to ensure that individuals who hold the certification have a deep understanding of these topics and are able to apply their knowledge effectively in real-world situations.

ASIS-PSP certification exam is highly respected in the security industry and is considered one of the most prestigious credentials for physical security professionals. Individuals who pass the exam are recognized as experts in the field and are highly sought after by employers. Physical Security Professional Exam certification provides professionals with the opportunity to enhance their career prospects and increase their earning potential. Additionally, the certification is a testament to the individual's commitment to professional development and their dedication to maintaining the highest standards of physical security.

ASIS-PSP exam is comprised of 125 multiple-choice questions, covering several areas in physical security, such as security design, threat assessment, risk management, security operations, and emergency management. ASIS-PSP Exam is computer-based and is administered at secure testing centers worldwide. To become eligible for the exam, candidates must meet certain qualifications, such as having at least five years of experience in physical security or a related field, or a combination of education and experience. Furthermore, candidates are strongly encouraged to undertake a self-assessment to identify their areas of strength and weakness

before taking the exam.

ASIS Physical Security Professional Exam Sample Questions (Q219-Q224):

NEW QUESTION # 219
A person who already knows and understands the basics of loss prevention and security is known as:

- A. None of the above
- B. Review personnel
- C. Engaged liaison
- D. Supportive person

Answer: A

Explanation:
The description in the question refers to a "qualified" or "trained" individual in security or loss prevention, but none of the answer choices-Engaged liaison, Review personnel, Supportive person-specifically identify a person already knowledgeable in loss prevention and security. Therefore, "None of the above" is the correct choice as it best fits the context.
Engaged liaison (A) refers to someone facilitating coordination, not necessarily with security knowledge.
Review personnel (B) and Supportive person (C) are too generic and do not accurately define a trained security professional.

NEW QUESTION # 220
Which of the following is not one of the five criteria of good security reporting?

- A. Timeliness
- B. Clarity
- C. Subjectivity
- D. Conciseness

Answer: C

Explanation:
Comprehensive Detailed Explanation:
One of the key principles of good security reporting is objectivity, not subjectivity. Reports should be clear, concise, timely, and objective to ensure factual, actionable information. Subjectivity introduces bias and undermines the reliability of reports.
A (Clarity), B (Timeliness), and D (Conciseness) are all core principles of effective reporting.

POA Manual - Incident Reporting Standards

NEW QUESTION # 221
Preliminary cost estimates are part of which stage in the project management process?

- A. Design

- B. Execution
- C. Development
- D. Feasibility

Answer: D

Explanation:
Preliminary cost estimates are developed during the feasibility phase of a project. These early estimates help determine whether a project is viable and worth pursuing, guiding initial decision-making and budgeting discussions.
A (Design) and B (Development) phases involve more detailed cost estimates.
C (Execution) is when implementation begins, after funding is approved.

NEW QUESTION # 222
Based on non-delegable duty, contractual provisions that shift liability to the subcontractors have not been recognized by the courts and are called:

- A. None of the above
- B. Hold harmless clauses
- C. Unrecognized holds
- D. Hold-on liabilities

Answer: B

Explanation:
Hold harmless clauses are contractual provisions that attempt to shift liability from one party to another- typically from the hiring organization to the contractor. However, under the principle of non-delegable duty, courts often do not honor these clauses when essential legal responsibilities (like ensuring public safety) are involved. This reinforces that certain legal obligations cannot be waived or outsourced.
Options A and B are not recognized legal phrases.

NEW QUESTION # 223
The FIRST step in the Enterprise Security Risk Management (ESRM) process is to:

- A. Identify asset values
- B. Understand the context
- C. Identify risk mitigation measures
- D. Conduct a risk assessment

Answer: B

Explanation:
The first step in the Enterprise Security Risk Management (ESRM) process is to understand the context of the organization-its mission, assets, stakeholders, regulatory environment, and strategic goals. This foundational knowledge frames all future risk assessments and mitigation planning.
A, C, and D are steps that follow contextual understanding.
