## Valid Development-Lifecycle-and-Deployment-Architect Customized Lab Simulation & The Best Salesforce Certification Training - Authoritative Salesforce Certified Development Lifecycle and Deployment Architect

After the client pay successfully they could receive the mails about Development-Lifecycle-and-Deployment-Architect guide questions our system sends by which you can download our test bank and use our Development-Lifecycle-and-Deployment-Architect study materials in 5-10 minutes. The mail provides the links and after the client click on them the client can log in and gain the Development-Lifecycle-and-Deployment-Architect Study Materials to learn. The procedures are simple and save clients' time. For the client the time is limited and very important and our Development-Lifecycle-and-Deployment-Architect learning guide satisfies the client's needs to download and use our Development-Lifecycle-and-Deployment-Architect practice engine immediately.

Salesforce Development-Lifecycle-and-Deployment-Architect Certification Exam is a challenging exam that requires a deep understanding of the Salesforce platform, development lifecycle, and deployment architecture. Development-Lifecycle-and-Deployment-Architect exam covers a wide range of topics, including Apex code, Visualforce, Lightning, Heroku, and other development tools. To pass the exam, professionals must demonstrate their ability to design, develop, and deploy secure, scalable, and efficient applications on the Salesforce platform.

## Salesforce Certified Development Lifecycle and Deployment Architect Sample Questions (Q186-Q191):

### NEW QUESTION # 186

Universal Containers (UC) is planning for a huge data migration from a home grown on-premise system to Salesforce as part of their Service Cloud Implementation. UC has approximately 5 million customers, 10 million contacts, and 30 million active cases. Which are the three key areas that should be tested as part of Data Migration? Choose 3 answers

- A. Case association with correct contact and Account.
- B. Page Layout assignment to the profiles
- C. Case Ownership along with associated entitlement and milestones.
- D. Case assignment rules and escalation rules.
- E. Data transformation against the source system

**Answer: A,C,E**

### NEW QUESTION # 187

Universal Containers (UC) operates globally from different geographical locations. UC is revisiting its current org strategy. Which three factors should an Architect consider for a single strategy? Choose 3 answers

- A. Centralized data location.
- B. Tailored implementation.
- C. Consistent processes across the business.
- D. Fewer inter-dependencies.
- E. Increased ability to collaborate.

**Answer: A,C,E**

Explanation:

Explanation

A single org strategy has the benefits of increased ability to collaborate, centralized data location, and consistent processes across the business. These factors can improve efficiency, data quality, and user adoption.

A single org strategy may not allow for tailored implementation or fewer inter-dependencies, as different business units may have different requirements and dependencies.

### NEW QUESTION # 188

Universal Containers (UC) has a large user base (>300 users) and was originally implemented eight years ago by a Salesforce Systems Integration Partner. Since then, UC has made a number of changes to its Visual force pages and Apex classes in response to customer requirements, made by a variety of Vendors and internal teams. Which three issues would a new Technical Architect expect to see when evaluating the code in the Salesforce org? Choose 3 answers

- A. Multiple triggers on the same object, making it hard to understand the order of operations.
- B. Custom-built JSON and String manipulation Classes that are no longer required.
- C. Broken functionality due to Salesforce upgrades.
- D. Duplicated logic across Visual force pages and Apex classes performing similar tasks.
- E. Multiple unit test failures would be encountered.

**Answer: A,D,E**

Explanation:

Multiple triggers on the same object can cause conflicts and performance issues. Multiple unit test failures can indicate poor code quality and lack of maintenance. Duplicated logic across Visualforce pages and Apex classes can lead to inconsistency and redundancy.

### NEW QUESTION # 189

Universal Containers has multiple project teams integrating Salesforce to various systems. Integration Architects are complaining about the various integration patterns used by the teams and lack a common understanding of the integration landscape. What should an architect recommend to address the challenges?

- A. Create design standards focused on integration and provide training to all teams
- B. Recommend a fire-and-forget design pattern to be used for all teams.

- C. Recommend an outbound message design pattern to be used for all teams.
- D. Implement a data governance policy and publish the documentation to all teams.

**Answer: A**

Explanation:

Creating design standards focused on integration and providing training to all teams is the best way to address the challenges of having various integration patterns and a lack of common understanding of the integration landscape. Design standards can help to establish consistent and best practices for integrating Salesforce with other systems, such as choosing the appropriate integration style, pattern, tool, and protocol. Training can help to educate and align the teams on the design standards and the integration architecture.

**NEW QUESTION # 190**

Northern Trail Outfitters (NTO) has well-defined release management processes for both large and small projects. NTO's development team created a workflow and a trigger for the changes in its opportunity renewal process.

What should the architect recommend for release planning of these changes?

- A. Plan this as a patch release and align with the Salesforce patch release.
- B. Plan this an interim release after checking with Salesforce support.
- C. Plan this as a minor release with training and change management.
- D. Plan this as a major release and align with a Salesforce major release.

**Answer: C**

**NEW QUESTION # 191**

.....
