- A. Time & Materials Engagement
- B. WalkMe Shield
- C. Activation SKU

Answer: C

NEW QUESTION # 12

What is one of WalkMe's differentiators when compared to other Digital Adoption Platforms (DAP)?

- A. Offering a combination of guidance tools and actionable analytics
- B. Limited scalability for smaller businesses
- C. Ability to operate without integrating into other software
- D. Exclusive focus on customer experience workflows

Answer: A

Explanation:

The correct answer is:

A . Offering a combination of guidance tools and actionable analytics Why this matters WalkMe stands out among Digital Adoption Platforms (DAPs) by not only providing in-app guidance—such as walkthroughs, tooltips, and task lists—but also delivering actionable insights through analytics. This powerful combination empowers organizations to both guide users and continuously

optimize adoption using real-world usage data.

Why the other options don't apply

* B. Limited scalability for smaller businesses

This is a limitation, if anything-not a differentiator or benefit.

* C. Exclusive focus on customer experience workflows

WalkMe supports a wide array of use cases, including employee onboarding, IT, finance, and more- not just customer workflows.

* D. Ability to operate without integrating into other software

WalkMe overlays onto existing applications and integrates deeply-it doesn't operate in isolation.

Final Answer: A. Offering a combination of guidance tools and actionable analytics.

NEW QUESTION # 13

What unique technology powers WalkMe's AI-first Digital Adoption Platform (DAP), enabling it to understand application context and drive adoption success?

- A. Library of Pre-Made Content
- B. SAP Ecosystem Integration
- **C. DeepUI Technology**

NEW QUESTION # 14

Which of the following are objectives of WalkMe's sales plays for SAP?Note: There are 3 correct answers to this question.

- A. Providing analytics and insights for cloud-based HR systems
- **B. Ensuring compliance and efficiency in finance and spend management**
- C. Simplifying procurement processes to enhance competitive differentiation
- **D. Driving measurable ROI across SAP and non-SAP applications**
- **E. Enabling ERP transformation through user engagement and adoption**

Answer: B,D,E

Explanation:

Based on WalkMe's positioning within the SAP ecosystem, the three key objectives of their SAP-focused sales plays are:

C. Enabling ERP transformation through user engagement and adoption

WalkMe plays a central role in digital transformation by driving user engagement, increasing software adoption, and ensuring smooth rollouts of SAP ERP like S/4HANA and SuccessFactors

A. Ensuring compliance and efficiency in finance and spend management WalkMe's in-app guidance helps prevent user errors, ensure policy compliance, and streamline critical finance and procurement workflows-especially within SAP S/4HANA and Ariba environments blog.sap-press.com

E. Driving measurable ROI across SAP and non-SAP applications

WalkMe emphasizes actionable insights, highlighting software usage, and driving ROI not just in SAP but across heterogeneous systems through analytics and usage data visibility.

Not correct:

* B. Providing analytics and insights for cloud-based HR systems

While WalkMe supports HR applications like SuccessFactors, the offering is broader-including ERP, procurement, and cross-app usage-so this choice is too narrow.

* D. Simplifying procurement processes to enhance competitive differentiation WalkMe does simplify workflows in SAP Ariba, but the "competitive differentiation" language doesn't match their core positioning.
