Microsoft Dynamics 365 Field Service Functional Consultant Sample Questions (Q88-Q93):

NEW QUESTION # 88
Your company uses Microsoft Dynamics 365 Field Service to schedule work orders.
One of the field service operations managers needs to understand when the different resource types should be scheduled.
You need to provide the manager with a matrix of when you should schedule the various resource types on a work order.
What are the resource types you should use for each scenario? To answer, drag the appropriate resource type to the appropriate scenario. Each resource type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view the content.
NOTE: Each correct match is worth one point.

Answer:

Explanation:

NEW QUESTION # 89
