CIMA F3 Financial Strategy Sample Questions (Q73-Q78):

NEW QUESTION # 73

A company is considering the issue of a convertible bond compared to a straight bond issue (non-convertible bond).

Director A is concerned that issuing a convertible bond will upset the shareholders for the following reasons:

* it will dilute their control

* the interest payments will be higher therefore reducing liquidity

* it will increase the gearing ratio therefore increasing financial risk Director B disagrees, and is preparing a board paper to promote the issue of the convertible bond rather than a non-convertible.

Advise the Director B which THREE of the following statements should be included in his board paper to promote the issue of the convertible bond?

- A. Issuing a convertible bond will have a more favourable impact on the gearing ratio than a non-convertible bond.
- B. Over the life of the bond, a convertible will be more expensive than a non-convertible.
- C. When converted into shares, the company will receive a cash inflow which can be used for future investments.
- D. The convertible bond may not dilute control as the bond holder has an option to choose conversion.
