IIC Principles and Practice of Insurance Sample Questions (Q45-Q50):

NEW QUESTION # 45

Which action reduces a hazard?

- A. **Installing anti-slip floor tile in the hallway**
- B. Shutting off sprinkler systems during renovations
- C. Removing protective packaging around items being moved
- D. Using high beams at night on a busy highway

Answer: A

Explanation:

A hazard is a condition that increases the likelihood or severity of a loss. Installing anti-slip flooring reduces the chance of slips and falls, thereby reducing a hazard. This is an example of loss prevention-altering physical conditions to make an environment safer. Option B increases danger because high beams on a busy highway can blind other drivers. Option C significantly increases fire hazard because sprinkler systems provide automatic fire suppression. Option D exposes items to damage during transit, increasing rather than decreasing hazard.

Therefore, the only option that clearly reduces a hazard is A: installing anti-slip floor tile.

NEW QUESTION # 46

Rashida claims she told her broker about the swimming pool when binding coverage. The adjuster disputes coverage because the insurer was not informed. What should have been done to prevent this dispute?

- A. Broker should have requested Rashida send in a signed notice after issuance
- **B. Broker should have sent written confirmation to Rashida and the insurer**
- C. Broker should have requested a witness during the oral application
- D. Insurer should have contacted Rashida directly before binding coverage

Answer: B

Explanation:

Whenever coverage is bound orally, the broker must follow up with written confirmation to both: the insured, to confirm the accuracy of information provided, and the insurer, to notify them of all disclosed underwriting details.

This written documentation protects all parties by ensuring the insurer is fully aware of material facts-such as the presence of a swimming pool-and prevents disputes like this one.

Option A is unnecessary and not industry practice.

Option C refers to a notice after issuance, but the dispute occurred at binding, so this is too late.

Option D is incorrect; the insurer does not verify every detail directly with insureds-this is the broker's responsibility.

Thus, the broker should have completed written confirmation, making B the correct answer.

NEW QUESTION # 47

Which statement best describes unearned premium?

- A. The earned premium that has been paid out as the broker's commission
- **B. The premium that covers the policy duration that has not yet passed**
- C. The accumulated premium that has not been paid out against a loss
- D. The premium that covers the policy period that has expired

Answer: B

Explanation:

Unearned premium is the portion of the premium that corresponds to the period of insurance not yet elapsed.

When an insured prepays a premium (often for a 12-month policy), the insurer earns that premium gradually over the policy term as time passes. Any amount relating to future coverage-coverage the insurer has not yet provided-is considered unearned premium. It represents a liability on the insurer's balance sheet because if the policy is cancelled, the insurer must refund the unearned portion to the insured, subject to policy terms.

Option A is the opposite: that describes earned premium, not unearned premium. Option B is incorrect because unearned premium

is unrelated to claims payments; it is a time-based accounting concept. Option D is incorrect because broker commissions are not part of earned or unearned premium calculations; they are an expense paid out of the premium. Therefore, the correct definition is C: the premium for the remaining period of insurance that has not yet passed.

NEW QUESTION # 48

George emails his cousin offering to buy her textbooks for \$500. He states that unless she replies "no," they have a deal. Which essential element of a binding contract is missing?

- A. Consideration
- B. Legality of object
- **C. Offer and acceptance**
- D. Capacity to contract

Answer: C

Explanation:

For a legally binding contract, there must be offer and acceptance—a clear proposal and a clear, communicated acceptance. In this case, George attempts to treat silence as acceptance. According to contract law, silence cannot constitute acceptance, unless there is a prior agreement between the parties stating otherwise. Because his cousin has not actively communicated acceptance, the contract remains incomplete.

Option A is incorrect—consideration exists (money in exchange for books).

Option B is irrelevant—buying textbooks is legal.

Option C does not apply—George is 18 and has legal capacity in Alberta.

The missing element is acceptance, so the correct answer is D.

NEW QUESTION # 49

Which scenario is an example of insurable interest?

- **A. An employer's interest in the life of their employee**
- B. An employee's interest in the life insurance policy of a fellow employee
- C. The interest an underwriter has in writing profitable business
- D. The interest an insurance company earns on its premiums

Answer: A

Explanation:

Insurable interest exists when someone would suffer a financial loss if a person or property were damaged, lost, or deceased.

Employers have a legitimate, recognized insurable interest in the lives of key employees, as their death or disability could result in financial loss—for example, reduced productivity, training costs, or loss of specialized expertise. Therefore, A represents a valid and legally recognized insurable interest.

Option B involves investment income earned by insurers—this is not an insurable interest but a financial outcome of operations. Option C reflects a business motive but not an insurable interest because an underwriter does not stand to personally lose financially if a policyholder dies or property is damaged. Option D is generally invalid unless the employee can demonstrate a direct financial dependency, which is typically not the case.

Thus, the only clear example of insurable interest is A: the employer's interest in the life of an employee.
